Throughout this document, Domino’s Pizza, Inc. (NYSE: DPZ) is referred to as the “Company,” “Domino’s”, “Domino’s Pizza” or in the first person notations of “we,” “us” and “our.”

In this document, we rely on and refer to information regarding the U.S. quick service restaurant, or QSR, sector and the U.S. QSR pizza category from the CREST® report (years ending November) prepared by The NPD Group, as well as market research reports, analyst reports and other publicly-available information. Although we believe this information to be reliable, we have not independently verified it. Domestic sales information relating to the U.S. QSR sector and the U.S. QSR pizza category represent reported consumer spending obtained by The NPD Group’s CREST® report from consumer surveys. This information relates to both our Company-owned and franchised stores.

Part I

Item 1. Business.

Overview

Domino's is the second largest pizza restaurant chain in the world, with more than 13,800 locations in over 85 markets around the world. Founded in 1960, our roots are in convenient pizza delivery, while a significant amount of our sales also come from carryout customers. Although we are a highly-recognized global brand, we focus on serving the local neighborhoods in which we live and do business through our large network of franchise owners and Company-owned stores. On average, we sell more than 2 million pizzas each day throughout our global system.

Our business model is straightforward: we handcraft and serve quality food at a competitive price, with easy ordering access and efficient service, enhanced by our technology innovations. Our dough is generally made fresh and distributed to stores around the world by us and our franchisees.

Domino's generates revenues and earnings by charging royalties to its franchisees. Royalties are ongoing percent-of-sales fees for use of the Domino's brand marks. The Company also generates revenues and earnings by selling food, equipment and supplies to franchisees primarily in the U.S. and Canada, and by operating a number of our own stores. Franchisees profit by selling pizza and other complementary items to their local customers. In our international markets, we generally grant geographical rights to the Domino's Pizza® brand to master franchisees. These master franchisees are charged with developing their geographical area, and they may profit by sub-franchising and selling ingredients and equipment to those sub-franchisees, as well as by running pizza stores. Everyone in the system can benefit, including the end consumer, who can feed their family Domino's menu items conveniently and economically.

Our business model can yield strong returns for our franchise owners and Company-owned stores. It can also yield significant cash flow to us, through a consistent franchise royalty payment and supply chain revenue stream, with moderate capital expenditures. We have historically returned cash to shareholders through dividend payments and share repurchases since becoming a publicly-traded company.

Our History

We pioneered the pizza delivery business and built Domino's Pizza® into one of the most widely-recognized consumer brands in the world. We have been delivering quality, affordable food to our customers since 1960, when brothers Thomas and James Monaghan borrowed \$900 to purchase a small pizza store in Ypsilanti, Michigan. Thomas purchased his brother's share of the business shortly thereafter. Concentrating first on building stores near college campuses and military bases in the 1960s and 1970s, the brand grew quickly in the 1980s in urban markets and near residential communities. We became "Domino's Pizza" in 1965 and opened our first franchised store in 1967. The first international stores opened in 1983, in Canada and Australia.

Monaghan sold 93% of his economic stake in the Company in 1998 to Bain Capital, LLC, then sold and transferred his remaining stake in the Company in 2004, when we completed our initial public offering.

Since 1998, the Company has been structured with a leveraged balance sheet and has completed a number of recapitalization events. The Company's most recent recapitalization transaction in 2015 (the "2015 Recapitalization") primarily consisted of the issuance of \$1.3 billion of fixed rate notes and the repurchase and retirement of \$551.3 million of previously outstanding fixed rate notes. Following the 2015 Recapitalization, and including debt from its previous recapitalization in 2012 (the "2012 Recapitalization"), the Company had \$2.24 billion in long-term debt.

We re-launched our brand in the U.S. in late 2009 by introducing a new recipe for our core pizza product. Since 2008, the majority of our menu has changed, either through the improvement of existing products or the introduction of new products, such as our Handmade Pan Pizza and Specialty Chicken. During this time frame, we also began expanding our focus on technology through our development of innovative ordering platforms and other technological advancements. Globally, we opened our 10,000th store in 2012 and our 13,000th store in 2016. In 2013, we announced a plan requiring all stores to adopt our new "Pizza Theater" store design, which is more inviting to customers and allows them to see their orders being made fresh in front of them. Our goal is to be substantially complete with these remodels by the end of 2017.

Our Industry

The U.S. QSR pizza category is large and fragmented. From 2006 through 2016, the U.S. QSR pizza category has grown from \$33.1 billion to \$35.8 billion. It is the second-largest category within the \$281.9 billion U.S. QSR sector. The U.S. QSR pizza category is primarily comprised of delivery, dine-in and carryout.

In the U.S., we compete primarily in the delivery and carryout segments of the pizza industry. We are the market share leader in the delivery segment and we are amongst the top three chains in share in the carryout segment. Delivery segment sales of \$10.0 billion in 2016 (down from \$11.4 billion in 2006) account for approximately 28% of total U.S. QSR pizza. The delivery segment declined during the period from 2006 to 2012, and has increased slightly since 2012, from \$9.7 billion in 2012 to \$10.0 billion in 2016. The three industry leaders, including Domino's, account for approximately 56% of U.S. pizza delivery, based on reported consumer spending, with the remaining sales going to regional chains and independent establishments. From 2006 to 2016, the carryout segment grew from \$13.9 billion to \$16.5 billion. The four industry leaders, including Domino's, account for approximately 47% of the carryout segment.

In contrast to the U.S., international pizza delivery is relatively underdeveloped, with only Domino's and two other competitors having a significant global presence. We believe that demand for pizza and pizza delivery is large and growing throughout the world, driven by international consumers' increasing emphasis on convenience, and the proven success of our 30 years of conducting business abroad.

Our Competition

The global pizza delivery and carryout segments are highly competitive. In the U.S., we compete against regional and local companies as well as national chains Pizza Hut®, Papa John's® and Little Caesars Pizza®. Internationally, we compete primarily with Pizza Hut®, Papa John's® and country-specific national and local pizzerias. We generally compete on the basis of product quality, location, image, service, technology and price. Our business and those of our competitors can be affected by changes in consumer tastes, economic conditions, demographic trends and consumers' disposable income. We compete not only for customers, but also for employees, suitable real estate sites and qualified franchisees.

Our Customers

The Company's business is not dependent upon a single retail customer or small group of customers, including franchisees. No customer accounted for more than 10% of total consolidated revenues in 2016, 2015 or 2014. Our largest franchisee based on store count, Domino's Pizza Enterprises (ASX: DMP), operates 1,990 stores in seven international markets, and accounts for 14% of our total store count. Revenues from this master franchisee accounted for 1.5% of our consolidated revenues in 2016. Our international business unit only requires a minimal amount of general and administrative expenses to operate its markets, and does not have costs of sales. Therefore, the vast majority of these royalty revenues result in profits to us.

Our Menu

We offer a menu designed to present an attractive, quality offering to customers, while keeping it simple enough to minimize order errors and expedite order-taking and food preparation. Our basic menu features pizza products with varying sizes and crust types. Our typical store also offers oven-baked sandwiches, pasta, boneless chicken and wings, bread side items, desserts and Coca-Cola® soft drink products. International markets vary toppings by country and culture, such as squid topping in Japan or spicy cheese in India, and often feature regional specialty items, such as a banana and cinnamon dessert pizza in Brazil.

Store Image and Operations

We have been focused primarily on pizza delivery for over 50 years, as well as carryout as a significant component of our business. In 2012, we introduced our carryout-friendly Pizza Theater store design; we expect that substantially all of our stores will convert to this design by the end of 2017. Many stores will offer casual seating and will enable customers to watch the preparation of their orders, but will not offer a full-service dine-in experience. As a result, our stores generally do not require expensive restaurant facilities and staffing.

Research and Development

We conduct research and product development at our World Resource Center in Ann Arbor, Michigan. Company-sponsored research and development activities, which include testing new products for possible menu additions, are an important activity for us and our franchisees. We do not consider the amounts spent on research and development to be material.

Our Business Segments

We operate, and report, three business segments: domestic stores, international franchise and supply chain.

Domestic Stores

Our domestic stores segment consists primarily of our franchise operations, which consist of 4,979 franchised stores located in the contiguous United States. We also operate a network of 392 domestic Company-owned stores located in the contiguous United States.

During 2016, our domestic stores segment accounted for \$751.3 million, or 30% of our consolidated revenues. We use our Company-owned stores as test sites for new products and promotions as well as operational improvements. We also use them for training new store managers and operations team members, as well as developing prospective franchisees. While we are primarily a franchised business, we continuously evaluate our mix of domestic Company-owned and franchise stores.

We maintain a productive relationship with our independent franchise owners through regional franchise teams, distributing materials that help franchise stores comply with our standards and using franchise advisory groups that facilitate communications between us and our franchisees.

Domestic Franchise Profile

As of January 1, 2017, our network of 4,979 domestic franchise stores were owned and operated by 799 domestic franchisees. Our franchise formula enables franchisees to benefit from our brand name with a relatively low initial capital investment. As of January 1, 2017, the average domestic franchisee owned and operated six stores and had been in our franchise system for over 17 years. At the same time, 14 of our domestic franchisees operated more than 50 stores (including our largest domestic franchisee who operated 189 stores) and 277 of our domestic franchisees each operated one store.

We apply rigorous standards to prospective domestic franchisees. We generally require them to manage a store for at least one year before being granted a franchise. This enables us to observe the operational and financial performance of a potential franchisee prior to entering into a long-term contract. Approximately 90% of our 799 independent domestic franchise owners started their careers with us as delivery drivers or in other in-store positions. We generally restrict the ability of domestic franchisees to be involved in other businesses, which focuses our franchisees' attention on operating their stores. As a result, the majority of our domestic franchisees have historically come from within the Domino's Pizza system. We believe these standards are largely unique to the franchise industry and result in qualified and focused franchisees operating their stores.

Domestic Franchise Agreements

We enter into franchise agreements with domestic franchisees under which the franchisee is generally granted the right to operate a store in a particular location for a term of ten years, with an ability to renew for an additional term of ten years. We have a franchise contract renewal rate of approximately 99%. Under the current standard franchise agreement, we assign an exclusive area of primary responsibility to each franchised store. Each franchisee is generally required to pay a 5.5% royalty fee on sales. In certain instances, we will collect lower rates based on area development agreements, sales initiatives and new store incentives.

Our domestic stores currently contribute 6% of their retail sales to fund national marketing and advertising campaigns (subject, in limited instances, to lower rates based on certain incentives and waivers). These funds are administered by Domino's National Advertising Fund Inc. ("DNAF"), our not-for-profit advertising subsidiary. The funds are primarily used to purchase media for advertising, but also support market research, field communications, public relations, commercial production, talent payments and other activities to promote the brand. In addition to the national and market-level advertising contributions, domestic stores spend additional funds on local store marketing activities.

We have the contractual right, subject to state law, to terminate a franchise agreement for a variety of reasons, including, but not limited to, a franchisee's failure to adhere to the Company's franchise agreement, failure to make required payments, or failure to adhere to specified Company policies and standards.

International Franchise

Our international franchise segment is comprised of a network of franchised stores in more than 85 international markets. At January 1, 2017, we had 8,440 international franchise stores. During 2016, this segment accounted for \$177.0 million, or 7% of our consolidated revenues. The principal sources of revenues from those operations are royalty payments generated by retail sales from franchised stores.

Our international franchisees employ our basic standard operating model, and adapt it to satisfy the local eating habits and consumer preferences of various regions outside the United States. Currently, the vast majority of our international stores operate under master franchise agreements.

We believe Domino's appeals to potential international franchisees because of our recognized brand name and technological leadership, the moderate capital expenditures required to open and operate our stores and our system's favorable store economics. In our top ten markets, four master franchise companies are publicly traded on stock exchanges: in Australia (ASX: DMP), India (JUBLFOOD: NS), Mexico (ALSEA: MX) and the United Kingdom (DOM: L). The following table shows our store count as of January 1, 2017 in our top ten international markets, which account for approximately 67% of our international stores.

<u>Market</u>	<u>Number of stores</u>
India	1,106
United Kingdom	947
Mexico	655
Australia	623
Turkey	477
Japan	472
Canada	438
South Korea	433
France	325
Germany	213

International Franchisee Profile

The vast majority of our markets outside of the contiguous United States are operated by master franchisees with franchise and distribution rights for entire regions or countries. In a few select markets, we franchise directly to individual store operators. Prospective master franchisees are required to possess local market knowledge to establish and develop Domino's Pizza stores, with the ability to identify and access targeted real estate sites, as well as expertise in local laws, customs, culture and consumer behavior. We also seek candidates that have access to sufficient capital to meet growth and development plans.

Master Franchise Agreements

Our master franchise agreements generally grant the franchisee exclusive rights to develop or sub-franchise stores and the right to operate supply chain centers in particular geographic areas. Agreements are generally for a term of ten to 20 years, with options to renew for additional terms. The agreements typically contain growth clauses requiring franchisees to open a minimum number of stores within a specified period. The master franchisee is generally required to pay an initial, one-time franchise fee as well as an additional franchise fee upon the opening of each new store. The master franchisee is also required to pay a continuing royalty fee as a percentage of retail sales, which varies among international markets, and averaged approximately 3.0% in 2016.

Supply Chain

Our supply chain segment operates 18 regional dough manufacturing and food supply chain centers in the U.S., one thin crust manufacturing center, one vegetable processing center and one center providing equipment and supplies to certain of our domestic and international stores. We also operate five dough manufacturing and food supply chain centers in Canada. Our supply chain segment leases a fleet of more than 650 tractors and trailers. During 2016, our supply chain segment accounted for \$1.54 billion, or 62% of our consolidated revenues.

Our centers produce fresh dough and purchase, receive, store and deliver quality food and other complementary items to over 99% of our U.S. and Canadian franchised stores and all of our Company-owned stores. We regularly supply over 5,800 stores with various food and supplies. Our supply chain segment made approximately 593,000 full-service deliveries in 2016 or approximately two deliveries per store per week, and we produced over 462 million pounds of dough during 2016.

[Table of Contents](#)

We believe our franchisees voluntarily choose to obtain food, supplies and equipment from us because we offer the most efficient, convenient and cost-effective alternative, while also offering both quality and consistency. Our supply chain segment offers profit-sharing arrangements to franchisees who purchase all of their food for their stores from our centers. These profit-sharing arrangements generally offer participating franchisees and Company-owned stores with 50% (or a higher percentage in the case of Company-owned stores and certain franchisees who operate a larger number of stores) of their regional supply chain center's pre-tax profits. We believe these arrangements strengthen our ties and provide aligned benefits with franchisees.

Third-Party Suppliers

Over half of our annual food spend is with suppliers where we have maintained a partnership of at least 20 years. Our supply partners are required to meet strict quality standards to ensure food safety. We review and evaluate these partners' quality assurance programs through (among other actions) on-site visits, third party audits and product evaluations to ensure compliance with our standards. We believe the length and quality of our relationships with third-party suppliers provides us with priority service and quality products at competitive prices.

Cheese is our largest food cost. The price we charge to our domestic franchisees for cheese is based on the Chicago Mercantile Exchange cheddar block price, plus a supply chain markup. As cheese prices fluctuate, our revenues and margin percentages in our supply chain segment also fluctuate; however, actual supply chain dollar margins remain unchanged. We currently purchase our domestic pizza cheese from a single supplier. Under the September 2012 agreement, our domestic supplier agreed to provide an uninterrupted supply of cheese and the Company agreed to a five-year pricing schedule to purchase all of its domestic pizza cheese from this supplier. While we expect to meet the terms of this agreement, if we do not, we will be required to repay the cost savings as outlined in the agreement. The majority of our meat toppings in the U.S. come from a single supplier under contracts that expire in March of 2017. We have the right to terminate these arrangements for quality failures and for uncured breaches.

We are party to a multi-year agreement with Coca-Cola for the contiguous United States. This contract, renegotiated in December 2013, provides for Coca-Cola to continue to be our exclusive beverage supplier and expires on December 31, 2018 or at such time as a minimum number of cases of Coca-Cola products are purchased by us, whichever occurs later.

We believe alternative third-party suppliers are available for all of these referenced products. While we may incur additional costs if we are required to replace any of our supply partners, we do not believe such additional costs would have a material adverse effect on our business. We continually evaluate each supply category to determine the optimal sourcing strategy.

We have not experienced any significant shortages of supplies or delays in receiving our inventories or products. Prices charged to us by our supply partners are subject to fluctuation, and we have historically been able to pass increased costs and savings on to our stores. We periodically enter into supplier contracts to manage the risk from changes in commodity prices. We do not engage in speculative transactions, nor do we hold or issue financial instruments for trading purposes.

Our Strengths

Strong Brand Equity

We are the second largest pizza company in the world. We believe our Domino's Pizza® brand is one of the most widely-recognized consumer brands in the world. We are the recognized world leader in pizza delivery and have a significant business in carryout. We believe consumers associate our brand with the timely delivery of quality, affordable food.

Over the past five years, our U.S. franchise and Company-owned stores have invested an estimated \$1.6 billion in national, co-operative and local advertising. Our international franchisees also invest significant amounts in advertising efforts in their markets. We continue to reinforce our brand with extensive advertising through various media channels. We have also enhanced the strength of our brand through marketing affiliations with brands such as Coca-Cola.

We are the number one pizza delivery company in the United States with a 27.0% share of pizza delivery based on reported consumer spending. With 5,371 stores located in the contiguous United States, our store delivery areas cover a majority of U.S. households. Our share position and scale allow us to leverage our purchasing power, supply chain strength and marketing investments. We believe our scale and market coverage allow us to effectively serve our customers' demands for convenience and timely delivery. Outside the U.S., we have significant market share positions in many of the markets in which we compete.

Strong and Proven Business Model

Our business model is comprised of domestic and international franchise royalties and fees, revenue from supply chain and revenue from retail sales at Company-owned stores. We have developed this model over our many years of operation and it is anchored by strong store-level economics, which provide an entrepreneurial incentive for our franchisees and historically has generated demand for new stores. Our franchise system, in turn, has produced strong and consistent earnings for us through royalty payments and through supply chain revenues, with moderate capital expenditures by us.

We developed a cost-efficient store model, characterized by a delivery- and carryout-oriented store design, with moderate capital requirements and a menu of quality, affordable items. At the store level, we believe the simplicity and efficiency of our operations give us significant advantages over our competitors, who, in many cases, also focus on dine-in or have broader menu offerings. At the supply chain level, we believe we provide quality and consistency for our franchise customers while also driving profits for us, which we share with our franchisees.

Our menu simplifies and streamlines production and delivery processes and maximizes economies of scale on purchases of our principal food items. In addition, our stores are small (historically averaging approximately 1,500 square feet) and less expensive to build, furnish and maintain as compared to many other restaurant concepts. Although new stores built in our Pizza Theater design may be slightly larger than stores we have built in the past, they are still generally smaller and less expensive than many other restaurant concepts. The combination of this efficient store model and strong sales volume has resulted in strong store-level financial returns and, we believe, makes Domino's Pizza an attractive business opportunity for existing and prospective franchisees around the world.

We believe our store economics have led to a strong, well-diversified franchise system. This established franchise system has produced strong cash flow and earnings for us, enabling us to invest in the Domino's Pizza® brand, stores, technology and supply chain centers, pay significant dividends, repurchase and retire shares of our common stock and repurchase and retire outstanding principal on our fixed rate notes.

Technological Innovation

Technological innovation is vital to our brand and our long-term success. Digital ordering is critical to competing in the global pizza industry. In 2016, more than half of our U.S. sales came via digital platforms. That metric is higher in some of our international markets. We believe we are among the largest e-commerce retailers in terms of annual transactions. After launching digital ordering domestically in 2008, we made the strategic decision in 2010 to develop our own online ordering platform and to manage this important and growing area of our business internally. Over the next five years, we launched mobile applications that cover 95% of the smartphones and tablets on the U.S. market. In 2013, we launched an enhanced online ordering profiles platform, allowing customers the ability to reorder their favorite order in as few as five clicks, or 30 seconds. In 2014, we introduced "Dom," a voice ordering application, which we believe is the first in the restaurant industry, and we also made the Domino's Tracker® available on the Pebble smartwatch platform. In 2015, we introduced several innovative ordering platforms including Samsung Smart TV®, Twitter, and text message using a pizza emoji. We continued this trend of innovation in 2016 with the introduction of zero-click ordering as well as adding Google Home, Facebook Messenger, Apple Watch, and Amazon Echo to our ordering platforms.

During 2015, the Company also launched its "Piece of the Pie Rewards" loyalty program, which is meant to reward customers with a program that is simple to understand and easy to use. Upon signing up for the program, customers become rewards members and can earn points for online orders. When rewards members reach a certain amount of points, they can redeem their points for free pizza. Rewards members may also receive exclusive members-only discounts and bonus offers. We may also occasionally provide additional opportunities for participating customers to benefit under the "Piece of the Pie Rewards" program.

All of this improved functionality has been developed to work seamlessly with our Domino's PULSE™ point-of-sale system. Our Domino's PULSE system is designed to drive operating efficiencies for our franchisees and our corporate management and assist franchisees in independently managing their business. We have installed Domino's PULSE in every Company-owned store in the U.S., in more than 99% of our domestic franchised stores and in over 65% of our international stores.

We believe utilizing Domino's PULSE with our integrated technology solutions throughout our system, provides us with competitive advantages over other concepts. We intend to continue to enhance and grow our online ordering, digital marketing and technological capabilities.

[Table of Contents](#)

Product Innovation

In late 2009, we reintroduced our core pizza in the U.S. with a new recipe, which we believe has been key to our continued growth in customer reorder rate, consumer traffic and increased sales. This recipe is now in use in the vast majority of markets around the world. Our more than 50 years of innovation have resulted in numerous new product developments, including our more recent innovations of Handmade Pan Pizza, Specialty Chicken, Parmesan Bread Bites, Stuffed Cheesy Bread, and Marbled Cookie Brownie, among others. Product innovation is also present in our global markets, where our master franchisees have the ability to recommend products to suit their local market tastes. Products include the Mayo Jaga in Japan (bacon, potatoes and sweet mayonnaise) and the Saumoneta in France (light cream, potatoes, onions, smoked salmon and dill).

Internal Dough Manufacturing and Supply Chain System

In addition to generating significant revenues and earnings in the United States and Canada, we believe our vertically integrated dough manufacturing and supply chain system enhances the quality and consistency of our products, enhances our relationships with franchisees and leverages economies of scale to offer lower costs to our stores. It also allows store managers to better focus on store operations and customer service by relieving them of the responsibility of mixing dough in the stores and sourcing other ingredients. Many of our international master franchisees also profit from running supply chain businesses.

Our Ideals

We believe in: opportunity, hard work, inspired solutions, winning together, embracing community, and uncommon honesty.

Opportunity abounds at Domino's. You can start in an entry-level position and become a store owner – in fact, approximately 90% of our independent domestic franchise owners started their careers with us as delivery drivers or in other in-store positions. Thousands of other team members – supervisors, trainers, quality auditors, international business consultants, marketers and executives – also began their careers in the stores. Internal growth and providing opportunities for anyone willing to work hard is the foundation of our core beliefs.

The ideals of inspired solutions, uncommon honesty and winning together were driving forces behind the relaunch of our brand. We were inspired by our harshest critics when it came to the perceived taste of our pizza. Our solution was not simply more advertising; the solution was to create a new recipe and a broader menu of great-tasting products. Our marketing campaign was shockingly honest in its approach: telling consumers (and showing them via television ads) that we heard their negative feedback and were listening. And, without the buy-in from our franchise owners, we couldn't have done it. We believe that we can't focus solely on the Company's success; we must focus on making our stores and our franchisees successful. That's winning together.

Community Involvement

We believe in supporting the communities we serve through donating our time, money and pizza. You can find more information about our community giving at biz.dominos.com. Here are two organizations worthy of note:

Our national philanthropic partner is St. Jude Children's Research Hospital®. St. Jude is internationally-recognized for its pioneering work in finding cures and saving children with cancer and other catastrophic diseases. Through a variety of internal and consumer-based activities, including a national fundraising campaign called *St. Jude Thanks and Giving*®, the Domino's Pizza system has contributed more than \$38.0 million to St. Jude since our partnership began in 2004, including raising \$7.3 million in 2016. In addition to raising funds, we have supported St. Jude through in-kind donations, including hosting hospital-wide pizza parties for patients and their families. Our system also helps St. Jude build awareness through the inclusion of the St. Jude logo on millions of our pizza boxes and through a link on our consumer website.

We also support the Domino's Pizza Partners Foundation. Founded in 1986, the mission of the Partners Foundation is "Team Members Helping Team Members." Primarily funded by team member and franchise contributions, the foundation is a separate, not-for-profit organization that has disbursed more than \$5.3 million over the past five years to meet the needs of Domino's team members facing crisis situations, such as fire, illness, or other personal tragedies.

Additional Disclosures

Employees

As of January 1, 2017, we had approximately 14,100 employees in our Company-owned stores, supply chain centers, World Resource Center (our corporate headquarters) and regional offices. None of our employees are represented by a labor union or covered by a collective bargaining agreement. As franchisees are independent business owners, they and their employees are not included in our employee count. We consider our relationship with our employees and franchisees to be good. We estimate the total number of people who work in the Domino's Pizza system, including our employees, franchisees and the employees of franchisees, was more than 290,000 as of January 1, 2017.

Working Capital

Information about the Company's working capital is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7., pages 34 through 37.

Government Regulation

We, along with our franchisees, are subject to various federal, state and local laws affecting the operation of our business. Each store is subject to licensing and regulation by a number of governmental authorities, which include zoning, health, safety, sanitation, building and fire agencies in the jurisdiction in which the store is located. In connection with maintaining our stores, we may be required to expend funds to meet certain federal, state and local regulations, including regulations requiring that remodeled or altered stores be accessible to persons with disabilities. Difficulties in obtaining, or the failure to obtain, required licenses or approvals could delay or prevent the opening of a new store in a particular area or cause an existing store to cease operations. Our supply chain facilities are also licensed and subject to similar regulations by federal, state and local health and fire codes.

We are also subject to the Fair Labor Standards Act and various other federal and state laws governing such matters as minimum wage requirements, overtime and other working conditions and citizenship requirements. A significant number of both our and our franchisees' food service personnel are paid at rates related to the applicable minimum wage, and past increases in the minimum wage have increased labor costs, as would future increases.

We are subject to the rules and regulations of the Federal Trade Commission and various state laws regulating the offer and sale of franchises. The Federal Trade Commission and various state laws require that we furnish a franchise disclosure document containing certain information to prospective franchisees, and a number of states require registration of the franchise disclosure document with state authorities. We are operating under exemptions from registration in several states based on the net worth of our subsidiary, Domino's Pizza Franchising LLC, and experience. We believe our franchise disclosure document, together with any applicable state versions or supplements, and franchising procedures comply in all material respects with both the Federal Trade Commission guidelines and all applicable state laws regulating franchising in those states in which we have offered franchises.

Internationally, our franchise stores are subject to national and local laws and regulations that are often similar to those affecting our domestic stores, including laws and regulations concerning franchises, labor, health, sanitation and safety. Our international stores are also often subject to tariffs and regulations on imported commodities and equipment, and laws regulating foreign investment. We believe our international disclosure statements, franchise offering documents and franchising procedures comply in all material respects with the laws of the foreign countries in which we have offered franchises.

Privacy and Data Protection

We are subject to a number of privacy and data protection laws and regulations globally. The legislative and regulatory landscape for privacy and data protection continues to evolve, and there has been an increase in attention given to privacy and data protection issues with the potential to directly affect our business. This includes recently-enacted laws and regulations in the United States and internationally requiring notification to individuals and government authorities of security breaches involving certain categories of personal information. We have a privacy policy posted on our website at www.dominos.com and believe that we are in material compliance therewith.

Trademarks

We have many registered trademarks and service marks and believe that the Domino's® mark and Domino's Pizza® names and logos, in particular, have significant value and are important to our business. Our policy is to pursue registration of our trademarks and to vigorously oppose the infringement of any of our trademarks. We license the use of our registered marks to franchisees through franchise agreements.

Environmental Matters

We are not aware of any federal, state or local environmental laws or regulations that we would expect to materially affect our earnings or competitive position, or result in material capital expenditures. However, we cannot predict the effect of possible future environmental legislation or regulations. During 2016, there were no material environmental compliance-related capital expenditures, and no such material expenditures are anticipated in 2017.

Seasonal Operations

The Company's business is not typically seasonal.

Backlog Orders

The Company has no backlog orders as of January 1, 2017.

Government Contracts

No material portion of the Company's business is subject to renegotiation of profits or termination of contracts or subcontracts at the election of the United States government.

Item 1A. Risk Factors.

The quick service restaurant pizza category is highly competitive and such competition could adversely affect our operating results.

In the U.S., we compete against regional and local companies as well as national chains Pizza Hut®, Papa John's® and Little Caesars Pizza®. Internationally, we compete primarily with Pizza Hut®, Papa John's® and country-specific national and local pizzerias. We could experience increased competition from existing or new companies in the pizza category which could create increasing pressures to grow our business in order to maintain our market share. If we are unable to maintain our competitive position, we could experience downward pressure on prices, lower demand for our products, reduced margins, the inability to take advantage of new business opportunities and the loss of market share, all of which would have an adverse effect on our operating results and could cause our stock price to decline.

We also compete on a broader scale with quick service and other international, national, regional and local restaurants. The overall food service market and the quick service restaurant sector are intensely competitive with respect to food quality, price, service, image, convenience and concept, and are often affected by changes in:

- consumer tastes;
- international, national, regional or local economic conditions;
- disposable purchasing power;
- demographic trends; and
- currency fluctuations related to international operations.

We compete within the food service market and the quick service restaurant sector not only for customers, but also for management and hourly employees, suitable real estate sites and qualified franchisees. Our supply chain segment is also subject to competition from outside suppliers. While over 99% of domestic franchisees purchased food, equipment and supplies from us in 2016, domestic franchisees are not required to purchase food, equipment or supplies from us and they may choose to purchase from outside suppliers. If other suppliers who meet our qualification standards were to offer lower prices or better service to our franchisees for their ingredients and supplies and, as a result, our franchisees chose not to purchase from our domestic supply chain centers, our financial condition, business and results of operations would be adversely affected.

If we fail to successfully implement our growth strategy, which includes opening new domestic and international stores, our ability to increase our revenues and operating profits could be adversely affected.

A significant component of our growth strategy includes the opening of new domestic and international stores. We and our franchisees face many challenges in opening new stores, including, among others:

- availability of financing with acceptable terms;
- selection and availability of suitable new store sites and the ability to renew leases in quality locations;
- negotiation of acceptable lease or financing terms;
- securing required domestic or foreign governmental permits, licenses and approvals;
- employment and training of qualified personnel; and
- general economic and business conditions.

The opening of additional franchise stores also depends, in part, upon the availability of prospective franchisees who meet our criteria. Our failure to add a significant number of new stores would adversely affect our ability to increase revenues and operating income. Additionally, our growth strategy and the success of new stores depend in large part on the availability of suitable store sites. If we and our franchisees are not able to secure leases in desired locations on favorable terms, or to renew such leases, our business and results of operations may be adversely affected.

We and our franchisees are currently planning to expand our international operations in many of the markets where we currently operate and in select new markets. This may require considerable management time as well as start-up expenses for market development before any significant revenues and earnings are generated. Operations in new foreign markets may achieve low margins or may be unprofitable, and expansion in existing markets may be affected by local economic and market conditions. Therefore, as we expand internationally, we or our franchisees may not experience the operating margins we expect, our results of operations may be negatively impacted and our common stock price may decline.

We may also pursue strategic acquisitions as part of our business. If we are able to identify acquisition candidates, such acquisitions may be financed, to the extent permitted under our debt agreements, with substantial debt or with potentially dilutive issuances of equity securities.

[Table of Contents](#)

The food service market is affected by consumer preferences and perceptions. Changes in these preferences and perceptions may reduce the demand for our products, which would reduce sales and harm our business.

Food service businesses are affected by changes in consumer tastes, international, national, regional and local economic conditions, and demographic trends. For instance, if prevailing health or dietary preferences cause consumers to avoid pizza and other products we offer in favor of foods that are perceived as more healthy, our business and operating results would be harmed. Moreover, because we are primarily dependent on a single product, if consumer demand for pizza should decrease, our business would suffer more than if we had a more diversified menu, as many other food service businesses do. The preferences of customers also may change as a result of advances in technology or alternative delivery methods or channels. If we are not able to respond to these changes, or our competitors respond to these changes more effectively, our business and operating results could be adversely affected.

Reports of food-borne illness or food tampering could reduce sales and harm our business.

Reports, whether true or not, of food-borne illnesses (such as E. coli, avian flu, bovine spongiform encephalopathy, hepatitis A, trichinosis or salmonella) and injuries caused by food tampering have in the past severely injured the reputations of participants in the QSR sector and could in the future as well. The potential for acts of terrorism on our global food supply also exists and, if such an event occurs, it could have a negative impact on us and could severely hurt sales and profits. In addition, our reputation is an important asset; as a result, anything that damages our reputation could immediately and severely affect our sales and profits. Media reports of illnesses and injuries, whether accurate or not, could force some stores to close or otherwise reduce sales at such stores. In addition, reports of food-borne illnesses or food tampering, even those occurring solely at the restaurants of competitors, could, by resulting in negative publicity about the restaurant industry, adversely affect us on a local, regional, national or international basis.

Increases in food, labor and other costs could adversely affect our profitability and operating results.

An increase in our operating costs could adversely affect our profitability. Factors such as inflation, increased food costs, increased labor and employee health and benefit costs, increased rent costs and increased energy costs may adversely affect our operating costs. Most of the factors affecting costs are beyond our control and, in many cases, we may not be able to pass along these increased costs to our customers or franchisees. Most ingredients used in our pizza, particularly cheese, are subject to significant price fluctuations as a result of seasonality, weather, demand and other factors. The cheese block price per pound averaged \$1.56 in 2016, and the estimated increase in Company-owned store food costs from a hypothetical \$0.25 adverse change in the average cheese block price per pound would have been approximately \$2.5 million in 2016. Labor costs are largely a function of the minimum wage for a majority of our store personnel and certain supply chain center personnel and, generally, are also a function of the availability of labor. Labor costs and food costs, including cheese, represent approximately 50% to 60% of the sales at a typical Company-owned store.

We do not have long-term contracts with certain of our suppliers, and as a result they could seek to significantly increase prices or fail to deliver.

We do not have long-term contracts or arrangements with certain of our suppliers. Although in the past we have not experienced significant problems with our suppliers, our suppliers may implement significant price increases or may not meet our requirements in a timely fashion, or at all. The occurrence of any of the foregoing could have a material adverse effect on our results of operations.

Shortages or interruptions in the supply or delivery of fresh food products could adversely affect our operating results.

We and our franchisees are dependent on frequent deliveries of food products that meet our specifications. In addition, we have single suppliers or a limited number of suppliers for certain of our ingredients, including pizza cheese. While we believe there are adequate reserve quantities and potential alternative suppliers, shortages or interruptions in the supply of food products caused by unanticipated demand, problems in production or distribution, financial or other difficulties of suppliers, inclement weather or other conditions could adversely affect the availability, quality and cost of ingredients, could adversely affect our operating results.

Any prolonged disruption in the operations of any of our dough manufacturing and supply chain centers could harm our business.

We operate 18 regional dough manufacturing and supply chain centers, one thin crust manufacturing center and one vegetable processing center in the United States and five dough manufacturing and supply chain centers in Canada. Our domestic dough manufacturing and supply chain centers service all of our Company-owned stores and over 99% of our domestic franchise stores.

[Table of Contents](#)

As a result, any prolonged disruption in the operations of any of these facilities, whether due to technical or labor difficulties, destruction or damage to the facility, real estate issues, limited capacity or other reasons, could adversely affect our business and operating results.

Our success depends in part upon effective advertising, and lower advertising funds may reduce our ability to adequately market the Domino's Pizza® brand.

We have been routinely named a Leading National Advertiser by *Advertising Age*. Each Domino's store located in the contiguous United States is obligated to pay a percentage of its sales in advertising fees. In fiscal 2016, each store in the contiguous United States generally was required to contribute 6% of their sales to DNAF (subject, in limited instances, to lower rates based on certain incentives and waivers), which uses such fees for national advertising in addition to contributions for local market-level advertising. We currently anticipate that this 6% contribution rate will remain in place for the foreseeable future. While additional funds for advertising in the past have been provided by us, our franchisees and other third parties, none of these additional funds are legally required. The lack of continued financial support for advertising activities could significantly curtail our marketing efforts, which may in turn materially and adversely affect our business and our operating results.

We face risks of litigation and negative publicity from customers, franchisees, suppliers, employees and others in the ordinary course of business, which can or could divert our financial and management resources. Any adverse litigation or publicity may negatively impact our financial condition and results of operations.

Claims of illness or injury relating to food quality or food handling are common in the food service industry, and vehicular accidents and injuries occur in the food delivery business. Claims within our industry of improper supplier actions also occasionally arise that, if made against one of our suppliers, could potentially damage our brand image. In addition, class action lawsuits have been filed, and may continue to be filed, against various quick service restaurants alleging, among other things, that quick service restaurants have failed to disclose the health risks associated with high-fat foods and that quick service restaurant marketing practices have encouraged obesity. In addition to decreasing our sales and profitability and diverting our management resources, adverse publicity or a substantial judgment against us could negatively impact our financial condition, results of operations and brand reputation, thereby hindering our ability to attract and retain franchisees and grow our business.

Further, we may be subject to employee, franchisee and other claims in the future based on, among other things, discrimination, harassment, wrongful termination and wage, rest break and meal break issues, and those claims relating to overtime compensation. We are currently subject to these types of claims and have been subject to these types of claims in the past. If one or more of these claims were to be successful or if there is a significant increase in the number of these claims or if we receive significant negative publicity, our business, financial condition and operating results could be harmed.

Loss of key employees or our inability to attract and retain new qualified employees could hurt our business and inhibit our ability to operate and grow successfully.

Our success in the highly competitive pizza delivery and carry-out business will continue to depend to a significant extent on our leadership team and other key management personnel. Other than with our President and Chief Executive Officer, J. Patrick Doyle, we do not have long-term employment agreements with any of our executive officers. As a result, we may not be able to retain our executive officers and key personnel or attract additional qualified management. While we do not have long-term employment agreements with our executive officers, for all of our executive officers we have non-compete and non-solicitation agreements that extend for 24 months following the termination of such executive officer's employment. Our success will also continue to depend on our ability to attract and retain qualified personnel to operate our stores, dough manufacturing and supply chain centers and international operations. The loss of these employees or our inability to recruit and retain qualified personnel could have a material adverse effect on our operating results.

Adverse global economic conditions subject us to additional risk.

Our financial condition and results of operations are impacted by global markets and economic conditions over which neither we nor our franchisees have control. An economic downturn, including deterioration in the economic conditions in the U.S. or international markets where we compete, may result in a reduction in the demand for our products, longer payment cycles, slower adoption of new technologies and increased price competition. Poor economic conditions may adversely affect the ability of our franchisees to pay royalties or amounts owed, and could have a material adverse impact on our ability to pursue our growth strategy, which would reduce cash collections and in turn, may materially and adversely affect our ability to service our debt obligations.

[Table of Contents](#)

Our international operations subject us to additional risk. Such risks and costs may differ in each country in which we and our franchisees do business and may cause our profitability to decline due to increased costs.

We conduct a significant and growing portion of our business outside the United States. Our financial condition and results of operations may be adversely affected if global markets in which our franchise stores compete are affected by changes in political, economic or other factors. These factors, over which neither we nor our franchisees have control, may include:

- recessionary or expansive trends in international markets;
- changing labor conditions and difficulties in staffing and managing our foreign operations;
- increases in the taxes we pay and other changes in applicable tax laws;
- legal and regulatory changes, and the burdens and costs of our compliance with a variety of foreign laws;
- changes in inflation rates;
- changes in exchange rates and the imposition of restrictions on currency conversion or the transfer of funds;
- difficulty in collecting our royalties and longer payment cycles;
- expropriation of private enterprises;
- increases in anti-American sentiment and the identification of the Domino's Pizza® brand as an American brand;
- political and economic instability and uncertainty around the world, including uncertainty arising as a result of the United Kingdom's referendum in June 2016 in which voters approved an exit from the European Union, commonly referred to as "Brexit"; and
- other external factors.

Fluctuations in the value of the U.S. dollar in relation to other currencies may lead to lower revenues and earnings.

Exchange rate fluctuations could have an adverse effect on our results of operations. Approximately 7.2% of our total revenues in 2016, 7.4% of our total revenues in 2015 and 7.7% of our total revenues in 2014 were derived from our international franchise segment, a majority of which were denominated in foreign currencies. We also operate dough manufacturing and distribution facilities in Canada, which generate revenues denominated in Canadian dollars. Sales made by franchise stores outside the United States are denominated in the currency of the country in which the store is located, and this currency could become less valuable in U.S. dollars as a result of exchange rate fluctuations. Unfavorable currency fluctuations could lead to increased prices to customers outside the United States or lower profitability to our franchisees outside the United States, or could result in lower revenues for us, on a U.S. dollar basis, from such customers and franchisees. A hypothetical 10% adverse change in the foreign currency rates in our international markets would have resulted in a negative impact on international royalty revenues of approximately \$16.7 million in 2016.

We may not be able to adequately protect our intellectual property, which could harm the value of our brand and branded products and adversely affect our business.

We depend in large part on our brand and branded products and believe that they are very important to our business. We rely on a combination of trademarks, copyrights, service marks, trade secrets and similar intellectual property rights to protect our brand and branded products. The success of our business depends on our continued ability to use our existing trademarks and service marks in order to increase brand awareness and further develop our branded products in both domestic and international markets. We have registered certain trademarks and have other trademark registrations pending in the United States and foreign jurisdictions. Not all of the trademarks that we currently use have been registered in all of the countries in which we do business, and they may never be registered in all of these countries. We may not be able to adequately protect our trademarks and our use of these trademarks may result in liability for trademark infringement, trademark dilution or unfair competition. All of the steps we have taken to protect our intellectual property in the United States and in foreign countries may not be adequate. In addition, the laws of some foreign countries do not protect intellectual property rights to the same extent as the laws of the United States. Further, through acquisitions of third parties, we may acquire brands and related trademarks that are subject to the same risks as the brands and trademarks we currently own.

We may, from time to time, be required to institute or defend litigation to enforce our trademarks or other intellectual property rights, or to protect our trade secrets. Such litigation could result in substantial costs and diversion of resources and could negatively affect our sales, profitability and prospects regardless of whether we are able to successfully enforce our rights.

[Table of Contents](#)

Our earnings and business growth strategy depends on the success of our franchisees, and we may be harmed by actions taken by our franchisees, or employees of our franchisees, that are outside of our control.

A significant portion of our earnings comes from royalties and fees generated by our franchise stores. Franchisees are independent operators, and their employees are not our employees. We provide tools for franchisees to use in training their employees, but the quality of franchise store operations and our brand and branded products may be diminished by any number of factors beyond our control. Franchisees may not operate stores in a manner consistent with our standards and requirements or they or their employees may take other actions that adversely affect the value of our brand. In such event, our business and reputation may suffer, and as a result our revenues and stock price could decline.

As of January 1, 2017, we had 799 domestic franchisees operating 4,979 domestic stores. Fourteen of these franchisees each own and operate over 50 domestic stores, including our largest domestic franchisee who owns and operates 189 stores, and the average franchisee owns and operates six stores.

Our international master franchisees are generally responsible for the development of significantly more stores than our domestic franchisees. As a result, our international operations are more closely tied to the success of a smaller number of franchisees than our domestic operations. Our largest international master franchisee operates 1,990 stores in seven markets, which accounts for approximately 24% of our total international store count. Our domestic and international franchisees may not operate their franchises successfully. If one or more of our key franchisees were to become insolvent or otherwise were unable or unwilling to pay us our royalties or other amounts owed, our business and results of operations would be adversely affected.

The occurrence of cyber incidents, or a deficiency in cybersecurity, could negatively impact our business by causing a disruption to our operations, a compromise or corruption of confidential information, or damage to our employee and business relationships, any of which could subject us to loss and harm our brand.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of information resources. More specifically, a cyber incident is an intentional attack or an unintentional event that can include gaining unauthorized access to systems to disrupt operations, corrupt data or steal confidential information about customers, franchisees, suppliers or employees. A number of retailers and other companies have recently experienced serious cyber incidents and breaches of their information technology systems. As our reliance on technology has increased, so have the risks posed to our systems, both internal and those we have outsourced. The three primary risks that could directly result from the occurrence of a cyber incident include operational interruption, damage to our relationships with customers, franchisees and employees and private data exposure. In addition to maintaining insurance coverage to address cyber incidents, we have also implemented processes, procedures and controls to help mitigate these risks. However, these measures, as well as our increased awareness of the risk of a cyber incident, do not guarantee that our reputation and financial results will not be adversely affected by such an incident.

Because we and our franchisees accept electronic forms of payment from customers, our business requires the collection and retention of customer data, including sensitive data and other personally identifiable information in various information systems that we and our franchisees maintain and in those maintained by third parties with whom we and our franchisees contract to provide payment processing. We also maintain important internal Company data, such as personally identifiable information about our employees and franchisees and information relating to our operations. Our use of personally identifiable information is regulated by foreign, federal and state laws, as well as by certain third-party agreements. As privacy and information security laws and regulations change, we may incur additional costs to ensure that we remain in compliance with those laws and regulations. If our security and information systems are compromised or if our employees or franchisees fail to comply with these laws, regulations or contract terms, and this information is obtained by unauthorized persons or used inappropriately, it could adversely affect our reputation and could disrupt our operations and result in costly litigation, judgments or penalties. A cyber incident could also require us to notify customers, employees or other groups, result in adverse publicity, loss of sales and profits, increase fees payable to third parties and result in penalties or remediation and other costs that could adversely affect our business and results of operations.

We are subject to extensive government regulation and requirements issued by other groups and our failure to comply with existing or increased regulations could adversely affect our business and operating results.

We are subject to numerous federal, state, local and foreign laws and regulations, as well as requirements issued by other groups, including those relating to:

- the preparation, sale and labeling of food;
- building and zoning requirements;
- environmental protection;

[Table of Contents](#)

- minimum wage, overtime and other labor requirements;
- compliance with securities laws and New York Stock Exchange listed company rules;
- compliance with the Americans with Disabilities Act of 1990, as amended;
- working and safety conditions;
- menu labeling and other nutritional requirements;
- compliance with the Payment Card Industry Data Security Standards and similar requirements;
- compliance with the Patient Protection and Affordable Care Act, and subsequent amendments (the “Affordable Care Act”); and
- compliance with the Dodd-Frank Wall Street Reform and Consumer Protection Act and any rules promulgated thereunder.

The Affordable Care Act requires employers such as us to provide health insurance for all qualifying employees or pay penalties for not providing coverage. The majority of the increases in these costs began in 2015, and while the incremental costs of this program have not been material to us to date, we cannot predict what effect these costs will have on our results of operations and financial position, or the effects of the Affordable Care Act on some of our larger franchisees. Modifications to, or repeal of, all or certain provisions of the Affordable Care Act are possible, consistent with statements made by certain elected officials.

We may also become subject to legislation or regulation seeking to tax and/or regulate high-fat foods, foods with high sugar and salt content, or foods otherwise deemed to be “unhealthy.” If we fail to comply with existing or future laws and regulations, we may be subject to governmental or judicial fines or sanctions. In addition, our capital expenditures could increase due to remediation measures that may be required if we are found to be noncompliant with any of these laws or regulations.

We are also subject to a Federal Trade Commission rule and to various state and foreign laws that govern the offer and sale of franchises. Additionally, these laws regulate various aspects of the franchise relationship, including terminations and the refusal to renew franchises. The failure to comply with these laws and regulations in any jurisdiction or to obtain required government approvals could result in a ban or temporary suspension on future franchise sales, fines or other penalties or require us to make offers of rescission or restitution, any of which could adversely affect our business and operating results.

Our current insurance coverage may not be adequate, insurance premiums for such coverage may increase and we may not be able to obtain insurance at acceptable rates, or at all.

We have retention programs for workers’ compensation, general liability and owned and non-owned automobile liabilities. We are generally responsible for up to \$1.0 million per occurrence under these retention programs for workers’ compensation and general liability. We are also generally responsible for between \$500,000 and \$3.0 million per occurrence under these retention programs for owned and non-owned automobile liabilities. Total insurance limits under these retention programs vary depending upon the period covered and range up to \$110.0 million per occurrence for general liability and owned and non-owned automobile liabilities and up to the applicable statutory limits for workers’ compensation. These insurance policies may not be adequate to protect us from liabilities that we incur in our business. In addition, in the future our insurance premiums may increase and we may not be able to obtain similar levels of insurance on reasonable terms, or at all. Any such inadequacy of, or inability to obtain insurance coverage could have a material adverse effect on our business, financial condition and results of operations.

Our annual and quarterly financial results are subject to significant fluctuations depending on various factors, many of which are beyond our control, and if we fail to meet the expectations of securities analysts or investors, our share price may decline significantly.

Our sales and operating results can vary significantly from quarter-to-quarter and year-to-year depending on various factors, many of which are beyond our control. These factors include, among other things:

- variations in the timing and volume of our sales and our franchisees’ sales;
- the timing of expenditures in anticipation of future sales;
- sales promotions by us and our competitors;
- changes in competitive and economic conditions generally;
- changes in the cost or availability of our ingredients or labor; and
- foreign currency exposure.

As a result, our operational performance may decline quickly and significantly in response to changes in order patterns or rapid decreases in demand for our products. We anticipate that fluctuations in operating results will continue in the future.

[Table of Contents](#)

Our common stock price could be subject to significant fluctuations and/or may decline.

The market price of our common stock could be subject to significant fluctuations. Among the factors that could affect our stock price are:

- planned or actual changes to our capital or debt structure;
- variations in our operating results;
- changes in revenues or earnings estimates or publication of research reports by analysts;
- speculation in the press or investment community;
- strategic actions by us or our competitors, such as sales promotions, acquisitions or restructurings;
- actions by institutional and other stockholders;
- changes in our dividend policy or any share repurchase program;
- changes in the market values of public companies that operate in our business segments;
- general market conditions; and
- domestic and international economic factors unrelated to our performance.

The stock markets in general have experienced volatility that has sometimes been unrelated to the operating performance of particular companies. These broad market fluctuations may cause the trading price of our common stock to decline.

Our substantial indebtedness could adversely affect our business and limit our ability to plan for or respond to changes in our business.

We have a substantial amount of indebtedness. As of January 1, 2017, our consolidated long-term indebtedness was approximately \$2.19 billion. We may also incur additional debt, which would not be prohibited under the terms of our current securitized debt agreements. Our substantial indebtedness could have important consequences to our business and our shareholders. For example, it could:

- make it more difficult for us to satisfy our obligations with respect to our debt agreements;
- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow for other purposes; and
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, thereby placing us at a competitive disadvantage compared to our peers that may have less debt.

In addition, the financial and other covenants we agreed to with our lenders may limit our ability to incur additional indebtedness, make investments, pay dividends and engage in other transactions, and the leverage may cause potential lenders to be less willing to loan funds to us in the future. Our failure to comply with these covenants could result in an event of default that, if not cured or waived, could result in the acceleration of repayment of all of our indebtedness.

We may be unable to generate sufficient cash flow to satisfy our significant debt service obligations, which would adversely affect our financial condition and results of operations.

Our ability to make principal and interest payments on and to refinance our indebtedness will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. If our business does not generate sufficient cash flow from operations, in the amounts projected or at all, or if future borrowings are not available to us under our variable funding notes in amounts sufficient to fund our other liquidity needs, our financial condition and results of operations may be adversely affected. If we cannot generate sufficient cash flow from operations to make scheduled principal amortization and interest payments on our debt obligations in the future, we may need to refinance all or a portion of our indebtedness on or before maturity, sell assets, delay capital expenditures or seek additional equity. If we are unable to refinance any of our indebtedness on commercially reasonable terms or at all or to effect any other action relating to our indebtedness on satisfactory terms or at all, our business may be harmed.

[Table of Contents](#)

The terms of our securitized debt financing of certain of our wholly-owned subsidiaries have restrictive terms and our failure to comply with any of these terms could put us in default, which would have an adverse effect on our business and prospects.

Unless and until we repay all outstanding borrowings under our securitized debt, we will remain subject to the restrictive terms of these borrowings. The securitized debt, under which certain of our wholly-owned subsidiaries issued and guaranteed fixed rate notes and variable funding senior revolving notes, contain a number of covenants, with the most significant financial covenant being a debt service coverage calculation. These covenants limit the ability of certain of our subsidiaries to, among other things:

- sell assets;
- alter the business we conduct;
- engage in mergers, acquisitions and other business combinations;
- declare dividends or redeem or repurchase capital stock;
- incur, assume or permit to exist additional indebtedness or guarantees;
- make loans and investments;
- incur liens; and
- enter into transactions with affiliates.

The securitized debt also requires us to maintain specified financial ratios at the end of each fiscal quarter. These restrictions could affect our ability to pay dividends or repurchase shares of our common stock. Our ability to meet these financial ratios can be affected by events beyond our control, and we may not satisfy such a test. A breach of this covenant could result in a rapid amortization event or default under the securitized debt. If amounts owed under the securitized debt are accelerated because of a default under the securitized debt and we are unable to pay such amounts, the investors may have the right to assume control of substantially all of the securitized assets.

During the term following issuance, the outstanding senior notes will accrue interest at fixed rates. Additionally, our senior notes have original scheduled principal payments of \$38.6 million in each of 2017 and 2018, \$878.5 million in 2019, \$488.0 million in 2020, \$8.0 million in each of 2021 through 2024 and \$728.0 million in 2025. In accordance with our debt agreements, the payment of principal on the outstanding senior notes (i) shall be suspended if the leverage ratios for the Company are less than or equal to 4.5x total debt to EBITDA and there are no scheduled principal catch-up amounts outstanding; provided, that during any such suspension, principal payments will continue to accrue and are subject to catch-up upon failure to satisfy the leverage ratios, or (ii) on and after the payment in full of the 2012 fixed rate senior secured notes, may be suspended if the leverage ratios for the Company are less than or equal to 5.0x total debt to EBITDA and no catch up provisions are applicable.

If we are unable to refinance or repay amounts under the securitized debt prior to the expiration of the term, our cash flow would be directed to the repayment of the securitized debt and, other than a weekly management fee sufficient to cover minimal selling, general and administrative expenses, would not be available for operating our business.

No assurance can be given that any refinancing or additional financing will be possible when needed or that we will be able to negotiate acceptable terms. In addition, our access to capital is affected by prevailing conditions in the financial and capital markets and other factors beyond our control. There can be no assurance that market conditions will be favorable at the times that we require new or additional financing.

The indenture governing the securitized debt will restrict the cash flow from the entities subject to the securitization to any of our other entities and upon the occurrence of certain events, cash flow would be further restricted.

In the event that a rapid amortization event occurs under the indenture (including, without limitation, upon an event of default under the indenture or the failure to repay the securitized debt at the end of its term), the funds available to us would be reduced or eliminated, which would in turn reduce our ability to operate or grow our business.

Item 2. Properties.

We lease approximately 235,000 square feet for our World Resource Center located in Ann Arbor, Michigan under an operating lease with Domino's Farms Office Park, L.L.C., an unrelated company. The lease, as amended, expires in December 2022 and has two five-year renewal options.

[Table of Contents](#)

We own one domestic Company-owned store building and five supply chain center buildings. We also own two store buildings that we lease to domestic franchisees. All other domestic Company-owned stores are leased by us, typically under five-year leases with one or two five-year renewal options. All other domestic and international supply chain centers are leased by us, typically under leases ranging between five and 15 years with one or two five-year renewal options. All other franchise stores are leased or owned directly by the respective franchisees. We believe that our existing headquarters and other leased and owned facilities are adequate to meet our current requirements.

Item 3. Legal Proceedings.

We are a party to lawsuits, revenue agent reviews by taxing authorities and administrative proceedings in the ordinary course of business which include, without limitation, workers' compensation, general liability, automobile and franchisee claims. We are also subject to suits related to employment practices.

Litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Included in the ordinary course litigation matters referenced above, we are party to three employment practice cases and two casualty cases. We have established legal and insurance accruals for losses relating to these cases which we believe are reasonable based upon our assessment of the current facts and circumstances. However, it is reasonably possible that our ultimate losses could exceed the amounts recorded by \$6.9 million. The remaining cases referenced above could be decided unfavorably to us and could require us to pay damages or make other expenditures in amounts or a range of amounts that cannot be estimated with accuracy. In management's opinion, these matters, individually and in the aggregate, should not have a significant adverse effect on the financial condition of the Company, and the established accruals adequately provide for the estimated resolution of such claims.

On February 14, 2011, Domino's Pizza LLC was named as a defendant in a lawsuit along with Fischler Enterprises of C.F., Inc., a franchisee, and Jeffrey S. Kidd, the franchisee's delivery driver, filed by Yvonne Wiederhold, the plaintiff, as Personal Representative of the Estate of Richard E. Wiederhold, deceased. The case involved a traffic accident in which the franchisee's delivery driver is alleged to have caused an accident involving a vehicle driven by Richard Wiederhold. Mr. Wiederhold sustained spinal injuries resulting in quadriplegia and passed away several months after the accident. The jury returned a \$10.1 million judgment for the plaintiff where the Company and Mr. Kidd were found to be 90% liable (after certain offsets and other deductions the final verdict was \$8.9 million). In the second quarter of 2016, the trial court ruled on all post-judgment motions and entered the judgment. The Company denies liability and in the third quarter of 2016 filed an appeal of the verdict on a variety of grounds.

On September 11, 2012, Domino's Pizza LLC was named as a defendant in a lawsuit along with MAC Pizza Management, Inc., a large franchisee, and Joshua Balka, the franchisee's delivery driver, filed by Raghurami Reddy, the plaintiff. The case involved a traffic accident in which the franchisee's delivery driver collided with another vehicle, where the driver of the other vehicle sustained head injuries and the passenger of the other vehicle sustained fatal injuries. The jury delivered a \$32.0 million judgment for the plaintiff where the Company was found to be 60% liable. The Company denied liability and filed an appeal of the verdict on a variety of grounds. In the first quarter of 2015, the appellate court reversed the trial court's decision and dismissed the claims against the Company. The plaintiff filed a Petition for Review with the Supreme Court of the State of Texas. The Company filed opposition to the writ of review and asserted that the claims were appropriately dismissed by the Court of Appeals of the State of Texas. In the second quarter of 2016, the Texas Supreme Court rejected the plaintiffs' writ of certiorari, leaving the appellate court's favorable decision to stand. During the fourth quarter of 2016, the Plaintiff filed a petition for writ of certiorari with the United States Supreme Court. In the fourth quarter of 2016, the United States Supreme Court denied the writ of certiorari. Plaintiff has exhausted all appellate rights and the Texas Court of Appeals order dismissing all claims against Domino's Pizza LLC stands.

While we may occasionally be party to large claims, including class action suits, we do not believe that these matters, individually or in the aggregate, will materially affect our financial position, results of operations or cash flows.

Our Board of Directors declared a quarterly dividend of \$0.46 per common share on February 15, 2017 payable on March 30, 2017 to shareholders of record at the close of business on March 15, 2017.

We currently anticipate continuing the payment of quarterly cash dividends. The actual amount of such dividends, if any, will depend upon future earnings, results of operations, capital requirements, our financial condition and certain other factors. There can be no assurance as to the amount of free cash flow that we will generate in future years and, accordingly, dividends will be considered after reviewing returns to shareholders, profitability expectations and financing needs and will be declared at the discretion of our Board of Directors.

As of February 21, 2017, there were 1,306 registered holders of record of Domino’s Pizza, Inc.’s common stock.

We have a Board of Directors-approved share repurchase program for up to \$250.0 million of our common stock, of which \$149.1 million remained available at January 1, 2017 for future purchases of our common stock. Any future purchases of our common stock would be funded by current cash amounts, available borrowings or future excess cash flow. The following table summarizes our repurchase activity during the fourth quarter ended January 1, 2017:

<u>Period</u>	<u>Total Number of Shares Purchased (1)</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Program</u>	<u>Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program</u>

- (1) The working capital amounts exclude restricted cash amounts of \$126.5 million in 2016, \$180.9 million in 2015, \$121.0 million in 2014, \$125.5 million in 2013 and \$60.0 million in 2012.
- (2) Same store sales growth is calculated including only sales from stores that also had sales in the comparable period of the prior year, but excluding sales from certain seasonal locations such as stadiums and concert arenas. International same store sales growth is calculated similarly to domestic same store sales growth. Changes in international same store sales are reported on a constant dollar basis which reflects changes in international local currency sales. The 53rd week in fiscal 2015 had no impact on reported same store sales growth amounts.
- (3) In connection with our 2015 Recapitalization, the Company issued \$1.3 billion of fixed rate notes. A portion of the proceeds from the 2015 Recapitalization were used to make an optional prepayment of approximately \$551.3 million in aggregate principal amount of the 2012 fixed rate notes, at par, pay scheduled principal catch-up amounts on the 2012 fixed rate notes, make an interest reserve deposit, pre-fund a portion of the principal and interest payable on the 2015 fixed rate notes and pay transaction fees and expenses. Additionally, as part of the 2015 Recapitalization, the Company's Board of Directors authorized a share repurchase program to repurchase up to \$800.0 million of the Company's common stock. This share repurchase program replaced a previously existing \$200.0 million share repurchase program. Refer to Note 4 of the financial statements for additional detail related to the 2015 Recapitalization.
- (4) In connection with our 2012 Recapitalization, the Company borrowed \$1.575 billion of fixed rate notes and used a portion of the proceeds from the borrowings to repay in full the outstanding principal under the Company's notes, pay accrued interest on the Company's notes, pay transaction-related fees and expenses and fund a reserve account for the payment of interest on the 2012 fixed rate notes. Refer to Note 4 of the financial statements for additional detail related to the 2012 Recapitalization.
- (5) The 2015 fiscal year includes 53 weeks and the 2016, 2014, 2013, and 2012 fiscal years each include 52 weeks.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Overview

Our fiscal year typically includes 52 weeks, comprised of three twelve-week quarters and one sixteen-week quarter. Every five or six years our fiscal year includes an extra (or 53rd) week in the fourth quarter. Fiscal 2015 consisted of 53 weeks, while fiscal 2016 and fiscal 2014 each consisted of 52 weeks.

Description of the Business

Domino’s is the second largest pizza restaurant chain in the world, with more than 13,800 locations in over 85 markets around the world. Founded in 1960, our roots are in convenient pizza delivery, while a significant amount of our sales also come from carryout customers. Although we are a highly-recognized global brand, we focus on serving the local neighborhoods in which we live and do business through our large network of franchise owners and Company-owned stores. On average, we sell more than 2 million pizzas each day throughout our global system.

Our business model is straightforward: we handcraft and serve quality food at a competitive price, with easy ordering access and efficient service, enhanced by our technology innovations. Our dough is generally made fresh and distributed to stores around the world by us and our franchisees.

Domino’s generates revenues and earnings by charging royalties to its franchisees. Royalties are ongoing percent-of-sales fees for use of the Domino’s brand marks. The Company also generates revenues and earnings by selling food, equipment and supplies to franchisees primarily in the U.S. and Canada, and by operating a number of our own stores. Franchisees profit by selling pizza and other complementary items to their local customers. In our international markets, we generally grant geographical rights to the Domino’s Pizza® brand to master franchisees. These master franchisees are charged with developing their geographical area, and they may profit by sub-franchising and selling ingredients and equipment to those sub-franchisees, as well as by running pizza stores. Everyone in the system can benefit, including the end consumer, who can feed their family Domino’s menu items conveniently and economically.

Our business model can yield strong returns for our franchise owners and Company-owned stores. It can also yield significant cash flow to us, through a consistent franchise royalty payment and supply chain revenue stream, with moderate capital expenditures. We have historically returned cash to shareholders through dividend payments and share repurchases since becoming a publicly-traded company.

Fiscal 2016 Highlights

- Global retail sales (which are total retail sales at Company-owned and franchised stores worldwide) increased 9.8% as compared to 2015.
- Same store sales increased 10.5% in our domestic stores and increased 6.3% in our international stores.
- Our revenues increased 11.6%.
- Our income from operations increased 12.0%.
- Our net income increased 11.4%.

During 2016, we continued our rapid global expansion with the opening of 1,281 net new stores. Our international franchise segment led the way with a record 1,110 net new store openings.

We continued our focus on growing online ordering and the digital customer experience as we introduced new innovative ordering platforms including zero-click ordering, Google Home, Facebook Messenger, Apple Watch, and Amazon Echo. Our emphasis on technology innovation helped us generate more than half of U.S. sales from digital channels in 2016, as well as reach an estimated \$5.6 billion in global digital sales. Overall, we believe our focus in 2016 on global growth and technology will continue to strengthen our brand in the future.

Fiscal 2015 Highlights

- Global retail sales increased 11.1% as compared to 2014.
- Same store sales increased 12.0% in our domestic stores and increased 7.8% in our international stores.
- Our revenues increased 11.2%.
- Our income from operations increased 17.4%.
- Our net income increased 18.6%.
- The inclusion of the 53rd week in 2015 positively impacted our results.

[Table of Contents](#)

During 2015, we continued our rapid global expansion with the opening of 901 net new stores. Our international franchise segment led the way with 768 net new store openings.

We continued our focus on growing online ordering and the digital customer experience as we introduced several innovative ordering platforms, including Samsung Smart TV® as well as Twitter and text message using a pizza emoji. Our emphasis on technology innovation helped us generate approximately 50% of U.S. sales from digital channels in 2015, as well as reach an estimated \$4.7 billion in global digital sales. During the year, the Company also launched its “Piece of the Pie Rewards” loyalty program, which is meant to reward customers with a program that is simple to understand and easy to use. Upon signing up for the program, customers become rewards members and can earn points for online orders. When rewards members reach a certain amount of points, they can redeem their points for free pizza.

Critical accounting policies and estimates

The following discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires our management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, our management evaluates its estimates, including those related to revenue recognition, long-lived and intangible assets, insurance and legal matters, share-based payments and income taxes. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates. Changes in our accounting policies and estimates could materially impact our results of operations and financial condition for any particular period. We believe that our most critical accounting policies and estimates are:

Revenue recognition. We earn revenues through our network of domestic Company-owned and franchised stores, dough manufacturing and supply chain centers and international operations. Retail sales from franchise stores are reported to the Company by its franchisees and are not included in Company revenues. Retail sales from Company-owned stores and royalty revenues resulting from the retail sales from franchised stores are recognized as revenues when the items are delivered to or carried out by customers. Retail sales are generally reported and related royalties paid to the Company based on a percentage of retail sales, as specified in the related standard franchise agreement (generally 5.5% of domestic franchise retail sales and, on average, 3.0% of international franchise retail sales). Revenues from Company-owned stores and royalty revenues and fees from franchised stores can fluctuate from time-to-time as a result of store count and sales level changes. This can occur when a Company-owned store is sold to a franchisee. If a Company-owned store that generated \$500,000 in revenue in fiscal 2015 was sold to a franchisee in fiscal 2016, revenues from Company-owned stores would have declined by \$500,000 in fiscal 2016, while franchise royalty revenues would have increased by only \$27,500 in fiscal 2016, as we generally collect 5.5% of a domestic franchisee’s retail sales. Sales of food from our supply chain centers are recognized as revenues upon delivery of the food to franchisees, while sales of equipment and supplies are generally recognized as revenues upon shipment of the related products to franchisees.

Long-lived and intangible assets. We record long-lived assets, including property, plant and equipment and capitalized software, at cost. For acquisitions of franchise operations, we estimate the fair values of the assets and liabilities acquired based on physical inspection of assets, historical experience and other information available to us regarding the acquisition. We depreciate and amortize long-lived assets using useful lives determined by us based on historical experience and other information available to us. We evaluate the potential impairment of long-lived assets at least annually or whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Our evaluation is based on various analyses, including the projection of undiscounted cash flows. For Company-owned stores, we perform related impairment tests on an operating market basis, which the Company has determined to be the lowest level for which identifiable cash flows are largely independent of other cash flows. If the carrying amount of a long-lived asset exceeds the amount of the expected future undiscounted cash flows of that asset, the Company estimates the fair value of the asset. If the carrying amount of the asset exceeds the estimated fair value of the asset, an impairment loss is recognized and the asset is written down to its estimated fair value.

[Table of Contents](#)

We have not made any significant changes in the methodology used to project the future market cash flows of Company-owned stores during the years presented. Same store sales fluctuations and the rates at which operating costs will fluctuate in the future are key factors in evaluating recoverability of the related assets. If our same store sales significantly decline or if operating costs increase and we are unable to recover these costs, the carrying value of our Company-owned stores, by market, may be unrecoverable and we may be required to recognize an impairment charge. As discussed in Note 1 to our consolidated financial statements, the Company incurred an impairment charge related to its corporate airplane in the fourth quarter of 2014. Aside from this impairment charge, the Company did not record an impairment charge during fiscal 2016, fiscal 2015 or fiscal 2014.

A significant portion of our goodwill relates to acquisitions of domestic franchise stores and is included in our domestic stores segment, specifically, our Company-owned stores division. We evaluate goodwill annually for impairment by comparing the fair value of the reporting unit (which is primarily determined using the present value of historical cash flows) to its carrying value. If the carrying value of the reporting unit exceeds the fair value, goodwill would be impaired. We have not made any significant changes in the methodology used to evaluate goodwill impairment during the years presented. At January 1, 2017, the fair value of our business operations with associated goodwill exceeded their recorded carrying value, including the related goodwill. If cash flows generated by our Company-owned stores were to decline significantly in the future or there were negative revisions to the market multiple assumption, we may be required to recognize a goodwill impairment charge. However, based on the latest impairment analysis, we do not believe it is reasonably likely that there could be changes in assumptions that would trigger impairment.

Insurance and legal matters. We are a party to lawsuits and legal proceedings arising in the ordinary course of business. Management closely monitors these legal matters and estimates the probable costs for the resolution of such matters. These estimates are primarily determined by consulting with both internal and external parties handling the matters and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. Legal judgments can be volatile and difficult to predict. Accordingly, if our estimates relating to legal matters proved inaccurate for any reason, we may be required to increase or decrease the related expense in future periods. We had accruals for legal matters of approximately \$2.7 million at January 1, 2017 and \$1.9 million at January 3, 2016.

For certain periods prior to December 1998 and for periods after December 2001, we maintain insurance coverage for workers' compensation, general liability and owned and non-owned auto liability under insurance policies requiring payment of a deductible for each occurrence up to between \$500,000 and \$3.0 million, depending on the policy year and line of coverage. The related insurance reserves are based on undiscounted independent actuarial estimates, which are based on historical information along with assumptions about future events. Specifically, various methods, including analyses of historical trends and actuarial valuation methods, are utilized to estimate the cost to settle reported claims, and claims incurred but not yet reported. The actuarial valuation methods develop estimates of the future ultimate claim costs based on the claims incurred as of the balance sheet date. When estimating these liabilities, several factors are considered, including the severity, duration and frequency of claims, legal cost associated with claims, healthcare trends and projected inflation.

Our methodology for determining our exposure has remained consistent throughout the years presented. Management believes that the various assumptions developed and actuarial methods used to determine our self-insurance reserves are reasonable and provide meaningful data that management uses to make its best estimate of our exposure to these risks. Changes in assumptions for such factors as medical costs and legal actions, as well as changes in actual experience, could cause our estimates to change in the near term which could result in an increase or decrease in the related expense in future periods. A 10% change in our self-insurance liability at January 1, 2017 would have affected our income before provision for income taxes by approximately \$4.4 million for fiscal 2016. We had accruals for insurance matters of approximately \$43.9 million at January 1, 2017 and \$40.9 million at January 3, 2016.

Share-based payments. We recognize compensation expense related to our share-based compensation arrangements over the requisite service period based on the grant date fair value of the awards. The grant date fair value of each restricted stock and performance-based restricted stock award is equal to the market price of our stock on the date of grant. The grant date fair value of each stock option award is estimated using a Black-Scholes option pricing model. The pricing model requires assumptions, including the expected life of the stock option, the risk-free interest rate, the expected dividend yield and expected volatility of our stock over the expected life, which significantly impact the assumed fair value. Historically, we have also estimated the expected forfeiture rate and only recognized expense for those awards expected to vest. We use historical data to determine these assumptions. Additionally, our stock option, restricted stock and performance-based restricted stock arrangements provide for accelerated vesting and the ability to exercise during the remainder of the ten-year stock option life upon the retirement of individuals holding the awards who have achieved specified service and age requirements.

[Table of Contents](#)

Management believes that the methods and various assumptions used to determine compensation expense related to these arrangements are reasonable, but if the assumptions change significantly for future grants, share-based compensation expense will fluctuate in future years.

Income taxes. We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. We measure deferred tax assets and liabilities using current enacted tax rates that will apply in the years in which we expect the temporary differences to be recovered or paid. Judgment is required in determining the provision for income taxes, related reserves and deferred tax assets and liabilities. These include establishing a valuation allowance related to the ability to realize certain deferred tax assets, if necessary. On an ongoing basis, management will assess whether it remains more likely than not that the net deferred tax assets will be realized. The Company had valuation allowances recorded for deferred tax assets of approximately \$0.1 million as of January 1, 2017 and approximately \$0.2 million as of January 3, 2016. Our accounting for deferred tax assets represents our best estimate of future events. Our net deferred tax assets assume that we will generate sufficient taxable income in specific tax jurisdictions, based on our estimates and assumptions. Changes in our current estimates due to unanticipated events could have a material impact on our financial condition and results of operations.

The amounts recorded on the balance sheet relating to uncertain tax positions consider the ultimate resolution of revenue agent reviews based on estimates and assumptions. We believe we have appropriately accounted for our uncertain tax positions; however, tax audits, changes in tax laws and other unforeseen matters may result in us owing additional taxes. We adjust our reserves for uncertain tax positions when facts and circumstances change or due to the passage of time. The completion of a tax audit or the expiration of a statute of limitations associated with uncertain tax positions are examples of situations when we may adjust our reserves. Management believes that our tax positions comply with applicable tax law and that we have adequately provided for these matters. However, to the extent the final tax outcome of these matters is different than our recorded amounts, we may be required to adjust our tax reserves resulting in additional income tax expense or benefit in future periods.

2016 compared to 2015

(tabular amounts in millions, except percentages)

Revenues. Revenues primarily consist of retail sales from our Company-owned stores, royalties and fees from our domestic and international franchised stores and sales of food, equipment and supplies from our supply chain centers to substantially all of our domestic franchised stores and certain international franchised stores. Company-owned store and franchised store revenues may vary from period to period due to changes in store count mix. Supply chain revenues may vary significantly as a result of fluctuations in commodity prices as well as the mix of products we sell.

Consolidated revenues increased \$256.1 million or 11.6% in 2016. The increase was due primarily to higher supply chain food volumes as well as higher Company-owned store, domestic franchise and international franchise revenues resulting from same store sales and store count growth. These increases were offset in part by the inclusion of the 53rd week in 2015, which positively impacted revenues by an estimated \$49.7 million in 2015. The negative impact of changes in foreign currency exchange rates on international franchise royalties and international supply chain revenues also partially offset the increases in revenues. These changes in revenues are more fully described below.

Domestic stores. Revenues from domestic stores are primarily comprised of retail sales from domestic Company-owned store operations as well as royalties from retail sales and other fees from domestic franchised stores, as summarized in the following table.

	2016		2015	
Domestic Company-owned stores	\$439.0	58.4%	\$396.9	59.3%
Domestic franchise	312.3	41.6%	272.8	40.7%
Total domestic stores revenues	\$751.3	100.0%	\$669.7	100.0%

Higher franchise same store sales, store count growth and higher domestic Company-owned same store sales drove an increase in overall domestic store revenues of \$81.6 million or 12.2%. These results are more fully described below.

Domestic Company-owned stores. Revenues from domestic Company-owned store operations increased \$42.1 million or 10.6% in 2016. This increase was due to a 10.4% increase in same store sales as compared to 2015 and an increase in the average number of stores open during the year, and was offset in part by the estimated \$9.1 million positive impact in 2015 related to the inclusion of the 53rd week.

Domestic franchise. Revenues from domestic franchise operations increased \$39.5 million or 14.5% in 2016. The increase was driven by a 10.5% increase in same store sales as compared to 2015 and an increase in the average number of stores open during the year. Revenues further benefited from fees paid by franchisees for our internally developed online ordering platform, and were offset in part by the estimated \$6.1 million positive impact in 2015 related to the inclusion of the 53rd week.

[Table of Contents](#)

Supply chain. Revenues from supply chain operations are primarily comprised of sales of food, equipment and supplies from our supply chain centers to substantially all of our domestic franchised stores and certain international franchised stores, as summarized in the following table.

	2016		2015	
Domestic supply chain	\$1,408.8	91.2%	\$1,266.4	91.6%
International supply chain	135.5	8.8%	116.8	8.4%
Total supply chain	\$1,544.3	100.0%	\$1,383.2	100.0%

In fiscal 2016, the Company began managing the Alaska and Hawaii supply chain centers as part of its domestic supply chain business. Prior to fiscal 2016, these centers were managed as part of the Company's international supply chain business. Revenues from these supply chain centers are included in the 2016 and 2015 domestic supply chain revenues in the table above.

Domestic supply chain. Domestic supply chain revenues increased \$142.4 million or 11.3% in 2016. These increases were primarily attributable to higher volumes from increased order counts at the store level. They were partially offset by lower commodity prices and the estimated \$27.8 million positive impact in 2015 related to the inclusion of the 53rd week. The lower cheese block price (passed through directly in domestic supply chain pricing to franchisees) did not have a material impact on domestic supply chain revenues in 2016. We estimate that lower commodity prices resulted in an approximate \$3.0 million decrease in domestic supply chain revenues during 2016.

International supply chain. Revenues from international supply chain operations increased \$18.7 million or 16.0% in 2016. This increase resulted primarily from higher volumes from increased order counts at the store level in 2016 and was offset in part by the negative impact of foreign currency exchange rates of approximately \$4.3 million in 2016 and the estimated \$2.6 million positive impact in 2015 related to the inclusion of the 53rd week.

International franchise. International franchise revenues primarily consist of royalties from retail sales and other fees from our international franchise stores. Revenues from international franchise operations increased \$13.4 million or 8.2% in 2016. This increase was due to an increase in the average number of international stores open during 2016 as well as higher same store sales, and was offset in part by the negative impact of changes in foreign currency exchange rates of approximately \$8.9 million in 2016 and the estimated \$4.1 million positive impact in 2015 related to the inclusion of the 53rd week. Excluding the impact of foreign currency exchange rates, same store sales increased 6.3% in 2016 compared to 2015.

Cost of sales / Operating margin. Consolidated cost of sales consists primarily of domestic Company-owned store and supply chain costs incurred to generate related revenues. Components of consolidated cost of sales primarily include food, labor and occupancy costs. The changes to the consolidated operating margin, which we define as revenues less cost of sales are summarized in the following table.

	2016		2015	
Consolidated revenues	\$2,472.6	100.0%	\$2,216.5	100.0%
Consolidated cost of sales	1,704.9	69.0%	1,533.4	69.2%
Consolidated operating margin	\$ 767.7	31.0%	\$ 683.1	30.8%

The \$84.6 million or 12.4% increase in consolidated operating margin was due primarily to higher domestic and international franchise revenues and higher supply chain margins. The increase in the consolidated operating margin was offset in part by the estimated \$16.6 million positive impact in 2015 related to the inclusion of the 53rd week. Franchise revenues do not have a cost of sales component, so changes in franchise revenues have a disproportionate effect on the consolidated operating margin.

As a percentage of total revenues, our consolidated operating margin increased 0.2 percentage points in 2016, due to higher supply chain margins as a percentage of their revenues and a higher mix of franchise revenues. Lower Company-owned stores operating margins as a percentage of their revenues partially offset these increases. These changes are more fully described below.

Domestic Company-owned stores. The changes to domestic Company-owned store operating margin, which do not include other store-level costs such as royalties and advertising, are summarized in the following table.

	2016		2015	
Revenues	\$439.0	100.0%	\$396.9	100.0%
Cost of sales	331.9	75.6%	299.3	75.4%
Store operating margin	\$107.2	24.4%	\$ 97.6	24.6%

The \$9.6 million or 9.8% increase in the domestic Company-owned store operating margin was due primarily to higher same store sales. The estimated \$3.1 million positive impact in 2015 related to the inclusion of the 53rd week partially offset this increase.

[Table of Contents](#)

As a percentage of store revenues, the store operating margin decreased 0.2 percentage points in 2016, as discussed in more detail below.

Management has historically included costs to support online ordering as part of labor and related costs. Costs to support online ordering are now included within transaction-related expenses and the prior year costs have been reclassified to conform to current year presentation.

- Food costs increased 0.5 percentage points to 26.6% in 2016, due primarily to promotional activities. Lower overall commodity prices partially offset these increases.
- Labor costs increased 0.3 percentage points to 28.8% in 2016, due primarily to an increase in labor rates in certain markets as well as higher performance based compensation and overtime as a result of increased same store sales. The leveraging impact of higher same store sales partially offset these increases.
- Insurance costs decreased 1.2 percentage points to 2.8% in 2016, due primarily to a \$4.3 million insurance expense related to updated actuarial estimates for our casualty insurance program in the third quarter of 2015.
- Transaction-related expenses increased 0.9 percentage points to 3.2% in 2016. This increase was primarily attributable to higher credit card-related expenses in certain markets in which we operate.
- Delivery expenses decreased 0.4 percentage points to 3.4% in 2016, due primarily to lower fuel prices.

Supply chain. The changes to the supply chain operating margin are summarized in the following table.

	2016		2015	
Revenues	\$1,544.3	100.0%	\$1,383.2	100.0%
Cost of sales	1,373.1	88.9%	1,234.1	89.2%
Supply chain operating margin	\$ 171.3	11.1%	\$ 149.1	10.8%

The \$22.2 million or 14.9% increase in the supply chain operating margin was due primarily to higher volumes from increased store order counts. Lower insurance expenses also contributed to the increased operating margin, as the third quarter of 2015 contained a \$1.4 million insurance charge related to the Company's casualty insurance program. The estimated \$3.3 million positive impact in 2015 related to the inclusion of the 53rd week in 2015 partially offset the increase in operating margin.

As a percentage of supply chain revenues, the supply chain operating margin increased 0.3 percentage points in 2016 due to lower casualty and health insurance expenses, higher volumes from store count growth and increased store order counts, as well as lower fuel costs. Increased labor costs partially offset these increases. Decreases in certain food prices have a positive effect on the supply chain operating margin percentage due to the fixed dollar margin earned by supply chain on certain food items. Lower commodity prices decreased both revenues and costs by \$3.0 million in fiscal 2016. Lower cheese prices did not have a material impact in 2016; if our U.S. cheese prices for 2016 had been in effect during 2015, the supply chain operating margin as a percentage of supply chain revenues would have remained the same. The dollar margin would also have been unaffected.

General and administrative expenses. General and administrative expenses increased \$35.9 million or 12.9% in 2016. These increases were driven by continued investments in technological initiatives and labor (primarily in e-commerce, information technology and international operations) as well as higher performance-driven expenses resulting from improved operating performance and higher same store sales, including variable performance-based compensation, and Company-owned store national advertising contributions. General and administrative expenses were positively impacted by the non-recurrence of an estimated \$4.7 million of expenses from the inclusion of the 53rd week in 2015.

Interest income. Interest income increased slightly to \$0.7 million in 2016.

Interest expense. Interest expense increased \$10.5 million to \$110.1 million in 2016. The increase was driven by a higher average debt balance as a result of the 2015 Recapitalization and was offset in part by a lower cash borrowing rate.

Our weighted average borrowing rate decreased to 4.6% in fiscal 2016, from 5.1% in fiscal 2015. The decreases in the Company's cash borrowing rate resulted from the lower interest rates on the debt issued as part of the 2015 recapitalization. Our average outstanding debt balance, excluding capital lease obligations, was approximately \$2.23 billion in 2016 and approximately \$1.68 billion in 2015. The increase in the average outstanding debt balance was due to the issuance of debt in connection with the 2015 Recapitalization.

Provision for income taxes. Provision for income taxes increased \$16.6 million to \$130.0 million in 2016, due primarily to higher pre-tax income. The Company's effective income tax rate increased by 0.7 percentage points to 37.7% of pre-tax income in 2016.

2015 compared to 2014

(tabular amounts in millions, except percentages)

Revenues. Consolidated revenues increased \$222.7 million or 11.2% in 2015. The increase was due primarily to higher supply chain food volumes as well as increased sales of equipment to stores in connection with our store reimaging program. Higher Company-owned store, domestic franchise and international franchise revenues resulting from same store sales and store count growth also contributed to the rise in revenue. The inclusion of the 53rd week in 2015 also positively impacted revenues by an estimated \$49.7 million. These increases were offset in part by the negative impact of changes in foreign currency exchange rates on international franchise royalties and international supply chain revenues, as well as lower cheese and other commodity prices.

These changes in revenues are more fully described below.

Domestic stores. Domestic stores revenues are summarized in the following table.

	2015		2014	
Domestic Company-owned stores	\$396.9	59.3%	\$348.5	60.2%
Domestic franchise	272.8	40.7%	230.2	39.8%
Total domestic stores revenues	\$669.7	100.0%	\$578.7	100.0%

Higher franchise same store sales, store count growth and higher domestic Company-owned same store sales drove an increase in overall domestic store revenues of \$91.0 million or 15.7%. These results are more fully described below.

Domestic Company-owned stores. Revenues from domestic Company-owned store operations increased \$48.4 million or 13.9% in 2015. This increase was due to a 12.2% increase in same store sales as compared to 2014, as well as an estimated \$9.1 million impact of the 53rd week, offset in part by the sale of 14 Company-owned stores to a franchisee that occurred in the first quarter of 2014.

Domestic franchise. Revenues from domestic franchise operations increased \$42.6 million or 18.5% in 2015. The increase was driven by an 11.9% increase in same store sales as compared to 2014, as well as an estimated \$6.1 million impact of the 53rd week, and an increase in the average number of domestic franchised stores open during 2015. Revenues further benefited from fees paid by franchisees to reimburse us for expenses we incurred for our internally developed online ordering platform.

Supply chain. Supply chain revenues are summarized in the following table.

	2015		2014	
Domestic supply chain	\$1,266.4	91.6%	\$1,149.7	91.1%
International supply chain	116.8	8.4%	112.8	8.9%
Total supply chain	\$1,383.2	100.0%	\$1,262.5	100.0%

In fiscal 2016, the Company began managing the Alaska and Hawaii supply chain centers as part of its domestic supply chain business. Prior to fiscal 2016, these centers were managed as part of the Company's international supply chain business. Revenues from these supply chain centers are included in the 2015 and 2014 domestic supply chain revenues in the table above.

Domestic supply chain. Domestic supply chain revenues increased \$116.7 million or 10.1% in 2015. These increases were primarily attributable to higher volumes from increased order counts at the store level and increases in sales of equipment in connection with our store reimaging program, as well as an estimated \$27.8 million impact of the 53rd week. They were partially offset by lower cheese and other commodity prices. We estimate that the lower cheese block price (passed through directly in domestic supply chain pricing to franchisees) resulted in an approximate \$45.3 million decrease in domestic supply chain revenues during 2015.

International supply chain. Revenues from international supply chain operations increased \$4.0 million or 3.5% in 2015. This increase resulted primarily from higher volumes in 2015 and an estimated \$2.6 million impact of the 53rd week, and were offset in part by the negative impact of foreign currency exchange rates of approximately \$16.4 million in 2015.

International franchise. International franchise revenues primarily consist of royalties from retail sales and other fees from our international franchise stores. Revenues from international franchise operations increased \$11.0 million or 7.2% in 2015. This increase was due to an increase in the average number of international stores open during 2015, higher same store sales and an estimated \$4.1 million impact of the 53rd week, and was offset in part by the negative impact of changes in foreign currency exchange rates of approximately \$19.9 million in 2015. Excluding the impact of foreign currency exchange rates, same store sales increased 7.8% in 2015 compared to 2014.

Table of Contents

Cost of sales / Operating margin. The changes to the consolidated operating margin, which we define as revenues less cost of sales, are summarized in the following table.

	2015		2014	
Consolidated revenues	\$2,216.5	100.0%	\$1,993.8	100.0%
Consolidated cost of sales	1,533.4	69.2%	1,399.1	70.2%
Consolidated operating margin	\$ 683.1	30.8%	\$ 594.8	29.8%

The \$88.3 million or 14.9% increase in consolidated operating margin was due primarily to higher domestic and international franchise revenues and higher supply chain margins, as well as an estimated \$16.6 million impact of the 53rd week. Franchise revenues do not have a cost of sales component, so changes in franchise revenues have a disproportionate effect on the consolidated operating margin.

As a percentage of total revenues, our consolidated operating margin increased 1.0 percentage points in 2015, due to higher supply chain and Company-owned stores operating margins as a percentage of their revenues, as well as a higher mix of franchise revenues. These changes are more fully described below.

Domestic Company-owned stores. The changes to domestic Company-owned store operating margin, which do not include other store-level costs such as royalties and advertising, are summarized in the following table.

	2015		2014	
Revenues	\$396.9	100.0%	\$348.5	100.0%
Cost of sales	299.3	75.4%	267.4	76.7%
Store operating margin	\$ 97.6	24.6%	\$ 81.1	23.3%

The \$16.5 million or 20.4% increase in the domestic Company-owned store operating margin was due primarily to higher same store sales, a decrease in overall commodity prices and an estimated \$3.1 million impact of the 53rd week.

As a percentage of store revenues, the store operating margin increased 1.3 percentage points in 2015, as discussed in more detail below.

As noted in the comparison between 2016 and 2015, management has historically included costs to support online ordering as part of labor and related costs. Costs to support online ordering are now included within transaction-related expenses and the prior year costs below have been reclassified to conform to current year presentation.

- Food costs decreased 2.2 percentage points to 26.1% in 2015, due primarily to lower overall commodity prices. The cheese block price per pound averaged \$1.62 in 2015 compared to \$2.13 in 2014.
- Occupancy costs, which include rent, telephone, utilities and depreciation, decreased 1.1 percentage points to 8.1% in 2015 due primarily to the positive impact of higher sales per store.
- Labor costs increased 0.9 percentage points to 28.5% in 2015, due primarily to higher performance based compensation and overtime as a result of increased same store sales.
- Insurance costs increased 1.3 percentage points to 4.0% in 2015, due primarily to a \$4.3 million incremental insurance expense in the third quarter of 2015 related to updated actuarial estimates for our casualty insurance program.

Supply chain. The changes to the supply chain operating margin are summarized in the following table.

	2015		2014	
Revenues	\$1,383.2	100.0%	\$1,262.5	100.0%
Cost of sales	1,234.1	89.2%	1,131.7	89.6%
Supply chain operating margin	\$ 149.1	10.8%	\$ 130.8	10.4%

The \$18.3 million increase in the supply chain operating margin was due primarily to higher volumes from increased store order counts and an estimated \$3.3 million impact of the 53rd week.

As a percentage of supply chain revenues, the supply chain operating margin increased 0.4 percentage points in 2015 due to lower commodity prices and lower fuel costs. However, the operating margin was negatively impacted by incremental casualty and health insurance expense, including \$1.4 million recorded in the third quarter of 2015 related to updated actuarial estimates for our casualty insurance program, as well as increased labor and delivery costs. Decreases in certain food prices have a positive effect on the supply chain operating margin percentage due to the fixed dollar margin earned by supply chain on certain food items. Changes in our U.S. cheese prices decreased both revenues and costs by \$45.3 million in fiscal 2015. If our U.S. cheese prices for 2015 had been in effect during 2014, the supply chain operating margin as a percentage of supply chain revenues would have increased by 0.4 percentage points. However, the dollar margin would have been unaffected.

General and administrative expenses. General and administrative expenses increased \$28.3 million or 11.3% in 2015. These increases were driven by continued investments in technological initiatives and labor (primarily in e-commerce, information technology and international operations) as well as higher volume-driven expenses resulting from improved operating performance and higher same store sales, including variable performance-based compensation, Company-owned store national advertising contributions and franchisee incentives. The non-recurring \$1.7 million pre-tax gain recognized from the sale of 14 Company-owned stores during the first quarter of 2014 and an estimated \$4.7 million impact of the inclusion of the 53rd week in 2015 also contributed to the increase for fiscal 2015. These increases were offset in part by the non-recurring \$5.8 million impairment charge in 2014.

Interest income. Interest income increased slightly to \$0.3 million in 2015.

Interest expense. Interest expense increased \$12.6 million to \$99.5 million in 2015. The increase was due primarily to approximately \$7.3 million of expenses incurred in the fourth quarter of 2015 related to the 2015 Recapitalization, including a \$6.9 million write-off of debt issuance costs and \$0.4 million of interest expense that was incurred on the 2012 debt subsequent to the closing of the 2015 Recapitalization but prior to the repayment of the 2012 debt. Interest expense also increased due to a higher average debt balance, offset in part by a lower average interest rate.

Our weighted average borrowing rate decreased to 5.1% in fiscal 2015, from 5.3% in fiscal 2014. The decrease in the Company's cash borrowing rate resulted from the lower interest rate on the new debt issued as part of the 2015 Recapitalization. Our average outstanding debt balance, excluding capital lease obligations, was approximately \$1.68 billion in 2015 and approximately \$1.52 billion in 2014. The increase in the average outstanding debt balance was due to the issuance of debt in connection with the 2015 Recapitalization.

Provision for income taxes. Provision for income taxes increased \$17.4 million to \$113.4 million in 2015, due primarily to higher pre-tax income. The Company's effective income tax rate decreased slightly by 0.1 percentage points to 37.0% of pre-tax income in 2015.

Liquidity and capital resources

Historically, we have operated with minimal positive working capital or negative working capital, primarily because our receivable collection periods and inventory turn rates are faster than the normal payment terms on our current liabilities. We generally collect our receivables within three weeks from the date of the related sale, and we generally experience 35 to 45 inventory turns per year. In addition, our sales are not typically seasonal, which further limits our working capital requirements. These factors, coupled with the use of our ongoing cash flows from operations to service our debt obligations, invest in our business, pay dividends and repurchase our common stock, reduce our working capital amounts. As of January 1, 2017, we had negative working capital of \$34.3 million, excluding restricted cash and cash equivalents of \$126.5 million and including total unrestricted cash and cash equivalents of \$42.8 million.

As of January 1, 2017, we had approximately \$99.8 million of restricted cash held for future principal and interest payments and \$26.7 million of restricted cash held in a three-month interest reserve as required by the related debt agreements, for a total of \$126.5 million of restricted cash and cash equivalents.

The Company entered into a recapitalization transaction in 2015, in which certain of our subsidiaries, among other things, replaced \$551.3 million of the outstanding Series 2012-1 5.216% Fixed Rate Senior Secured Notes, Class A-2 (the "2012 Fixed Rate Notes") and its 2012 variable funding notes with new notes (the "2015 Fixed Rate Notes") issued pursuant to an asset-backed securitization. The 2015 Fixed Rate Notes consist of \$500.0 million of Series 2015-1 3.484% Fixed Rate Senior Secured Notes, Class A-2-I (the "2015 Five-Year Notes"), \$800.0 million Series 2015-1 4.474% Fixed Rate Senior Secured Notes, Class A-2-II (the "2015 Ten-Year Notes") and \$125.0 million of Series 2015-1 Variable Funding Senior Secured Notes, Class A-1 (the "2015 Variable Funding Notes"). The 2012 Fixed Rate Notes and the 2015 Fixed Rate Notes are referred to collectively as the Fixed Rate Notes. Additional information related to the 2015 Recapitalization transaction is included in Note 4 to our consolidated financial statements.

The Fixed Rate Notes have original scheduled principal payments of \$38.6 million in each of 2017 and 2018, \$878.5 million in 2019, \$488.0 million in 2020, \$8.0 million in each of 2021 through 2024 and \$728.0 million in 2025. However, in accordance with our debt agreements, the payment of principal on the outstanding senior notes (i) shall be suspended if the leverage ratios are less than or equal to 4.5x total debt to EBITDA and there are no scheduled principal catch-up amounts outstanding; provided, that during any such suspension, principal payments will continue to accrue and are subject to catch-up upon failure to satisfy the leverage ratios, or (ii) on and after the payment in full of the 2012 Fixed Rate Notes, may be suspended if the leverage ratios are less than or equal to 5.0x total debt to EBITDA and no catch-up provisions are applicable. During the second quarter of 2014, we met the maximum leverage ratios of less than 4.5x, and, in accordance with our debt agreements, ceased debt amortization payments in the third quarter of 2014.

[Table of Contents](#)

The Company continued to meet the maximum leverage ratios of less than 4.5x in each of the quarters prior to the 2015 Recapitalization and accordingly, did not make previously scheduled debt amortization payments in accordance with the debt agreements. Subsequent to the 2015 Recapitalization, the Company's leverage ratios exceeded 4.5x and, accordingly, the Company began making the scheduled amortization payments as well as the required catch-up payments.

The Fixed Rate Notes are subject to certain financial and non-financial covenants, including a debt service coverage calculation, as defined in the related agreements. In the event that certain covenants are not met, the Fixed Rate Notes may become due and payable on an accelerated schedule.

A portion of proceeds from the 2015 Recapitalization were used to make an optional prepayment of approximately \$551.3 million in aggregate principal amount of the 2012 Fixed Rate Notes, at par, pay scheduled principal catch-up amounts on the 2012 Fixed Rate Notes, make an interest reserve deposit, pre-fund a portion of the principal and interest payable on the 2015 Fixed Rate Notes and pay transaction fees and expenses. In connection with the issuance of the 2015 Variable Funding Notes, the Company permanently reduced to zero the commitment to fund the 2012 variable funding note facility and the 2012 variable funding note facility was cancelled.

In connection with the 2012 Recapitalization, the Company recorded \$39.9 million of debt issuance costs. In connection with the 2015 Recapitalization, the Company wrote off approximately \$6.9 million of these costs in connection with the extinguishment of \$551.3 million of the 2012 Fixed Rate Notes. The remaining debt issuance costs related to the 2012 Recapitalization are being amortized into interest expense over the seven-year expected term of the 2012 Fixed Rate Notes. Additionally, in connection with the 2015 Recapitalization, the Company recorded \$17.4 million of debt issuance costs, which are being amortized into interest expense over the five and ten-year expected terms of the 2015 Fixed Rate Notes.

During fiscal 2015 and in connection with the 2015 Recapitalization, the Company incurred approximately \$8.1 million of net expenses. This consisted primarily of a \$6.9 million net write-off of debt issuance costs. The Company also incurred approximately \$0.4 million of interest expense on the 2012 Fixed Rate Notes subsequent to the closing of the 2015 Recapitalization but prior to the repayment of the 2012 Fixed Rate Notes, resulting in the payment of interest on both the 2012 and 2015 Fixed Rate Notes for a short period of time. Further, the Company incurred \$0.9 million of other net 2015 Recapitalization-related general and administrative expenses, including legal and professional fees.

Our primary source of liquidity is cash flows from operations and availability of borrowings under our 2015 Variable Funding Notes. As of January 1, 2017, we had \$44.3 million of outstanding letters of credit and \$80.7 million of available borrowing capacity under our 2015 Variable Funding Notes. The letters of credit are primarily related to our casualty insurance programs and supply chain center leases. Borrowings under the 2015 Variable Funding Notes are available to fund our working capital requirements, capital expenditures and, subject to other limitations, other general corporate purposes including dividend payments.

As part of the 2015 Recapitalization, on October 23, 2015, the Company's Board of Directors authorized a new share repurchase program to repurchase up to \$800.0 million of the Company's common stock. This repurchase program replaced the remaining availability under the Company's previously disclosed \$200.0 million share repurchase program. On October 27, 2015, the Company entered into a \$600.0 million ASR Agreement with a counterparty.

Pursuant to the terms of the ASR Agreement, on October 30, 2015, as part of its new \$800.0 million share repurchase authorization, the Company used a portion of the proceeds from the 2015 Recapitalization to pay the counterparty \$600.0 million in cash and received approximately 4.86 million shares of the Company's common stock. During the first quarter of 2016, the Company received and retired 456,936 shares of its common stock in connection with the final settlement of its \$600.0 million accelerated share repurchase program.

The Company's open market share repurchase program has historically been funded by excess cash flows. The Company used cash of approximately \$300.3 million in 2016 and \$738.6 million in 2015 for share repurchases. The Company had approximately \$149.1 million left under the most recent \$250.0 million authorization as of January 1, 2017. We expect to continue to use ongoing excess cash flow generation and (subject to certain restrictions in the documents governing the 2015 Variable Funding Notes) availability under the 2015 Variable Funding Notes to, among other things, repurchase shares under the current authorized program.

In the past three years, we have invested between \$61.5 million and \$71.8 million annually in capital expenditures. In 2016, we invested \$61.5 million in capital expenditures which primarily related to reimagining our existing Company-owned stores and investments in our supply chain centers and training facilities, our proprietary internally developed point-of-sale system (Domino's PULSE), our digital ordering platform, our internal enterprise systems and other technology initiatives. We did not have any material commitments for capital expenditures as of January 1, 2017.

The following table illustrates the main components of our cash flows:

(In millions)	Fiscal Year Ended		
	January 1, 2017	January 3, 2016	December 28, 2014
Cash Flows Provided By (Used In)			
Net cash provided by operating activities	\$ 287.3	\$ 291.8	\$ 192.3
Net cash used in investing activities	(0.8)	(109.3)	(57.4)
Net cash used in financing activities	(375.8)	(80.9)	(118.9)
Exchange rate changes	(1.3)	1.0	0.5
Change in cash and cash equivalents	<u>\$ (90.6)</u>	<u>\$ 102.6</u>	<u>\$ 16.5</u>

Operating Activities

Cash provided by operating activities was \$287.3 million in fiscal 2016. Our cash provided by operating activities was mainly the result of net income of \$214.7 million, which included non-cash amounts of \$12.6 million. The changes in operating assets and liabilities also generated \$60.0 million of cash inflows during 2016.

During fiscal 2015, cash provided by operating activities was \$291.8 million, mainly the result of net income of \$192.8 million, which included non-cash amounts of \$45.6 million. The changes in operating assets and liabilities also generated \$53.4 million of cash inflows during 2015.

Cash provided by operating activities was \$192.3 million in fiscal 2014. Our cash provided by operating activities was mainly the result of net income of \$162.6 million, which included \$29.7 million of non-cash amounts.

We are focused on continually improving our net income and cash flow from operations, and management expects to continue to generate positive cash flows from operating activities for the foreseeable future.

Investing Activities

During fiscal 2016, cash used in investing activities was \$0.8 million, which consisted primarily of \$58.6 million of capital expenditures (driven by investments related to the reimaging of our existing Company-owned stores and investments in our supply chain centers and training facilities, our proprietary internally developed point-of-sale system, our digital ordering platform, our internal enterprise systems and other technology initiatives), offset in part by the change in restricted cash of \$54.4 million and by proceeds from the sale of assets of \$4.9 million.

During fiscal 2015, cash used in investing activities was \$109.3 million, which consisted primarily of \$63.3 million of capital expenditures (driven by investments related to the reimaging of our existing Company-owned stores and investments in our supply chain centers and training facilities, our proprietary internally developed point-of-sale system, our digital ordering platform, our internal enterprise systems and other technology initiatives), change in restricted cash of \$60.0 million, and offset by proceeds from the sale of assets of \$12.7 million.

Cash used in investing activities was \$57.4 million in fiscal 2014. The main drivers of this change were \$70.1 million of capital expenditures, offset by \$9.2 million of proceeds from the sale of assets and the net change in restricted cash and cash equivalents of \$4.5 million.

Financing Activities

During fiscal 2016, cash used in financing activities was \$375.8 million. Purchases of common stock totaled \$300.3 million, repayments of long-term debt and capital lease obligations totaled \$122.3 million, and funding dividend payments to our shareholders totaled \$73.9 million. The net tax impact of equity-based compensation was \$42.5 million, proceeds from issuance of debt (from our draws on our variable funding note facility) totaled \$63.0 million, and proceeds from the exercise of stock options totaled \$15.2 million.

During fiscal 2015, cash used in financing activities was \$80.9 million. In fiscal 2015, we issued \$1.3 billion of debt in connection with our 2015 Recapitalization, which was offset by the purchases of common stock of \$738.6 million, repayments of long-term debt of \$564.4 million (of which, \$551.3 million was an optional prepayment on our 2012 Fixed Rate Notes using a portion of the proceeds received from the 2015 Recapitalization), funding dividend payments to our shareholders of \$80.3 million, and cash paid for financing costs related to our 2015 Recapitalization of \$17.4 million. The net tax impact of equity-based compensation of \$10.3 million increased cash from financing activities in fiscal 2015.

We used \$118.9 million of cash in financing activities in fiscal 2014, related to purchases of common stock, funding dividend payments to our shareholders and making payments on our long-term debt obligations. The tax impact of equity-based compensation offset the use of cash in financing activities in both fiscal 2014.

[Table of Contents](#)

During fiscal 2016, we experienced increases in both domestic and international same store sales and both our domestic and international businesses grew their number of stores. These factors have contributed to our continued ability to generate positive operating cash flows. We expect to use our unrestricted cash and cash equivalents, ongoing cash flows from operations and available borrowings under the 2015 Variable Funding Notes to, among other things, fund working capital requirements, invest in our core business, pay dividends and repurchase our common stock. Based upon the current level of operations and anticipated growth, we believe that the cash generated from operations, our current unrestricted cash and cash equivalents and amounts available under the 2015 Variable Funding Notes will be more than adequate to meet our anticipated debt service requirements, capital expenditures, dividend payments and working capital needs for the foreseeable future.

Our ability to continue to fund these items and continue to reduce debt could be adversely affected by the occurrence of any of the events described in Item 1A. Risk Factors. There can be no assurance that our business will generate sufficient cash flows from operations or that future borrowings will be available under the 2015 Variable Funding Notes or otherwise to enable us to service our indebtedness, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend or refinance the Fixed Rate Notes and to service, extend or refinance the 2015 Variable Funding Notes will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control.

Impact of inflation

We believe that our results of operations are not materially impacted by moderate changes in the inflation rate. Inflation did not have a material impact on our operations in 2016, 2015 or 2014. Severe increases in inflation, however, could affect the global and U.S. economies and could have an adverse impact on our business, financial condition and results of operations. Further discussion on the impact of commodities and other cost pressures is included above as well as in Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

New accounting pronouncements

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern*. ASU 2014-15 requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date the financial statements are issued, and provide related disclosures. ASU 2014-15 is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The Company has completed its evaluation as of January 1, 2017, and concluded that there are no conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern under ASU 2014-15.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires a lessee to recognize assets and liabilities on the balance sheet for leases with lease terms greater than 12 months. ASU 2016-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, and early adoption is permitted. Based on a preliminary assessment, the Company expects the adoption of this guidance to have a material impact on its assets and liabilities due to the recognition of right-of-use assets and lease liabilities on its consolidated balance sheets at the beginning of the earliest period presented. The Company is continuing its assessment, which may identify additional impacts this guidance will have on its consolidated financial statements and disclosures.

In March 2016, the FASB issued ASU 2016-04, *Liabilities – Extinguishment of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products*. ASU 2016-04 aligns recognition of the financial liabilities related to prepaid stored-value products (for example, gift cards) with Topic 606, *Revenues from Contracts with Customers*, for non-financial liabilities. In general, these liabilities may be extinguished proportionately in earnings as redemptions occur, or when redemption is remote if issuers are not entitled to the unredeemed stored value. ASU 2016-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, and early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

[Table of Contents](#)

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. ASU 2016-09 is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. The update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is permitted. Based on a preliminary assessment, the Company expects the initial adoption of this guidance to not be material to its consolidated financial statements. Subsequent to adoption, the impact of the standard will be dependent on a number of factors, including the market value per share of the Company's common stock at restricted stock vesting dates and the number of stock options that are exercised, as excess tax benefits or deficiencies will be reflected in the consolidated statements of income as a component of the provision for income taxes. The Company expects that the subsequent impact of adoption of this guidance will likely be material to the Company's consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients* and ASU 2016-11, *Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting*. In December 2016, the FASB issued ASU 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*. These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*.

The amendments in ASU 2016-08 clarify how an entity should identify the specified good or service for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. ASU 2016-10 clarifies the following two aspects of ASU 2014-09: identifying performance obligations and licensing implementation guidance. ASU 2016-11 rescinds several SEC Staff Announcements that are codified in Topic 605, including, among other items, guidance relating to accounting for consideration given by a vendor to a customer, as well as accounting for shipping and handling fees and freight services. ASU 2016-12 provides clarification to Topic 606 on how to assess collectability, present sales tax, treat noncash consideration, and account for completed and modified contracts at the time of transition. ASU 2016-12 clarifies that an entity retrospectively applying the guidance in Topic 606 is not required to disclose the effect of the accounting change in the period of adoption. Additionally, ASU 2016-20 clarify certain narrow aspects within Topic 606 including its scope, contract cost accounting, and disclosures. The effective date and transition requirements for these amendments are the same as the effective date and transition requirements of ASU 2014-09, which is effective for fiscal years, and for interim periods within those years, beginning after December 15, 2017. The Company is currently evaluating the overall impact that ASU 2014-09 and its related amendments will have on the Company's consolidated financial statements, as well as the expected timing and method of adoption. Based on a preliminary assessment, the adoption of this guidance is not expected to impact our recognition of sales from Company-owned stores, ongoing royalty fees which are based on a percentage of franchise sales, or revenues from our supply chain centers. The Company is continuing to evaluate the impact of the adoption of this guidance on the recognition of less significant revenues such as development fees, franchise fees, and technology fees.

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 requires companies to measure credit losses utilizing a methodology that reflects expected credit losses and requires a consideration of a broader range of reasonable and supportable information to inform credit loss estimates. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, including those interim periods within those fiscal years. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 addresses how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230, Statement of Cash flow, and other Topics. ASU 2016-15 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2017. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 requires that entities show the changes in total cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. ASU 2016-18 is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-03, *Accounting Changes and Error Corrections (Topic 250) and Investments – Equity Method and Joint Ventures (Topic 323): Amendments to SEC Paragraphs Pursuant to Staff Announcements at the September 22, 2017 and November 17, 2016 EITF Meetings*. ASU 2017-03 responds to SEC staff announcements made in 2016 as it relates to the disclosure of the future impact of the effects of the new FASB guidance on revenue, leases and credit losses on financial instruments in accordance with Staff Accounting Bulletin 74. ASU 2017-03 was effective upon issuance in January 2017. As of January 1, 2017, the Company has adopted ASU 2017-03 and have made the required disclosures within this section of the Form 10-K.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 35): Simplifying the Test for Goodwill Impairment*, or ASU 2017-04. ASU 2017-04 simplifies the subsequent measurement of goodwill by eliminating “Step 2” from the goodwill impairment test. ASU 2017-04 is effective for public companies’ annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

Contractual obligations

The following is a summary of our significant contractual obligations at January 1, 2017.

- (3) The principal portion of the capital lease obligation amounts above, which totaled \$5.7 million at January 1, 2017, are classified as debt in our consolidated financial statements. Total amount does not sum due to rounding.
- (4) We lease certain retail store and supply chain center locations, supply chain vehicles, various equipment and our World Resource Center, which is our corporate headquarters, under leases with expiration dates through 2029.

Liabilities for unrecognized tax benefits of \$2.0 million are excluded from the above table, as we are unable to make a reasonably reliable estimate of the amount and period of payment. For additional information on unrecognized tax benefits see Note 6 to the consolidated financial statements included in this Form 10-K.

Off-balance sheet arrangements

We are party to letters of credit and, to a lesser extent, financial guarantees with off-balance sheet risk. Our exposure to credit loss for letters of credit and financial guarantees is represented by the contractual amounts of these instruments. Total conditional commitments under letters of credit as of January 1, 2017 were approximately \$44.3 million and relate to our insurance programs and supply chain center leases. The Company has guaranteed lease payments related to certain franchisees’ lease arrangements. The maximum amount of potential future payments under these guarantees is \$1.0 million as of January 1, 2017. We believe that none of these arrangements has or is likely to have a material effect on our results of operations, financial condition, revenues or expenses, capital expenditures or liquidity.

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Annual Report on Form 10-K includes various forward-looking statements about the Company within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Act”) that are based on current management expectations that involve substantial risks and uncertainties which could cause actual results to differ materially from the results expressed in, or implied by, these forward-looking statements. The following cautionary statements are being made pursuant to the provisions of the Act and with the intention of obtaining the benefits of the “safe harbor” provisions of the Act.

These forward-looking statements generally can be identified by the use of words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will,” “potential,” “outlook” and similar terms and phrases, including references to assumptions, are forward-looking statements. These forward-looking statements address various matters including information concerning future results of operations and business strategy, and statements about our ability to complete our “Pizza Theater” store redesign, the expected demand for future pizza delivery, our expectation that we will meet the terms of our agreement with our third-party supplier of pizza cheese, our belief that alternative third-party suppliers are available for our key ingredients in the

event we are required to replace any of our supply partners, our intention to continue to enhance and grow online ordering, digital marketing and technological capabilities, our expectation that there will be no material capital expenditures for environmental control facilities, our plans to expand international operations in many of the markets where we currently operate and in selected new markets, our expectation that the contribution rate for advertising fees payable to DNAF will remain in place for the foreseeable future, and our expectation that we will use our unrestricted cash and cash equivalents, ongoing cash flows from operations and available borrowings under the 2015 Variable Funding Notes to, among other things, fund working capital requirements, invest in our core business, pay dividends and repurchase our common stock.

Forward-looking statements relating to our anticipated profitability, the growth of our international business, ability to service our indebtedness, our operating performance, trends in our business and other descriptions of future events reflect management's expectations based upon currently available information and data. While we believe these expectations and projections are based on reasonable assumptions, such forward-looking statements are inherently subject to risks, uncertainties and assumptions about us, including the risk factors listed under Item 1A. Risk Factors, as well as other cautionary language in this Form 10-K.

Actual results may differ materially from those in the forward looking statements as a result of various factors, including but not limited to, the following:

- our substantial increased indebtedness as a result of the 2012 Recapitalization and the 2015 Recapitalization and our ability to incur additional indebtedness or refinance that indebtedness in the future;
- our future financial performance;
- the success of our marketing initiatives;
- our future cash needs;
- our ability to maintain good relationships with our franchisees and their ongoing level of profitability;
- our ability to successfully implement cost-saving strategies;
- increases in our operating costs, including cheese, fuel and other commodity costs and the minimum wage;
- our ability to compete domestically and internationally in our intensely competitive industry;
- additional risk precipitated by international operations;
- our ability to retain or replace our executive officers and other key members of management and our ability to adequately staff our stores and supply chain centers with qualified personnel;
- our ability and that of our franchisees to open new restaurants and keep existing restaurants in operation;
- our ability to pay principal and interest on our substantial debt;
- our ability to find and/or retain suitable real estate for our stores and supply chain centers;
- adverse legislation, regulation or publicity;
- adverse legal judgments or settlements;
- food-borne illness or contamination of products;
- data breaches or other cyber risks;
- the effect of war, terrorism or catastrophic events;
- our ability to pay dividends and repurchase shares;
- changes in consumer taste, demographic trends and traffic patterns; and
- adequacy of insurance coverage.

All forward-looking statements should be evaluated with the understanding of their inherent uncertainty. We will not undertake and specifically decline any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this Annual Report on Form 10-K might not occur.

Forward-looking statements speak only as of the date of this Form 10-K. Except as required under federal securities laws and the rules and regulations of the Securities and Exchange Commission, we do not have any intention to update any forward-looking statements to reflect events or circumstances arising after the date of this Form 10-K, whether as a result of new information, future events or otherwise. As a result of these risks and uncertainties, readers are cautioned not to place undue reliance on the forward-looking statements included in this Form 10-K or that may be made elsewhere from time to time by, or on behalf of, us. All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Market risk

We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes. In connection with the 2015 Recapitalization, we issued fixed rate notes and, at January 1, 2017, we are only exposed to interest rate risk on borrowings under our 2015 Variable Funding Notes. As of January 1, 2017, we had no outstanding borrowings under our 2015 Variable Funding Notes. Our fixed rate debt exposes the Company to changes in market interest rates reflected in the fair value of the debt and to the risk that the Company may need to refinance maturing debt with new debt at a higher rate.

We are exposed to market risks from changes in commodity prices. During the normal course of business, we purchase cheese and certain other food products that are affected by changes in commodity prices and, as a result, we are subject to volatility in our food costs. We may periodically enter into financial instruments to manage this risk. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes. In instances when we use fixed pricing agreements with our suppliers, these agreements cover our physical commodity needs, are not net-settled and are accounted for as normal purchases.

Foreign currency exchange rate risk

We have exposure to various foreign currency exchange rate fluctuations for revenues generated by our operations outside the United States, which can adversely impact our net income and cash flows. Approximately 7.2% of our total revenues in 2016, 7.4% of our total revenues in 2015 and 7.7% of our total revenues in 2014 were derived from our international franchise segment, a majority of which were denominated in foreign currencies. We also operate dough manufacturing and distribution facilities in Canada, which generate revenues denominated in Canadian dollars. We do not enter into financial instruments to manage this foreign currency exchange risk. A hypothetical 10% adverse change in the foreign currency rates for our international markets would have resulted in a negative impact on royalty revenues of approximately \$16.7 million in 2016.

Item 8. Financial Statements and Supplementary Data.

Report of Independent Registered Public Accounting Firm

To the Stockholders and Board of Directors
of Domino's Pizza, Inc.:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Domino's Pizza, Inc. and its subsidiaries at January 1, 2017 and January 3, 2016, and the results of their operations and their cash flows for each of the three years in the period ended January 1, 2017 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the index appearing under Item 15(a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 1, 2017, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control over Financial Reporting, appearing under Item 9(A). Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

DOMINO'S PIZZA, INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Domino's Pizza, Inc. ("DPI"), a Delaware corporation, conducts its operations and derives substantially all of its operating income and cash flows through its wholly-owned subsidiary, Domino's, Inc. ("Domino's") and Domino's wholly-owned subsidiary, Domino's Pizza LLC ("DPLL"). DPI and its wholly-owned subsidiaries (collectively, "the Company") are primarily engaged in the following business activities: (i) retail sales of food through Company-owned Domino's Pizza stores; (ii) sales of food, equipment and supplies to Company-owned and franchised Domino's Pizza stores through Company-owned supply chain centers; and (iii) receipt of royalties and fees from domestic and international Domino's Pizza franchisees.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of DPI and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Fiscal Year

The Company's fiscal year ends on the Sunday closest to December 31. The 2016 fiscal year ended on January 1, 2017, the 2015 fiscal year ended on January 3, 2016 and the 2014 fiscal year ended on December 28, 2014. The 2016 fiscal year consisted of fifty-two weeks, the 2015 fiscal year consisted of fifty-three weeks, and the 2014 fiscal year consisted of fifty-two weeks.

Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with original maturities of three months or less at the date of purchase. These investments are carried at cost, which approximates fair value.

Restricted Cash and Cash Equivalents

Restricted cash at January 1, 2017 includes \$99.8 million of cash held for future principal and interest payments and \$26.7 million of cash held in a three-month interest reserve.

Restricted cash at January 3, 2016 includes \$114.2 million of cash held for future principal and interest payments, \$26.7 million of cash held in a three-month interest reserve, and \$40.0 million of cash held as collateral for outstanding letters of credit.

Inventories

Inventories are valued at the lower of cost (on a first-in, first-out basis) or market. Inventories at January 1, 2017 and January 3, 2016 are comprised of the following (in thousands):

	2016	2015
Food	\$36,644	\$30,167
Equipment and supplies	3,537	6,694
Inventories	<u>\$40,181</u>	<u>\$36,861</u>

Other Assets

Current and long-term other assets primarily include prepaid expenses such as insurance, rent and taxes, deposits, notes receivable, as well as covenants not-to-compete and other intangible assets primarily arising from franchise acquisitions. As of January 1, 2017 and January 3, 2016, all intangible assets with useful lives were fully amortized.

Property, Plant and Equipment

Additions to property, plant and equipment are recorded at cost. Repair and maintenance costs are expensed as incurred. Depreciation and amortization expense is provided using the straight-line method over the estimated useful lives of the related assets. Estimated useful lives, other than the estimated useful life of the capital lease assets as described below, are generally as follows (in years):

Buildings	20
Leasehold and other improvements	7 – 15
Equipment	3 – 15

Included in land and buildings as of January 1, 2017 and January 3, 2016 are capital lease assets of approximately \$4.7 million and \$5.1 million, which are net of \$5.8 million and \$5.4 million of accumulated amortization, respectively, primarily related to the lease of a supply chain center building, and to a lesser extent, the lease of a Company-owned store. The capital lease assets are being amortized using the straight-line method over the respective lease terms.

Depreciation and amortization expense on property, plant and equipment was approximately \$27.3 million, \$24.1 million and \$28.4 million in 2016, 2015 and 2014, respectively.

Impairments of Long-Lived Assets

The Company evaluates the potential impairment of long-lived assets at least annually based on various analyses including the projection of undiscounted cash flows and whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. For Company-owned stores, the Company performs this evaluation on an operating market basis, which the Company has determined to be the lowest level for which identifiable cash flows are largely independent of other cash flows. If the carrying amount of a long-lived asset exceeds the amount of the expected future undiscounted cash flows of that asset, the Company estimates the fair value of the assets. If the carrying amount of the asset exceeds the estimated fair value of the asset, an impairment loss is recognized and the asset is written down to its estimated fair value.

During the fourth quarter of 2014, in connection with meeting held-for-sale criteria for its corporate airplane, the Company recorded \$5.8 million of pre-tax expense to reduce the asset to its fair value less cost to sell. This impairment loss was recorded in general and administrative expenses on the consolidated statements of income. Aside from the impairment loss in 2014, the Company did not record an impairment loss on long-lived assets in 2016, 2015, or 2014.

Investments in Marketable Securities

Investments in marketable securities consist of investments in various mutual funds made by eligible individuals as part of the Company's deferred compensation plan (Note 7). These investments are stated at aggregate fair value, are restricted and have been placed in a rabbi trust whereby the amounts are irrevocably set aside to fund the Company's obligations under the deferred compensation plan. The Company classifies and accounts for these investments in marketable securities as trading securities.

Debt Issuance Costs

Debt issuance costs primarily include the expenses incurred by the Company as part of the 2012 and 2015 Recapitalizations (Note 4). Amortization is provided on a straight-line basis (which is materially consistent with the effective interest method) over the expected term of the respective debt instrument to which the costs relate and is included in interest expense.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

In connection with the 2012 Recapitalization, the Company recorded \$39.9 million of debt issuance costs. In connection with the 2015 Recapitalization, the Company wrote-off approximately \$6.9 million of these costs in connection with the extinguishment of \$551.3 million of the 2012 Fixed Rate Notes (Note 4). The remaining debt issuance costs related to the 2012 Recapitalization are being amortized into interest expense over the seven-year expected term of the 2012 Fixed Rate Notes. Additionally, in connection with the 2015 Recapitalization, the Company recorded \$17.4 million of debt issuance costs, which are being amortized into interest expense over the five and ten-year expected terms of the 2015 Fixed Rate Notes (Note 4).

In connection with the aforementioned write-off of debt issuance costs and scheduled principal payments of its Fixed Rate Notes (Note 4), the Company expensed debt issuance costs of approximately \$0.6 million, \$6.9 million and \$0.2 million in 2016, 2015 and 2014, respectively. Debt issuance cost expense, including the aforementioned amounts, was approximately \$6.4 million, \$12.4 million and \$5.7 million in 2016, 2015 and 2014, respectively.

Goodwill

The Company's goodwill amounts primarily relate to franchise store acquisitions and are not amortized. The Company performs its required impairment tests in the fourth quarter of each fiscal year and did not recognize any goodwill impairment charges in 2016, 2015 or 2014.

Capitalized Software

Capitalized software is recorded at cost and includes purchased, internally-developed and externally-developed software used in the Company's operations. Amortization expense is provided using the straight-line method over the estimated useful lives of the software, which range from one to three years. Capitalized software amortization expense was approximately \$10.8 million, \$8.3 million and \$7.3 million in 2016, 2015 and 2014, respectively. The Company received \$4.4 million, \$3.9 million and \$3.4 million from franchisees from enhancements of internally developed point-of-sale software during 2016, 2015 and 2014, respectively. The Company also received \$2.0 million, \$1.8 million, and \$0.9 million from franchisees for software licenses and software development work during 2016, 2015 and 2014, respectively.

Insurance Reserves

The Company has retention programs for workers' compensation, general liability and owned and non-owned automobile liabilities for certain periods prior to December 1998 and for periods after December 2001. The Company is generally responsible for up to \$1.0 million per occurrence under these retention programs for workers' compensation and general liability exposures. The Company is also generally responsible for between \$500,000 and \$3.0 million per occurrence under these retention programs for owned and non-owned automobile liabilities depending on the year. Total insurance limits under these retention programs vary depending on the year covered and range up to \$110.0 million per occurrence for general liability and owned and non-owned automobile liabilities and up to the applicable statutory limits for workers' compensation.

Insurance reserves relating to our retention programs are based on undiscounted actuarial estimates. These estimates are based on historical information and on certain assumptions about future events. Changes in assumptions for such factors as medical costs and legal actions, as well as changes in actual experience, could cause these estimates to change in the near term. The Company receives estimates of outstanding insurance exposures from its independent actuary and differences between these estimated actuarial exposures and the Company's recorded amounts are adjusted as appropriate.

Other Accrued Liabilities

Current and long-term other accrued liabilities primarily include accruals for income, sales, property and other taxes, legal reserves, store operating expenses, deferred rent expense, dividends payable and deferred compensation liabilities.

Foreign Currency Translation

The Company's foreign entities use their local currency as the functional currency. For these entities, the Company translates net assets into U.S. dollars at year end exchange rates, while income and expense accounts are translated at average annual exchange rates. Currency translation adjustments are included in accumulated other comprehensive income (loss) and foreign currency transaction gains and losses are included in determining net income.

Revenue Recognition

Domestic Company-owned stores revenues are comprised of retail sales of food through Company-owned Domino's Pizza stores located in the contiguous United States and are recognized when the items are delivered to or carried out by customers.

Domestic franchise revenues are primarily comprised of royalties and fees from Domino's Pizza franchisees with operations in the contiguous United States. Royalty revenues are recognized when the items are delivered to or carried out by franchise customers.

Supply chain revenues are primarily comprised of sales of food, equipment and supplies to franchised Domino's Pizza stores located in the United States and Canada. Revenues from the sales of food are recognized upon delivery of the food to franchisees, while revenues from the sales of equipment and supplies are generally recognized upon shipment of the related products to franchisees.

International franchise revenues are primarily comprised of royalties and fees from Domino's Pizza franchisees outside the contiguous United States. These revenues are recognized consistently with the policies applied for franchise revenues generated in the contiguous United States.

Supply Chain Profit-Sharing Arrangements

The Company enters into profit-sharing arrangements with domestic and Canadian stores that purchase all of their food from Supply Chain (Note 11). These profit-sharing arrangements generally offer Company-owned stores and participating franchisees with 50% (or a higher percentage in the case of Company-owned stores and certain franchisees who operate a larger number of stores) of their regional supply chain center's pre-tax profits based upon each store's purchases from the supply chain center. Profit-sharing obligations are recorded as a revenue reduction in Supply Chain in the same period as the related revenues and costs are recorded, and were \$99.8 million, \$85.8 million and \$75.7 million in 2016, 2015 and 2014, respectively.

Advertising

Advertising costs are expensed as incurred. Advertising expense, which relates primarily to Company-owned stores, was approximately \$34.5 million, \$32.0 million and \$29.0 million during 2016, 2015 and 2014, respectively.

Domestic Stores (Note 11) are required to contribute a certain percentage of sales to the Domino's National Advertising Fund Inc. ("DNAF"), a not-for-profit subsidiary that administers the Domino's Pizza system's national and market level advertising activities in the United States. Included in advertising expense were national advertising contributions from Company-owned stores to DNAF of approximately \$26.1 million, \$23.2 million and \$20.9 million in 2016, 2015 and 2014, respectively. DNAF also received national advertising contributions from franchisees of approximately \$283.7 million, \$247.0 million and \$217.7 million during 2016, 2015 and 2014, respectively. Franchisee contributions to DNAF and offsetting disbursements are presented net in the accompanying statements of income.

DNAF assets, consisting primarily of cash received from franchisees and accounts receivable from franchisees, can only be used for activities that promote the Domino's Pizza® brand. Accordingly, all assets held by the DNAF are considered restricted.

Rent

The Company leases certain equipment, vehicles, retail store and supply chain center locations and its corporate headquarters under operating leases with expiration dates through 2029. Rent expenses totaled approximately \$49.9 million, \$46.1 million and \$43.0 million during 2016, 2015 and 2014, respectively.

Common Stock Dividends

During 2016, the Company declared and paid dividends of approximately \$74.0 million, or \$1.52 per share.

During 2015, the Company declared and paid dividends of approximately \$66.5 million, or \$1.24 per share.

During 2014, the Company declared dividends of approximately \$55.3 million, or \$1.00 per share, of which approximately \$41.7 million were paid in 2014. The third quarter 2014 dividend of approximately \$13.8 million was paid to shareholders on December 30, 2014, which was included in fiscal 2015. The third quarter 2013 dividend of approximately \$11.1 million was paid to shareholders on December 30, 2013, which was included in fiscal 2014.

Derivative Instruments

The Company recognizes all derivatives as either assets or liabilities in the balance sheet and measures those instruments at fair value. The Company had no outstanding derivative instruments as of January 1, 2017 and January 3, 2016.

Stock Options and Other Equity-Based Compensation Arrangements

The cost of all of the Company's stock options, as well as other equity-based compensation arrangements, is reflected in the financial statements based on the estimated fair value of the awards.

Earnings Per Share

The Company discloses two calculations of earnings per share ("EPS"): basic EPS and diluted EPS. The numerator in calculating common stock basic and diluted EPS is consolidated net income. The denominator in calculating common stock basic EPS is the weighted average shares outstanding. The denominator in calculating common stock diluted EPS includes the additional dilutive effect of outstanding stock options and unvested restricted stock grants and unvested performance-based restricted stock grants.

Supplemental Disclosures of Cash Flow Information

The Company paid interest of approximately \$104.6 million, \$80.8 million and \$81.1 million during 2016, 2015 and 2014, respectively. Cash paid for income taxes was approximately \$74.3 million, \$80.1 million and \$76.5 million in 2016, 2015 and 2014, respectively.

The Company had \$3.8 million and \$0.8 million of non-cash investing activities related to accruals for capital expenditures in 2016 and 2015, respectively. The Company also had non-cash financing activities related to capital assets and liabilities in 2015. Specifically, the Company recorded \$3.4 million for the renewal of a capital lease of a supply chain center building in the first quarter of 2015, and recorded \$0.6 million as a result of entering into a capital lease for a corporate store in the third quarter of 2015.

New Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2014-15, *Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. ASU 2014-15 requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued, and provide related disclosures. ASU 2014-15 is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. The Company has completed its evaluation as of January 1, 2017, and concluded that there are no conditions or events that raise substantial doubt about the entity's ability to continue as a going concern under ASU 2014-15.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires a lessee to recognize assets and liabilities on the balance sheet for leases with lease terms greater than 12 months. ASU 2016-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, and early adoption is permitted. Based on a preliminary assessment, the Company expects the adoption of this guidance to have a material impact on its assets and liabilities due to the recognition of right-of-use assets and lease liabilities on its consolidated balance sheets at the beginning of the earliest period presented. The Company is continuing its assessment, which may identify additional impacts this guidance will have on its consolidated financial statements and disclosures.

In March 2016, the FASB issued ASU 2016-04, *Liabilities – Extinguishment of Liabilities (Subtopic 405-20): Recognition of Breakage for Certain Prepaid Stored-Value Products*. ASU 2016-04 aligns recognition of the financial liabilities related to prepaid stored-value products (for example, gift cards) with Topic 606, *Revenues from Contracts with Customers*, for non-financial liabilities. In general, these liabilities may be extinguished proportionately in earnings as redemptions occur, or when redemption is remote if issuers are not entitled to the unredeemed stored value. ASU 2016-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2017, and early adoption is permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. ASU 2016-09 is intended to simplify several areas of accounting for share-based compensation arrangements, including the income tax impact, classification on the statement of cash flows and forfeitures. The update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is permitted. Based on a preliminary assessment, the Company expects the initial adoption of this guidance to not be material to its consolidated financial statements. Subsequent to adoption, the impact of the standard will be dependent on a number of factors, including the market value per share of the Company's common stock at restricted stock vesting dates and the number of stock options that are exercised, as excess tax benefits or deficiencies will be reflected in the consolidated statements of income as a component of the provision for income taxes. The Company expects that the subsequent impact of adoption of this guidance will likely be material to the Company's consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients* and ASU 2016-11, *Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting*. In December 2016, the FASB issued ASU 2016-20, *Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers*. These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*.

DOMINO'S PIZZA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

The amendments in ASU 2016-08 clarify how an entity should identify the specified good or service for the principal versus agent evaluation and how it should apply the control principle to certain types of arrangements. ASU 2016-10 clarifies the following two aspects of ASU 2014-09: identifying performance obligations and licensing implementation guidance. ASU 2016-11 rescinds several SEC Staff Announcements that are codified in Topic 605, including, among other items, guidance relating to accounting for consideration given by a vendor to a customer, as well as accounting for shipping and handling fees and freight services. ASU 2016-12 provides clarification to Topic 606 on how to assess collectability, present sales tax, treat noncash consideration, and account for completed and modified contracts at the time of transition. ASU 2016-12 clarifies that an entity retrospectively applying the guidance in Topic 606 is not required to disclose the effect of the accounting change in the period of adoption. Additionally, ASU 2016-20 clarify certain narrow aspects within Topic 606 including its scope, contract cost accounting, and disclosures. The effective date and transition requirements for these amendments are the same as the effective date and transition requirements of ASU 2014-09, which is effective for fiscal years, and for interim periods within those years, beginning after December 15, 2017. The Company is currently evaluating the overall impact that ASU 2014-09 and its related amendments will have on the Company's consolidated financial statements, as well as the expected timing and method of adoption. Based on a preliminary assessment, the adoption of this guidance is not expected to impact the Company's recognition of sales from Company-owned stores, ongoing royalty fees which are based on a percentage of franchise sales, or revenues from supply chain centers. The Company is continuing to evaluate the impact of the adoption of this guidance on the recognition of less significant revenues such as development fees, franchise fees, and technology fees.

In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 requires companies to measure credit losses utilizing a methodology that reflects expected credit losses and requires a consideration of a broader range of reasonable and supportable information to inform credit loss estimates. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, including those interim periods within those fiscal years. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 addresses how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230, Statement of Cash flow, and other Topics. ASU 2016-15 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2017. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 requires that entities show the changes in total cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. ASU 2016-18 is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-03, *Accounting Changes and Error Corrections (Topic 250) and Investments – Equity Method and Joint Ventures (Topic 323): Amendments to SEC Paragraphs Pursuant to Staff Announcements at the September 22, 2017 and November 17, 2016 EITF Meetings*. ASU 2017-03 responds to SEC staff announcements made in 2016 as it relates to the disclosure of the future impact of the effects of the new FASB guidance on revenue, leases and credit losses on financial instruments in accordance with Staff Accounting Bulletin 74. ASU 2017-03 was effective upon issuance in January 2017. As of January 1, 2017, the Company has adopted ASU 2017-03 and have made the required disclosures within this section of the Form 10-K.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 35): Simplifying the Test for Goodwill Impairment*, or ASU 2017-04. ASU 2017-04 simplifies the subsequent measurement of goodwill by eliminating “Step 2” from the goodwill impairment test. ASU 2017-04 is effective for public companies’ annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

Accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company’s consolidated financial statements upon adoption.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) EARNINGS PER SHARE

The computation of basic and diluted earnings per common share is as follows (in thousands, except share and per share amounts):

	2016	2015	2014
Net income available to common stockholders – basic and diluted	<u>\$ 214,678</u>	<u>\$ 192,789</u>	<u>\$ 162,587</u>
Weighted average number of common shares	48,647,167	53,828,609	54,918,471
Earnings per common share – basic	\$ 4.41	\$ 3.58	\$ 2.96
Diluted weighted average number of common shares	49,923,859	55,532,955	56,931,226
Earnings per common share – diluted	\$ 4.30	\$ 3.47	\$ 2.86

The denominators used in calculating diluted earnings per share for common stock do not include 121,075 options to purchase common stock in 2016, 188,080 options to purchase common stock in 2015 and 222,060 options to purchase common stock in 2014, as the effect of including these options would be anti-dilutive. The denominators used in calculating diluted earnings per share for common stock do not include 86,010 restricted performance shares in 2016, 59,580 restricted performance shares in 2015 and 104,740 restricted performance shares in 2014, as the effect of including these shares would be anti-dilutive.

(3) FAIR VALUE MEASUREMENTS

Fair value measurements enable the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The Company classifies and discloses assets and liabilities carried at fair value in one of the following three categories:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.
- Level 3: Unobservable inputs that are not corroborated by market data.

The fair values of the Company's cash equivalents and investments in marketable securities are based on quoted prices in active markets for identical assets. The following table summarizes the carrying amounts and fair values of certain assets at January 1, 2017:

	At January 1, 2017			
	Carrying Amount	Fair Value Estimated Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Cash equivalents	\$ 7,017	\$ 7,017	\$ —	\$ —
Restricted cash equivalents	69,113	69,113	—	—
Investments in marketable securities	7,260	7,260	—	—

The following table summarizes the carrying amounts and fair values of certain assets at January 3, 2016:

	At January 3, 2016			
	Carrying Amount	Fair Value Estimated Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Cash equivalents	\$ 108,766	\$108,766	\$ —	\$ —

(4) RECAPITALIZATIONS AND FINANCING ARRANGEMENTS

On October 21, 2015, the Company completed a recapitalization transaction (the "2015 Recapitalization") by issuing \$1.3 billion aggregate principal amount of fixed rate notes consisting of \$500.0 million Series 2015-1 3.484% Fixed Rate Senior Secured Notes, Class A-2-I (the "2015 Five-Year Notes") and \$800.0 million Series 2015-1 4.474% Fixed Rate Senior Secured Notes, Class A-2-II (the "2015 Ten-Year Notes" and, together with the 2015 Five-Year Notes, the "2015 Fixed Rate Notes"). Concurrently, the Company also issued a revolving financing facility which allows for advances of up to \$125.0 million of Series 2015-1 Variable Funding Senior Secured Notes, Class A-1 (the "2015 Variable Funding Notes") and issuances of letters of credit. The 2015 Variable Funding Notes were undrawn upon issuance. Gross proceeds from the issuance of the 2015 Fixed Rate Notes were \$1.3 billion. The 2015 Fixed Rate Notes and the 2015 Variable Funding Notes are referred to collectively as the "2015 Notes."

The Company's previous refinancing transaction occurred in April 2012 (the "2012 Recapitalization"), with the issuance of \$1.575 billion of Series 2012-1 5.216% Fixed Rate Senior Secured Notes, Class A-2 (the "2012 Fixed Rate Notes") and a revolving financing facility that allowed for advances of up to \$100.0 million of Series 2012-1 Variable Funding Senior Secured Notes, Class A-1 Notes (the "2012 Variable Funding Notes"). The 2012 Fixed Rate Notes and the 2012 Variable Funding Notes are referred to collectively as the "2012 Notes." The 2012 Fixed Rate Notes and the 2015 Fixed Rate Notes are referred to collectively as the "Fixed Rate Notes". The 2012 Notes and the 2015 Notes are referred to collectively as the "Notes."

A portion of proceeds from the 2015 Recapitalization were used to make an optional prepayment of approximately \$551.3 million in aggregate principal amount of the 2012 Fixed Rate Notes, at par, pay scheduled principal catch-up amounts on the 2012 Fixed Rate Notes, make an interest reserve deposit, pre-fund a portion of the principal and interest payable on the 2015 Fixed Rate Notes and pay transaction fees and expenses. In connection with the issuance and sale of the 2015 Variable Funding Notes, the Company permanently reduced to zero the commitment to fund the 2012 Variable Funding Notes and the 2012 Variable Funding Notes were cancelled.

Additionally, as part of the 2015 Recapitalization, on October 23, 2015, the Company's Board of Directors authorized a share repurchase program to repurchase up to \$800.0 million of the Company's common stock. This repurchase program replaced the remaining availability under the Company's previously disclosed \$200.0 million share repurchase program. On October 27, 2015, the Company entered into a \$600.0 million accelerated share repurchase agreement (the "ASR Agreement") with a counterparty. Pursuant to the terms of the ASR Agreement, on October 30, 2015, as part of its \$800.0 million share repurchase authorization, the Company used a portion of the proceeds from the 2015 Recapitalization to pay the counterparty \$600.0 million in cash and received 4,858,994 shares of the Company's common stock. During the first quarter of 2016, the Company received and retired 456,936 shares of its common stock in connection with the final settlement of its \$600.0 million accelerated share repurchase program.

2015 Fixed Rate Notes

The 2015 Fixed Rate Notes have remaining scheduled principal payments of \$13.0 million in each of 2017, 2018 and 2019, \$488.0 million in 2020, \$8.0 million in each of 2021, 2022, 2023, and 2024, and \$728.0 million in 2025. During fiscal 2016, the Company made principal payments of approximately \$13.0 million on the 2015 Fixed Rate Notes.

The legal final maturity date of the 2015 Fixed Rate Notes is in October 2045, but it is anticipated that, unless earlier prepaid to the extent permitted under the related debt agreements, the 2015 Five-Year Notes will be repaid on or prior to the anticipated repayment date occurring in October 2020 and the 2015 Ten-Year Notes will be repaid on or prior to the anticipated repayment date occurring in October 2025. If the Company has not repaid or refinanced the 2015 Fixed Rate Notes prior to the applicable anticipated repayment date, additional interest will accrue of at least 5% per annum, as defined in the related agreements.

2015 Variable Funding Notes

The 2015 Variable Funding Notes allow for advances of up to \$125.0 million and issuance of letters of credit. Interest on the 2015 Variable Funding Notes will be payable at a per year rate equal to LIBOR plus 219 basis points. The 2015 Variable Funding Notes were undrawn at closing. The unused portion of the 2015 Variable Funding Notes is subject to a commitment fee ranging from 50 to 100 basis points depending on utilization. It is anticipated that any amounts outstanding on the 2015 Variable Funding Notes will be repaid in full on or prior to October 2020, subject to two additional one-year extensions at the option of the Company, subject to certain conditions. Following the anticipated repayment date (and any extensions thereof), additional interest will accrue on the 2015 Variable Funding Notes equal to 5% per annum. At January 1, 2017, there were \$44.3 million of letters of credit and \$80.7 million of borrowing capacity under the \$125.0 million 2015 Variable Funding Notes.

2012 Fixed Rate Notes

The 2012 Fixed Rate Notes have remaining scheduled principal payments of \$25.6 million in each of 2017 and 2018, and \$865.4 million in 2019. During fiscal 2016, the Company made principal payments of approximately \$46.1 million on the 2012 Fixed Rate Notes. The expected repayment date for the 2012 Fixed Rate Notes is January 2019, with legal final maturity in January 2042.

2012 Variable Funding Notes

In connection with the 2015 Recapitalization, the 2012 Variable Funding Notes were cancelled. The 2012 Variable Funding Notes allowed for the issuance of up to \$100.0 million of financing and certain other credit instruments, including letters of credit in support of various obligations of the Company.

Guarantees and Covenants of the Notes

The Notes are guaranteed by six subsidiaries of DPLLC and secured by a security interest in substantially all of the assets of the Company, including royalty and certain other income from all domestic and international stores, domestic supply chain income and intellectual property. The restrictions placed on the Company's subsidiaries require that the Company's principal and interest obligations have first priority and amounts are segregated weekly to ensure appropriate funds are reserved to pay the quarterly interest amounts due. The amount of weekly cash flow that exceeds the required weekly interest reserve is generally remitted to the Company in the form of a dividend. However, once the required obligations are satisfied, there are no further restrictions, including payment of dividends, on the cash flows of the subsidiaries.

The Fixed Rate Notes are subject to certain financial and non-financial covenants, including a debt service coverage ratio calculation, as defined in the related agreements. The covenants, among other things, may limit the ability of certain of our subsidiaries to declare dividends, make loans or advances or enter into transactions with affiliates. In the event that certain covenants are not met, the Fixed Rate Notes may become partially or fully due and payable on an accelerated schedule. In addition, the Company may voluntarily prepay, in part or in full, the Fixed Rate Notes at any time, subject to certain make-whole interest obligations. All make-whole interest obligations on the 2015 Five-Year Notes cease after April 2018. The 2015 Ten-Year Notes are callable at 101% in 2018, subject to certain conditions as defined in the related debt agreements, and all make-whole interest obligations on the 2015 Ten-Year Notes cease after October 2022. All make-whole interest obligations on the 2012 Fixed Rate Notes cease after July 2017.

While the Fixed Rate Notes are outstanding, scheduled payments of principal and interest are required to be made on a quarterly basis. The payment of principal of the Fixed Rate Notes (i) shall be suspended if the leverage ratios for the Company are less than or equal to 4.5x total debt to EBITDA and there are no scheduled principal catch-up amounts outstanding; provided, that during any such suspension, principal payments will continue to accrue and are subject to catch-up upon failure to satisfy the aforementioned leverage ratios on an ongoing basis, or (ii) on and after the payment in full of the 2012 Fixed Rate Notes, may be suspended if certain leverage ratios for the Company are less than or equal to 5.0x total debt to EBITDA and no catch-up provisions are applicable. During the second quarter of 2014, the Company met the maximum leverage ratios of less than 4.5x, and, in accordance with the debt agreements, ceased debt amortization payments in the third quarter of 2014. The Company continued to meet the maximum leverage ratios of less than 4.5x in each of the quarters prior to the 2015 Recapitalization and accordingly, did not make previously scheduled debt amortization payments in accordance with the debt agreements. Subsequent to the 2015 Recapitalization, the Company's leverage ratios exceeded 4.5x and, accordingly, the Company began making the scheduled amortization payments as well as the required catch-up payments.

Fair Value Disclosures

Management estimated the approximate fair values of the 2012 Fixed Rate Notes and the 2015 Fixed Rate Notes as follows (in thousands):

	January 1, 2017		January 3, 2016	
	Principal Amount	Fair Value	Principal Amount	Fair Value
2012 Fixed Rate Notes	\$ 916,650	\$932,233	\$ 962,719	\$991,601
2015 Five-Year Notes	495,000	485,595	500,000	489,500
2015 Ten-Year Notes	792,000	765,864	800,000	781,600

The Fixed Rate Notes are classified as a Level 2 measurement (Note 3), as the Company estimated the fair value amount by using available market information. The Company obtained broker quotes from two separate brokerage firms that are knowledgeable about the Company's Fixed Rate Notes and, at times, trade these notes. Further, the Company performs its own internal analysis based on the information it gathers from public markets, including information on notes that are similar to that of the Company. However, considerable judgment is required in interpreting market data to develop estimates of fair value.

The use of different assumptions and/or estimation methodologies may have a material effect on the estimated fair values calculated above.

Debt Issuance Costs and Transaction-Related Expenses

In connection with the 2012 Recapitalization, the Company recorded \$39.9 million of debt issuance costs. In connection with the 2015 Recapitalization, the Company wrote-off approximately \$6.9 million of these costs in connection with the extinguishment of \$551.3 million of the 2012 Fixed Rate Notes. The remaining debt issuance costs related to the 2012 Recapitalization are being amortized into interest expense over the seven-year expected term of the 2012 Fixed Rate Notes. Additionally, in connection with the 2015 Recapitalization, the Company recorded \$17.4 million of debt issuance costs, which are being amortized into interest expense over the five and ten-year expected terms of the 2015 Fixed Rate Notes.

During fiscal 2015 and in connection with the 2015 Recapitalization, the Company incurred approximately \$8.1 million of net expenses. This consisted primarily of the aforementioned \$6.9 million net write-off of deferred financing fees. The Company also incurred approximately \$0.4 million of interest expense on the 2012 Fixed Rate Notes subsequent to the closing of the 2015 Recapitalization but prior to the repayment of the 2012 Fixed Rate Notes, resulting in the payment of interest on both the full amount of the 2012 and 2015 Fixed Rate Notes for a short period of time. Further, the Company incurred \$0.9 million of other net 2015 Recapitalization-related general and administrative expenses, including legal and professional fees.

Legal Proceedings and Related Matters

The Company is a party to lawsuits, revenue agent reviews by taxing authorities and legal proceedings, of which the majority involve workers' compensation, employment practices liability, general liability and automobile and franchisee claims arising in the ordinary course of business. The Company records legal fees associated with loss contingencies when they are probable and reasonably estimable.

Litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Included in the ordinary course litigation matters referenced above, the Company is party to three employment practice cases and two casualty cases. The Company has established legal and insurance accruals for losses relating to these cases which management believes are reasonable based upon their assessment of the current facts and circumstances. However, it is reasonably possible that the ultimate losses could exceed the amounts recorded by \$6.9 million. The remaining cases referenced above could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts or a range of amounts that cannot be estimated with accuracy. In management's opinion, these matters, individually and in the aggregate, should not have a significant adverse effect on the financial condition of the Company, and the established accruals adequately provide for the estimated resolution of such claims.

On February 14, 2011, Domino's Pizza LLC was named as a defendant in a lawsuit along with Fischler Enterprises of C.F., Inc., a franchisee, and Jeffrey S. Kidd, the franchisee's delivery driver, filed by Yvonne Wiederhold, the plaintiff, as Personal Representative of the Estate of Richard E. Wiederhold, deceased. The case involved a traffic accident in which the franchisee's delivery driver is alleged to have caused an accident involving a vehicle driven by Richard Wiederhold. Mr. Wiederhold sustained spinal injuries resulting in quadriplegia and passed away several months after the accident. The jury returned a \$10.1 million judgment for the plaintiff where the Company and Mr. Kidd were found to be 90% liable (after certain offsets and other deductions the final verdict was \$8.9 million). In the second quarter of 2016, the trial court ruled on all post-judgment motions and entered the judgment. The Company denies liability and in the third quarter of 2016 filed an appeal of the verdict on a variety of grounds.

On September 11, 2012, Domino's Pizza LLC was named as a defendant in a lawsuit along with MAC Pizza Management, Inc., a large franchisee, and Joshua Balka, the franchisee's delivery driver, filed by Raghurami Reddy, the plaintiff. The case involved a traffic accident in which the franchisee's delivery driver collided with another vehicle, where the driver of the other vehicle sustained head injuries and the passenger of the other vehicle sustained fatal injuries. The jury delivered a \$32.0 million judgment for the plaintiff where the Company was found to be 60% liable. The Company denied liability and filed an appeal of the verdict on a variety of grounds. In the first quarter of 2015, the appellate court reversed the trial court's decision and dismissed the claims against the Company. The plaintiff filed a Petition for Review with the Supreme Court of the State of Texas. The Company filed opposition to the writ of review and asserted that the claims were appropriately dismissed by the Court of Appeals of the State of Texas. In the second quarter of 2016, the Texas Supreme Court rejected the plaintiffs' writ of certiorari, leaving the appellate court's favorable decision to stand. During the fourth quarter of 2016, the Plaintiff filed a petition for writ of certiorari with the United States Supreme Court. In the fourth quarter of 2016, the United States Supreme Court denied the writ of certiorari. Plaintiff has exhausted all appellate rights and the Texas Court of Appeals order dismissing all claims against Domino's Pizza LLC stands.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Realization of the Company's deferred tax assets is dependent upon many factors, including, but not limited to, the Company's ability to generate sufficient taxable income. Although realization of the Company's net deferred tax assets is not assured, management believes it is more likely than not that the net deferred tax assets will be realized. On an ongoing basis, management will assess whether it remains more likely than not that the net deferred tax assets will be realized.

For financial reporting purposes, the Company's investment in foreign subsidiaries does not exceed its tax basis. Therefore no deferred income taxes have been provided.

The Company recognizes the financial statement benefit of a tax position if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. For tax positions meeting the "more likely than not" threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company recognizes accrued interest related to unrecognized tax benefits in interest expense and penalties in income tax expense.

During 2014 and in connection with the sale of 14 Company-owned stores to franchisees, the Company recognized a capital gain and also released \$0.3 million of a deferred tax valuation allowance.

During 2014, the Company accrued interest expense of \$0.1 million. At December 28, 2014, the amount of unrecognized tax benefits was \$2.9 million of which, if ultimately recognized, \$1.7 million would be recognized as an income tax benefit and reduce the Company's effective tax rate. At December 28, 2014, the Company had \$0.7 million of accrued interest and no accrued penalties. This amount is excluded from the \$2.9 million total unrecognized tax benefit.

During 2015 and in connection with the sale of four Company-owned stores to franchisees, the Company recognized a capital gain and also released \$0.3 million of a deferred tax valuation allowance.

During 2015, the Company reversed an interest expense accrual of \$0.6 million. At January 3, 2016, the amount of unrecognized tax benefits was \$2.1 million of which, if ultimately recognized, \$1.7 million would be recognized as an income tax benefit and reduce the Company's effective tax rate. At January 3, 2016, the Company had less than \$0.1 million of accrued interest and no accrued penalties.

At January 1, 2017, the amount of unrecognized tax benefits was \$2.0 million of which, if ultimately recognized, \$1.6 million would be recognized as an income tax benefit and reduce the Company's effective tax rate. At January 1, 2017, the Company had less than \$0.1 million of accrued interest and no accrued penalties.

The Company continues to be under examination by certain states. The Company's Federal statute of limitation has expired for years prior to 2013 and the relevant state and foreign statutes vary. The Company expects the current ongoing examinations to be concluded in the next twelve months and does not expect the assessment of any significant additional amounts in excess of amounts reserved.

(7) EMPLOYEE BENEFITS

The Company has a retirement savings plan which qualifies under Internal Revenue Code Section 401(k). All employees of the Company who have completed 1,000 hours of service and are at least 21 years of age are eligible to participate in the plan. The plan requires the Company to match 100% of the first 3% of each employee's elective deferrals and 50% of the next 2% of each employee's elective deferrals. During 2016, 2015 and 2014, the Company's matching contributions were made in the form of cash and vested immediately. The expenses incurred for Company contributions to the plan were approximately \$5.2 million, \$4.6 million and \$4.1 million in 2016, 2015 and 2014, respectively.

The Company has established a non-qualified deferred compensation plan available for certain key employees. Under this self-funding plan, the participants may defer up to 40% of their annual compensation. The participants direct the investment of their deferred compensation within several investment funds. The Company is not required to contribute and did not contribute to this plan during 2016, 2015 or 2014.

The Company has an employee stock purchase discount plan (the "ESPDP"). Under the ESPDP, eligible employees may deduct up to 15% of their eligible wages to purchase common stock at 85% of the market price of the stock at the purchase date. The ESPDP requires employees to hold their purchased common stock for at least one year. The Company purchases common stock on the open market for the ESPDP at the current market price. There were 23,317 shares, 23,994 shares and 25,224 shares of common stock in 2016, 2015 and 2014, respectively, purchased on the open market for participating employees at a weighted-average price of \$131.74 in 2016, \$105.16 in 2015 and \$74.89 in 2014. The expenses incurred under the ESPDP were approximately \$0.5 million, \$0.4 million and \$0.3 million in 2016, 2015 and 2014, respectively.

(8) FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Company is a party to stand-by letters of credit. The Company's exposure to credit loss for stand-by letters of credit is represented by the contractual amounts of these instruments. The Company uses the same credit policies in making conditional obligations as it does for on-balance sheet instruments. Total conditional commitments under letters of credit as of January 1, 2017 are \$44.3 million and relate to the Company's insurance programs and supply chain center leases. The Company has also guaranteed lease payments related to certain franchisees' lease arrangements. The maximum amount of potential future payments under these guarantees is \$1.0 million as of January 1, 2017.

(9) EQUITY INCENTIVE PLANS

The cost of all employee stock options, as well as other equity-based compensation arrangements, is reflected in the consolidated statements of income based on the estimated fair value of the awards.

The Company's current equity incentive plan benefits certain of the Company's employees and directors and is named the Domino's Pizza, Inc. 2004 Equity Incentive Plan (the "2004 Equity Incentive Plan"). As of January 1, 2017, the maximum number of shares that may be granted under the 2004 Equity Incentive Plan is 15,600,000 shares of voting common stock of which 2,949,836 shares were authorized for grant but have not been granted.

The Company recorded total non-cash compensation expense of \$18.6 million, \$17.6 million and \$17.6 million in 2016, 2015 and 2014, respectively. All non-cash compensation expense amounts are recorded in general and administrative expense.

Stock Options

As of January 1, 2017, the number of stock options granted and outstanding under the 2004 Equity Incentive Plan was 2,498,310 options. Stock options granted under the 2004 Equity Incentive Plan and a predecessor plan prior to fiscal 2009 were generally granted with an exercise price equal to the market price at the date of the grant, expired ten years from the date of grant and vested over five years from the date of grant. Stock options granted from fiscal 2009 through fiscal 2012 were granted with an exercise price equal to the market price at the date of the grant, expire ten years from the date of grant and generally vest over three years from the date of grant. Stock options granted in fiscal 2013 through fiscal 2016 were granted with an exercise price equal to the market price at the date of the grant, expire ten years from the date of grant and generally vest over four years from the date of grant. Additionally, all stock options granted become fully exercisable upon vesting. These awards also contain provisions for accelerated vesting upon the retirement of holders that have achieved specific service and age requirements.

The total intrinsic value of stock options exercised was approximately \$128.0 million, \$41.7 million and \$68.1 million in 2016, 2015 and 2014, respectively. Cash received from the exercise of stock options was approximately \$15.2 million, \$4.8 million and \$9.0 million in 2016, 2015 and 2014, respectively. The tax benefit realized from stock options exercised was approximately \$46.1 million, \$14.7 million and \$23.6 million in 2016, 2015 and 2014, respectively.

The Company recorded total non-cash compensation expense of \$4.9 million, \$3.9 million and \$4.4 million in 2016, 2015 and 2014, respectively, related to stock option awards. All non-cash compensation expense amounts are recorded in general and administrative expense. As of January 1, 2017, there was \$9.4 million of total unrecognized compensation cost related to unvested stock options granted under the 2004 Equity Incentive Plan which generally will be recognized on a straight-line basis over the related vesting period. This unrecognized compensation cost is expected to be recognized over a weighted average period of 2.5 years.

Management estimated the fair value of each option grant made during 2016, 2015 and 2014 as of the date of the grant using the Black-Scholes option pricing method. Weighted average assumptions are presented in the following table. The risk-free interest rate is based on the estimated effective life, and is estimated based on U.S. Treasury Bond rates as of the grant date. The expected life is based on several factors, including, among other things, the vesting term and contractual term as well as historical experience. The expected volatility is based principally on the historical volatility of the Company's share price.

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Risk-free interest rate	1.3%	1.7%	1.8%
Expected life (years)	5.5	5.5	5.5
Expected volatility	26.0%	28.4%	33.7%
Expected dividend yield	1.2%	1.1%	1.4%
Weighted average fair value per stock option	\$29.59	\$28.45	\$21.16

Option valuation models require the input of highly subjective assumptions. In management's opinion, existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options, as changes in subjective input assumptions can significantly affect the fair value estimate.

Other Equity-Based Compensation Arrangements

The Company granted 6,920 shares, 8,350 shares and 10,640 shares of restricted stock in 2016, 2015 and 2014, respectively, to members of its Board of Directors. These grants generally vest one-year from the date of the grant and have a fair value equal to the market price of the Company's stock on the grant date. These awards also contain provisions for accelerated vesting upon the retirement of holders that have achieved specific service and age requirements. The Company recorded total non-cash compensation expense of \$0.9 million, \$0.9 million and \$0.8 million in 2016, 2015 and 2014, respectively, related to these restricted stock awards. All non-cash compensation expense amounts are recorded in general and administrative expense. As of January 1, 2017, there was less than \$0.1 million of total unrecognized compensation cost related to these restricted stock grants.

The Company granted 90,730 shares, 88,250 shares and 119,670 shares of performance-based restricted stock in 2016, 2015 and 2014, respectively, to certain employees of the Company. These performance-based restricted stock awards are separated into four tranches and have time-based and performance-based vesting conditions with the last tranche vesting four years from the issuance date. These awards also contain provisions for accelerated vesting upon the retirement of holders that have achieved specific service and age requirements. These awards are considered granted for accounting purposes when the performance target is set, which is generally in the fourth quarter of each year. The Company recorded total non-cash compensation expense of \$12.8 million, \$12.8 million and \$12.4 million in 2016, 2015 and 2014, respectively, related to these awards. All non-cash compensation expense amounts are recorded in general and administrative expense. As of January 1, 2017, there was an estimated \$25.7 million of total unrecognized compensation cost related to performance-based restricted stock.

Restricted stock and performance-based restricted stock activity related to the 2004 Equity Incentive Plan is summarized as follows:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 3, 2016	316,332	\$ 75.74
Shares granted (1)	97,650	131.75
Shares cancelled	(13,970)	88.34
Shares vested	(123,792)	70.39
Nonvested at January 1, 2017	<u>276,220</u>	<u>\$ 97.48</u>

- (1) The weighted average grant date fair value for performance-based restricted shares granted was calculated based on the market price on the grant dates. Certain tranches will ultimately be valued when the performance condition is established for each tranche, which generally occurs in the fourth quarter of each fiscal year.

(10) CAPITAL STRUCTURE

The Company has a Board of Directors-approved open market share repurchase program of the Company's common stock, which was reset during the second quarter of 2016 at \$250.0 million. The open market share repurchase program has historically been funded by excess cash flow.

As part of the 2015 Recapitalization, on October 23, 2015, the Company's Board of Directors authorized a share repurchase program to repurchase up to \$800.0 million of the Company's common stock. The \$800.0 million repurchase program replaced the previously authorized \$200.0 million repurchase program. On October 27, 2015, the Company entered into a \$600.0 million ASR Agreement with a counterparty. Pursuant to the terms of the ASR Agreement, on October 30, 2015, as part of its \$800.0 million share repurchase authorization, the Company used a portion of the proceeds from the 2015 Recapitalization to pay the counterparty \$600.0 million in cash and received 4,858,994 shares of the Company's common stock. During the first quarter of 2016, the Company received and retired 456,936 shares of its common stock in connection with the final settlement of its \$600.0 million accelerated share repurchase program ("Final ASR Settlement").

During 2016, 2015 and 2014 the Company repurchased 2,816,716 shares (including the 456,936 shares of its common stock received in the first quarter of 2016 in connection with the Final ASR Settlement), 6,152,918 shares and 1,151,931 shares of common stock for approximately \$300.3 million, \$738.6 million and \$82.4 million, respectively. At January 1, 2017, the Company had \$149.1 million remaining under the \$250.0 million authorization. The Company's policy is to recognize the difference between the purchase price and par value of the common stock in additional paid-in capital. In instances where there is no additional paid-in capital, the difference is recognized in retained deficit.

As of January 1, 2017, authorized common stock consists of 160,000,000 voting shares and 10,000,000 non-voting shares. The share components of outstanding common stock at January 1, 2017 and January 3, 2016 are as follows:

	2016	2015
Voting	48,083,721	49,820,467
Non-Voting	16,422	17,754
Total Common Stock	<u>48,100,143</u>	<u>49,838,221</u>

(11) SEGMENT INFORMATION

The Company has three reportable segments: (i) Domestic Stores; (ii) Supply Chain; and (iii) International Franchise.

The Company's operations are organized by management on the combined basis of line of business and geography. The Domestic Stores segment includes operations with respect to all franchised and Company-owned stores throughout the contiguous United States. The Supply Chain segment primarily includes the distribution of food, equipment and supplies to stores from the Company's supply chain center operations in the United States and Canada. The International Franchise segment primarily includes operations related to the Company's franchising business in foreign and non-contiguous United States markets.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its segments and allocates resources to them based on earnings before interest, taxes, depreciation, amortization and other, referred to as Segment Income.

The tables below summarize the financial information concerning the Company's reportable segments for fiscal 2016, 2015 and 2014. Intersegment Revenues are comprised of sales of food, equipment and supplies from the Supply Chain segment to the Company-owned stores in the Domestic Stores segment. Intersegment sales prices are market based. The "Other" column as it relates to Segment Income and income from operations information below primarily includes corporate administrative costs. The "Other" column as it relates to capital expenditures primarily includes capitalized software, certain equipment and leasehold improvements. Tabular amounts presented below are in thousands.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures.

The Company carried out an evaluation as of the end of the period covered by this report, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in ensuring that all information required in the reports it files or submits under the Exchange Act was accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and was recorded, processed, summarized and reported within the time period required by the rules and regulations of the Securities and Exchange Commission.

(b) Changes in Internal Control over Financial Reporting.

There have been no changes in internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

(c) Management's Annual Report on Internal Control over Financial Reporting.

The management of Domino's Pizza, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) promulgated under the Exchange Act, as a process designed by, or under the supervision of, the Company's principal executive and principal financial officers and effected by the Company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of its internal control over financial reporting as of January 1, 2017 based on the framework in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, management concluded that its internal control over financial reporting was effective as of January 1, 2017. The effectiveness of the Company's internal control over financial reporting as of January 1, 2017, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

NOTES TO PARENT COMPANY FINANCIAL STATEMENTS

(1) INTRODUCTION AND BASIS OF PRESENTATION

Domino's Pizza, Inc., on a stand-alone basis, (the "Parent Company") has accounted for majority-owned subsidiaries using the equity method of accounting. The accompanying condensed financial statements of the Parent Company should be read in conjunction with the consolidated financial statements of Domino's Pizza, Inc. and its subsidiaries (the "Company") and the notes thereto included in Item 8 of this Form 10-K. These financial statements have been provided to comply with Rule 4-08(e) of Regulation S-X.

Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with original maturities of three months or less at the date of purchase. These investments are carried at cost, which approximates fair value.

Use of Estimates

The use of estimates is inherent in the preparation of financial statements in accordance with generally accepted accounting principles. Actual results could differ from those estimates.

(2) SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION

During 2016 and 2015, the Parent Company received dividends from its subsidiaries primarily consisting of amounts received to repurchase common stock in connection with the Company's 2015 recapitalization transaction. See Note 4 to the Company's consolidated financial statements as filed in this Form 10-K for a description of the recapitalization transaction that occurred in 2015.

Non-cash activities of \$67.1 million, \$34.1 million and \$42.3 million were recorded in 2016, 2015 and 2014, respectively, related to stock-based compensation plans and amounts recorded in other comprehensive income related to the Company's subsidiaries.

**FIFTH AMENDMENT TO A LEASE AGREEMENT
BETWEEN DOMINO'S FARMS OFFICE PARK LLC
(LANDLORD) AND DOMINO'S PIZZA LLC (TENANT)**

THIS FIFTH AMENDMENT TO A LEASE AGREEMENT is made February 1, 2015 by and between DOMINO'S FARMS OFFICE PARK LLC, a Michigan Limited Liability Company, f/k/a Domino's Farms Office Park Limited Partnership (Landlord) and DOMINO'S PIZZA LLC (Tenant).

WHEREAS, Landlord entered into a Lease Agreement (the Lease) for a portion of the office building known as Domino's Farms Prairie House located at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48106 with Domino's Pizza, Inc., whose successor in interest is Domino's Pizza LLC (Tenant), for a term of five (5) years commencing as of December 21, 1998; and

WHEREAS, Landlord and Tenant extended the term of the Lease Agreement, included additional space as a part of the Premises, and incorporated additional provisions via a FIRST AMENDMENT TO LEASE dated August 8, 2002; and

WHEREAS, Landlord and Tenant amended the Lease on May 5, 2004 by replacing Section B (Premises) of the FIRST AMENDED STANDARD LEASE SUMMARY; and

WHEREAS, Landlord and Tenant amended the Lease on November 18, 2009 to clarify actual size of the warehouse and to add an additional 4,790 usable square feet of space, and

WHEREAS, Landlord and Tenant amended the Lease in April, 2010 for the temporary lease of additional space, and

WHEREAS, Landlord and Tenant amended the Lease on August 28, 2012 to expand the primary Premises and extend the Term of the Lease, and

WHEREAS, Landlord and Tenant desire to further modify the Premises to which said Lease shall apply;

NOW, THEREFORE, Landlord and Tenant agree to the following:

On a temporary basis, Tenant shall lease an additional 2,321 usable square feet of space (2,669 rentable square feet). Said suite is located on Level 1 of the building at Lobby J, as illustrated on the attached proposed floor plan. Tenant agrees to accept the suite in as-is configuration and condition. The rent rate for said additional suite shall be \$4,670.75 per month, and the lease term shall begin on January 9, 2015, with a proration for the month of January. Tenant shall have an option to extend the temporary lease on the same terms and conditions on a month to month basis, through December 31, 2015.

All other terms and conditions of the Lease shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have hereunto executed this FIFTH AMENDMENT TO LEASE AGREEMENT as of the day and year first above written.

**SIXTH AMENDMENT TO A LEASE AGREEMENT
BETWEEN DOMINO'S FARMS OFFICE PARK LLC
(LANDLORD) AND DOMINO'S PIZZA LLC (TENANT)**

THIS SIXTH AMENDMENT TO A LEASE AGREEMENT is made February 1, 2015 by and between DOMINO'S FARMS OFFICE PARK LLC, a Michigan Limited Liability Company, f/k/a Domino's Farms Office Park Limited Partnership (Landlord) and DOMINO'S PIZZA LLC (Tenant).

WHEREAS, Landlord entered into a Lease Agreement (the Lease) for a portion of the office building known as Domino's Farms Prairie House located at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48106 with Domino's Pizza, Inc., whose successor in interest is Domino's Pizza LLC (Tenant), for a term of five (5) years commencing as of December 21, 1998; and

WHEREAS, Landlord and Tenant extended the term of the Lease Agreement, included additional space as a part of the Premises, and incorporated additional provisions via a FIRST AMENDMENT TO LEASE dated August 8, 2002; and

WHEREAS, Landlord and Tenant amended the Lease on May 5, 2004 by replacing Section B (Premises) of the FIRST AMENDED STANDARD LEASE SUMMARY; and

WHEREAS, Landlord and Tenant amended the Lease on November 18, 2009 to clarify actual size of the warehouse and to add an additional 4,790 usable square feet of space, and

WHEREAS, Landlord and Tenant amended the Lease in April, 2010 for the temporary lease of additional space, and

WHEREAS, Landlord and Tenant amended the Lease on August 28, 2012 to expand the primary Premises and extend the Term of the Lease, and

WHEREAS, Landlord and Tenant amended the Lease in February, 2015 for the temporary lease of additional space, and

WHEREAS, Tenant desires to expand the Premises to which said Lease shall apply;

NOW, THEREFORE, Landlord and Tenant agree to the following:

Tenant shall expand into a suite located at Lobby H, Level 3 that is contiguous to the primary Premises. See attached floor plan for existing conditions. Tenant has requested that modifications will be performed in the space. See attached floor plan for new work to be performed. Tenant shall be responsible for the cost of the changes, and a preliminary budget for the work is attached. Construction will be managed by the Landlord, and there will be no additional fee for the management services. Landlord will invoice Tenant for the work upon project close-out. Payment shall be due within 30 days of issuance of invoice for construction.

Commencement date for the additional space will be upon completion of the construction and receipt of a Certificate of Occupancy from the Ann Arbor Township Building Inspector.

The Office Space, Lab Space and Conference Center square footage will now total 223,103 rentable square feet, based upon 194,002 usable square feet with a 15% common area factor.

The rent for this additional suite shall be at the same rate and subject to the same annual increases as the primary Premises.

The term for this additional suite shall be co-terminus with the Primary Premises.

All other terms and conditions of the Lease shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have hereunto executed this SIXTH AMENDMENT TO LEASE AGREEMENT as of the day and year first above written.

**SEVENTH AMENDMENT TO A LEASE AGREEMENT
BETWEEN DOMINO'S FARMS OFFICE PARK LLC
(LANDLORD) AND DOMINO'S PIZZA LLC (TENANT)**

THIS SEVENTH AMENDMENT TO A LEASE AGREEMENT is made April 19, 2016 by and between DOMINO'S FARMS OFFICE PARK LLC, a Michigan Limited Liability Company, f/k/a Domino's Farms Office Park Limited Partnership (Landlord) and DOMINO'S PIZZA LLC (Tenant).

WHEREAS, Landlord entered into a Lease Agreement (the Lease) for a portion of the office building known as Domino's Farms Prairie House located at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48106 with Domino's Pizza, Inc., whose successor in interest is Domino's Pizza LLC (Tenant), for a term of five (5) years commencing as of December 21, 1998; and

WHEREAS, Landlord and Tenant extended the term of the Lease Agreement, included additional space as a part of the Premises, and incorporated additional provisions via a FIRST AMENDMENT TO LEASE dated August 8, 2002; and

WHEREAS, Landlord and Tenant amended the Lease on May 5, 2004 by replacing Section B (Premises) of the FIRST AMENDED STANDARD LEASE SUMMARY; and

WHEREAS, Landlord and Tenant amended the Lease on November 18, 2009 to clarify actual size of the warehouse and to add an additional 4,790 usable square feet of space, and

WHEREAS, Landlord and Tenant amended the Lease in April, 2010 for the temporary lease of additional space, and

WHEREAS, Landlord and Tenant amended the Lease on August 28, 2012 to expand the primary Premises and extend the Term of the Lease, and

WHEREAS, Landlord and Tenant amended the Lease in February, 2015 for the temporary lease of additional space, and

WHEREAS, via the Sixth Amendment to Lease, Landlord and Tenant amended the Lease in February 2015 to expand the primary Premises, and

WHEREAS, Tenant desires to expand the Premises to which said Lease shall apply;

NOW, THEREFORE, Landlord and Tenant agree to the following:

Tenant shall expand into a suite located at Lobby H, Level 3 known as Suite H-3300. Said suite is 5,607 usable square feet, which equates to 6,448 rentable square feet. See attached floor plan. Tenant will accept the suite is "as-is" configuration and condition. Tenant shall be responsible for the cost of any modifications to the suite.

The Office Space, Lab Space and Conference Center square footage will now total 229,551 rentable square feet, based upon 199,609 usable square feet with a 15% common area factor.

Tenant shall have access to the suite effective April 19, 2016. However, the commencement date for the rent for the additional space will be May 1, 2016.

The rent for this additional suite shall be at the same rate and subject to the same annual increases as the primary Premises.

Tenant shall have an option to terminate the rental of Suite H-3300 on or before December 31, 2018. To exercise said option, Tenant shall notify the Landlord in writing six (6) months prior to the desired ending date for the lease of this specific suite.

In the event Tenant does not elect to terminate early, then the term for this additional suite shall be co-terminus with the Primary Premises.

All other terms and conditions of the Lease shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have hereunto executed this SEVENTH AMENDMENT TO LEASE AGREEMENT as of the day and year first above written.

**EIGHTH AMENDMENT TO A LEASE AGREEMENT
BETWEEN DOMINO'S FARMS OFFICE PARK LLC
(LANDLORD) AND DOMINO'S PIZZA LLC (TENANT)**

THIS EIGHTH AMENDMENT TO A LEASE AGREEMENT is made November 4, 2016 by and between DOMINO'S FARMS OFFICE PARK LLC, a Michigan Limited Liability Company, f/k/a Domino's Farms Office Park Limited Partnership (Landlord) and DOMINO'S PIZZA LLC (Tenant).

WHEREAS, Landlord entered into a Lease Agreement (the Lease) for a portion of the office building known as Domino's Farms Prairie House located at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48106 with Domino's Pizza, Inc., whose successor in interest is Domino's Pizza LLC (Tenant), for a term of five (5) years commencing as of December 21, 1998; and

WHEREAS, Landlord and Tenant extended the term of the Lease Agreement, included additional space as a part of the Premises, and incorporated additional provisions via a FIRST AMENDMENT TO LEASE dated August 8, 2002; and

WHEREAS, Landlord and Tenant amended the Lease on May 5, 2004 by replacing Section B (Premises) of the FIRST AMENDED STANDARD LEASE SUMMARY; and

WHEREAS, Landlord and Tenant amended the Lease on November 18, 2009 to clarify actual size of the warehouse and to add an additional 4,790 usable square feet of space, and

WHEREAS, Landlord and Tenant amended the Lease in April 2010 for the temporary lease of additional space, and

WHEREAS, Landlord and Tenant amended the Lease on August 28, 2012 to expand the primary Premises and extend the Term of the Lease, and

WHEREAS, Landlord and Tenant amended the Lease in February 2015 for the temporary lease of additional space, and

WHEREAS, via the Sixth Amendment to Lease, Landlord and Tenant amended the Lease in February 2015 to expand the primary Premises, and

WHEREAS, via a Seventh Amendment to Lease dated April 2016, Tenant absorbed an additional 6,448 rentable square feet (5,607 usable square feet) located at Lobby H on Level 3, and

WHEREAS, Tenant desires to further expand the Premises to which said Lease shall apply;

NOW, THEREFORE, Landlord and Tenant agree to the following:

Effective January 1, 2017, Tenant shall expand to the south of the Premises on the third level into the spaces formerly known as Business Leaders for Michigan (537 usable square feet), DCMA (3,288 usable square feet) and the common corridor connecting said suites (613 usable square feet). Said expansion will be a total of 4,438 usable square feet, equal to 5,104 rentable square feet. (See Rider A.)

Effective July 1, 2017, Tenant shall expand again to the south of the Premises on the third level into the space formerly known as William Davidson Institute (WDI). Said expansion will be 9,214 usable square feet, equal to 10,596 rentable square feet. (See Rider B.)

Tenant will accept the suites in "as-is" configuration and condition. Tenant shall be responsible for the cost of any modifications to the suites.

The Office Space, Lab Space and Conference Center square footage will now total 245,250 rentable square feet, based upon 213,261 usable square feet with a 15% common area factor.

Tenant shall have a First Right of Refusal for an expansion into an additional suite contiguous to the WDI suite. (See Rider C.) Said suite is 8,188 rentable square feet. Landlord will notify Tenant at such time that a viable tenant has been identified for said suite, and Tenant shall have five (5) business days to commit to or release the suite.

The rent for the additional suites shall be at the same rate and subject to the same annual increases as the Primary Premises. The term for these additional suites shall be co-terminus with the Primary Premises.

OPTION TO RENEW: Upon expiration of the Initial Term, provided that Tenant is not then in default beyond the expiration of any applicable grace and cure period after notice, Tenant may extend the term of the Lease for an additional term of five (5) years (the "First Extended Term") and Tenant may extend the term of this Lease for an additional term consisting of five (5) years (the "Second Extended Term"), upon the expiration of the First Extended Term, provided that Tenant has exercised its option for the First Extended Term and is not then in default beyond the expiration of any applicable grace and cure period after notice. The Tenant shall exercise the option(s) by notifying the Landlord in writing at least three hundred sixty (360) days before the then existing Term expires. The base annual rental for the First Extended Term shall increase each year to reflect the cost of living increase in accordance with any increase in the Consumer Price Index of the Bureau of Labor Statistics all items indexed for Detroit, Michigan or by two percent (2.0%), whichever is less, provided however, in no event shall the base rent as adjusted be reduced from the previous year. The base annual rent for the Second Extended Term shall increase each year to reflect the cost of living increase in accordance with any increase in the Consumer Price Index of the Bureau of Labor Statistics all items indexed for Detroit, Michigan or by three percent (3.0%), whichever is less, provided however, in no event shall the base rent as adjusted be reduced from the previous year.

All other terms and conditions of the Lease shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have hereunto executed this EIGHTH AMENDMENT TO LEASE AGREEMENT as of the day and year first above written.

EMPLOYMENT AGREEMENT

This Employment Agreement is made as of November 20, 2015, by Domino's Pizza LLC, a Michigan limited liability company (the "Company") and Judith L. Werthaus (the "Executive").

RECITALS

1. The Executive has experience and expertise required by the Company and its Affiliates.
2. Subject to the terms and conditions hereinafter set forth, the Company therefore wishes to employ the Executive as its Executive Vice President, Chief People Officer and the Executive wishes to accept such employment.

AGREEMENT

NOW, THEREFORE, for valid consideration received, the parties agree as follows:

1. **Employment.** Subject to the terms and conditions set forth in this Agreement, the Company offers and the Executive accepts employment hereunder effective as of the date first set forth above (the "Effective Date").
2. **Term.** This Agreement shall commence on December 7, 2015 and shall remain in effect for an indefinite time until terminated by either party as set forth in Section 5 hereof.
3. **Capacity and Performance.**
 - 3.1 **Offices.** During the Term, the Executive shall serve the Company as Executive Vice President, Chief People Officer. The Executive shall have such other powers, duties and responsibilities consistent with the Executive's position as Executive Vice President, Chief People Officer as may from time to time be prescribed by the Chief Executive Officer of the Company ("CEO").
 - 3.2 **Performance.** During the Term, the Executive shall be employed by the Company on a full-time basis and shall perform and discharge, faithfully, diligently and to the best of his/her ability, his/her duties and responsibilities hereunder. During the Term, the Executive shall devote his/her full business time exclusively to the advancement of the business and interests of the Company and its Affiliates and to the discharge of his/her duties and responsibilities hereunder. The Executive shall not engage in any other business activity or serve in any industry, trade, professional, governmental, political, charitable or academic position during the Term of this Agreement, except for such directorships or other positions which he/she currently holds and has disclosed to the CEO in Exhibit 3.2 hereof and except as otherwise may be approved in advance by the CEO.

4. Compensation and Benefits. During the Term, as compensation for all services performed by the Executive under this Agreement and subject to performance of the Executive's duties and obligations to the Company and its Affiliates, pursuant to this Agreement or otherwise, the Executive shall receive the following:

4.1 Base Salary. The Company shall pay the Executive a base salary at the rate of Four Hundred Fifty Thousand Dollars (\$450,000.00) per year, payable in accordance with the payroll practices of the Company for its executives and subject to such increases as the Board of Directors of the Company or the Compensation Committee (the "Board") in its sole discretion may determine from time to time (the "Base Salary").

4.2 Bonus Compensation. During the term hereof, the Executive shall participate in the Company's Senior Executive Annual Incentive Plan, as it may be amended from time to time pursuant to the terms thereof (the "Plan," a current copy of which is attached hereto as Exhibit A) and shall be eligible for a bonus award thereunder (the "Bonus"). For purposes of the Plan, the Executive shall be eligible for a Bonus, and the Executive's specified percentage (the "Specified Percentage") for such Bonus shall initially be fifty percent (50%) of Base Salary and shall thereafter be established annually by the Board of Directors (the "Board") or, if the Board delegates the Specified Percentage determination process to a Committee of the Board, by such Committee. In the event the Board or Committee does not approve the Executive's Specified Percentage within 90 days of the beginning of a fiscal year, such Specified Percentage shall be the same as the immediately preceding year. Whenever any Bonus payable to the Executive is stated in this Agreement to be prorated for any period of service less than a full year, such Bonus shall be prorated by multiplying (x) the amount of the Bonus otherwise earned and payable for the applicable fiscal year in accordance with this Sub-Section 4.2 by (y) a fraction, the denominator of which shall be 365 and the numerator of which shall be the number of days during the applicable fiscal year for which the Executive was employed by the Company. Executive agrees and understands that any prorated Bonus payments will be made only after determination of the achievement of the applicable Performance Measures (as defined in the Plan) in accordance with the terms of the Plan. Any compensation paid to the Executive as Bonus shall be in addition to the Base Salary.

4.3 Paid Time Off (PTO). During the Term, the Executive shall be entitled to four weeks of vacation per calendar year, to be taken at such times and intervals as shall be determined by the Executive, subject to the reasonable business needs of the Company. The Executive may not accumulate or carry over from one calendar year to another any unused, accrued vacation time. The Executive shall not be entitled to compensation for vacation time not taken. In addition, the Executive shall be entitled to five days of emergency/medical PTO per calendar year.

4.4 Other Benefits. During the Term and subject to any contribution therefor required of executives of the Company generally, the Executive shall be entitled to participate in all employee benefit plans, including without limitation any 401(k) plan, from time to time adopted by the Board and in effect for executives of the Company generally (except to the extent such plans are in a category of benefit otherwise provided the Executive hereunder). Such participation shall be subject to (i) the terms of the applicable plan documents and (ii) generally applicable policies of the Company. The Company may alter, modify, add to or delete any aspects of its employee benefit plans at any time as the Board, in its sole judgment, determines to be appropriate. Additionally, the Executive shall receive a standard relocation package at the beginning of the Executive's employment for relocation of Executive to the Ann Arbor, Michigan area, in accordance with the Company's policies in relation to its executive officers.

4.5 Business Expenses. The Company shall pay or reimburse the Executive for all reasonable business expenses, including without limitation the cost of first class air travel and dues for industry-related association memberships, incurred or paid by the Executive in the performance of his/her duties and responsibilities hereunder, subject to (i) any expense policy of the Company set by the Board from time to time, including without limitation any portion thereof intended to comply with Section 409A of the Internal Revenue Code of 1986, as amended, and the regulations and other guidance thereunder ("Section 409A") and (ii) such reasonable substantiation and documentation requirements as may be specified by the Board or CEO from time to time.

4.6 Airline Clubs. Upon receiving the prior written approval of the CEO authorizing the Executive to join a particular airline club, the Company shall pay or reimburse the Executive for dues for not less than two nor more than four airline clubs, provided such club memberships serve a direct business purpose and subject to such reasonable substantiation and documentation requirements as to cost and purpose as may be specified by the CEO from time to time.

4.7 Physicals. The Company shall annually pay for or reimburse the Executive for the cost of a physical examination and health evaluation performed by a licensed medical doctor, subject to such reasonable substantiation and documentation requirements as to cost as may be specified by the Board or CEO from time to time.

5. Termination of Employment and Severance Benefits. Notwithstanding the provisions of Section 2 hereof, the Executive's employment hereunder shall terminate prior to the expiration of the term of this Agreement under the circumstances described in this Section 5. All references herein to termination of employment, separation from service and similar or correlative terms, insofar as they are relevant to the payment of any benefit that could constitute nonqualified deferred compensation subject to Section 409A, shall be construed to require a "separation from service" within the meaning of Section 409A, and the Company

and the Executive shall take all steps necessary (including with regard to any post-termination services by the Executive) to ensure that any such termination constitutes a "separation from service" as so defined.

5.1 Retirement or Death. In the event of the Executive's retirement or death during the Term, the Executive's employment hereunder shall immediately and automatically terminate. In the event of the Executive's retirement after the age of 65 with the prior consent of the Board or death during the Term, the Company shall pay to the Executive (or in the case of death, the Executive's designated beneficiary or, if no beneficiary has been designated by the Executive, to Executive's estate) any Base Salary earned but unpaid through the date of such retirement or death, any Bonus for the fiscal year preceding the year in which such retirement or death occurs that was earned but has not yet been paid and, at the times the Company pays its executives bonuses in accordance with its general payroll policies, an amount equal to that portion of any Bonus earned but unpaid during the fiscal year of such retirement or death (prorated in accordance with Section 4.2).

5.2 Disability.

5.2.1 The Company may terminate the Executive's employment hereunder, upon notice to the Executive, in the event that the Executive becomes disabled during his/her employment hereunder through any illness, injury, accident or condition of either a physical or psychological nature and, as a result, is unable to perform substantially all of his/her duties and responsibilities hereunder for an aggregate of 120 days during any period of 365 consecutive calendar days ; provided, that if the Executive incurs a leave of absence due to any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than six (6) months, the Executive, unless he/she earlier returns to service (at a level of service inconsistent with a separation from service under Section 409A) or his/her employment is earlier terminated, shall in all events be deemed to have separated from service not later than by the end of the twenty-ninth (29th) month, commencing with the commencement of such leave of absence.

5.2.2 The Board may designate another employee to act in the Executive's place during any period of the Executive's disability. Notwithstanding any such designation, the Executive shall continue to receive the Base Salary in accordance with Section 4.1 and to receive benefits in accordance with Section 4.5, to the extent permitted by the then current terms of the applicable benefit plans, until the Executive becomes disabled within the meaning of Section 409A or until the termination of his/her employment, whichever shall first occur. Upon becoming so disabled, or upon such termination, whichever shall first occur, the Company shall promptly and in all events within thirty (30) days' pay to the Executive any Base Salary earned but unpaid through the date of such eligibility or termination and any

Bonus for the fiscal year preceding the year of such eligibility or termination that was earned but unpaid. At the times the Company pays its executives bonuses generally, but no later than two and one half (2 ½) months after the end of the fiscal year in which the bonus is earned, the Company shall pay the Executive an amount equal to that portion of any Bonus earned but unpaid during the fiscal year of such eligibility or termination (prorated in accordance with Section 4.2). During the eighteen (18) month period from the date of such disability (as determined under Section 409A), the Company shall pay the Executive, at its regular pay periods, an amount equal to the difference between the Base Salary and the amounts of any disability income benefits that the Executive receives in respect of such period.

5.2.3 Except as provided in Section 5.2.2, while receiving disability income payments under any disability income plan maintained by the Company, the Executive shall not be entitled to receive any Base Salary under Section 4.1 or Bonus payments under Section 4.2 but shall continue to participate in benefit plans of the Company in accordance with Section 4.4 and the terms of such plans, until the termination of his/her employment. During the 18-month period from the date of disability (as determined under Section 409A) or termination, whichever shall first occur, the Company shall contribute to the cost of the Executive's participation in group medical plans of the Company, provided that the Executive is entitled to continue such participation under applicable law and plan terms.

5.2.4 If any question shall arise as to whether during any period the Executive is disabled through any illness, injury, accident or condition of either a physical or psychological nature so as to be unable to perform substantially all of his/her duties and responsibilities hereunder, or for purposes of Section 409A the Executive may, and at the request of the Company shall, submit to a medical examination by a physician selected by the Company to whom the Executive or his/her duly appointed guardian, if any, has no reasonable objection, to determine whether the Executive is so disabled and such determination shall for the purposes of this Agreement be conclusive of the issue. If such question shall arise and the Executive shall fail to submit to such medical examination, the Board's determination of the issue shall be binding on the Executive.

5.3 By the Company for Cause. The Company may terminate the Executive's employment hereunder for Cause at any time upon notice to the Executive setting forth in reasonable detail the nature of such Cause. The following events or conditions shall constitute "Cause" for termination: (i) Executive's willful failure to perform (other than by reason of disability), or gross negligence in the performance of his/her duties to the Company or any of its Affiliates and the continuation of such failure or negligence for a period of ten (10) days after notice to the Executive; (ii) the Executive's willful failure to perform (other than by reason of

disability) any lawful and reasonable directive of the CEO; (iii) the commission of fraud, embezzlement or theft by the Executive with respect to the Company or any of its Affiliates; or (iv) the conviction of the Executive of, or plea by the Executive of *nolo contendere* to, any felony or any other crime involving dishonesty or moral turpitude. Anything to the contrary in this Agreement notwithstanding, upon the giving of notice of termination of the Executive's employment hereunder for Cause, the Company and its Affiliates shall have no further obligation or liability to the Executive hereunder, other than for Base Salary earned but unpaid through the date of termination. Without limiting the generality of the foregoing, the Executive shall not be entitled to receive any Bonus amounts which have not been paid prior to the date of termination.

5.4 By the Company Other Than for Cause. The Company may terminate the Executive's employment hereunder other than for Cause at any time upon notice to the Executive. In the event of such termination, the Company shall pay the Executive: (i) promptly following termination and in all events within thirty (30) days thereof, Base Salary earned but unpaid through the date of termination, plus (ii) severance payments for a period to end twelve (12) months after the termination date ("Severance Term"), of which (a) the first severance payment shall be made on the date that is six (6) months from the date of termination and in an amount equal six (6) times the Executive's monthly base compensation in effect at the time of such termination and (b) the balance of the severance shall be paid on a bi-weekly basis in accordance with the Company's standard payroll processes and schedule in payments beginning on the date that is seven (7) months from the date of termination and continuing through the date that is twelve (12) months from the date of termination, each such bi-weekly payment in an amount equal to the Executive's bi-weekly base compensation in effect at the time of such termination (i.e., 1/26th of the Base Salary), plus (iii) promptly following termination and in all events within thirty (30) days thereof, any unpaid portion of any Bonus for the fiscal year preceding the year in which such termination occurs that was earned but has not been paid, plus (iv) at the times the Company pays its executives bonuses generally, but no later than two and one half (2 1/2) months after the end of the fiscal year in which the Bonus is earned, an amount equal to that portion of any Bonus earned but unpaid during the fiscal year of such termination (prorated in accordance with Section 4.2).

5.5 By the Executive for Good Reason. The Executive may terminate employment hereunder for Good Reason, upon notice to the Company setting forth in reasonable detail the nature of such Good Reason. The following shall constitute "Good Reason" for termination by the Executive: (i) any material diminution in the nature and scope of the Executive's responsibilities, duties, authority or title, however, a change in reporting structure shall not constitute a material diminution of authority; (ii) material failure of the Company to provide the Executive the Base Salary and benefits in accordance with the terms of Section 4 hereof; or (iii) relocation of the Executive's office to a location outside a 50-mile radius of the Company's current headquarters in Ann Arbor, Michigan. In the event of

termination in accordance with this Section 5.5, then the Company shall pay the Executive: (x) promptly following termination and in all events within thirty (30) days thereof, Base Salary earned but unpaid through the date of termination, plus (y) six months after the termination date, an amount equal to six times the Executive's monthly base compensation in effect at the time of such termination (i.e., 1/12th of the Base Salary) and thereafter, monthly severance payments, each equal to the Executive's monthly base compensation for a period of six months, plus (z) at the times the Company pays its executives bonuses generally, but no later than two and one half (2 ½) months after the end of the fiscal year in which the bonus is earned, an amount equal to that portion of any Bonus earned but unpaid during the fiscal year of such termination (prorated in accordance with Section 4.2).

5.6 By the Executive Other Than for Good Reason. The Executive may terminate employment hereunder at any time upon 90 days written notice to the Company. In the event of termination of the Executive's employment pursuant to this Section 5.6, the CEO or the Board may elect to waive the period of notice or any portion thereof. The Company will pay the Executive his/her Base Salary for the notice period, except to the extent so waived by the Board. Upon the giving of notice of termination of the Executive's employment hereunder pursuant to this Section 5.6, the Company and its Affiliates shall have no further obligation or liability to the Executive, other than (i) payment to the Executive of his/her Base Salary for the period (or portion of such period) indicated above, (ii) continuation of the provision of the benefits set forth in Section 4.4 for the period (or portion of such period) indicated above, and (iii) any unpaid portion of any Bonus for the fiscal year preceding the year in which such termination occurs that was earned but has not been paid. The payments made under subsections (i) and (iii) hereof shall be made promptly following termination and in all events within thirty (30) days thereof.

5.7 Post-Agreement Employment. In the event the Executive remains in the employ of the Company or any of its Affiliates following termination of this Agreement, by the expiration of the Term or otherwise, then such employment shall be at will.

5.8 Delayed Payments for Specified Employees. Notwithstanding the foregoing provisions of this Section 5, if the Executive is a "specified employee" as defined in Section 409A, determined in accordance with the methodology established by the Company as in effect on the Executive's termination, amounts payable hereunder on account of the Executive's termination that would constitute nonqualified deferred compensation for purposes of Section 409A and that would, but for this Section 5.9, be payable within the six (6) month period commencing with the Executive's termination shall instead be accumulated and paid in a lump sum at the conclusion of such six-month period.

6. Effect of Termination of Employment. The provisions of this Section 6 shall apply in the event of termination of Executive's employment, pursuant to Section 5, or otherwise.

6.1 Payment in Full. Payment by the Company or its Affiliates of any Base Salary, Bonus or other specified amounts that are due to the Executive under the applicable termination provision of Section 5 shall constitute the entire obligation of the Company and its Affiliates to the Executive, except that nothing in this Section 6.1 is intended or shall be construed to affect the rights and obligations of the Company or its Affiliates, on the one hand, and the Executive, on the other, with respect to any option plans, option agreements, subscription agreements, stockholders agreements or other agreements to the extent said rights or obligations therein survive termination of employment.

6.2 Termination of Benefits. If Executive is terminated by the Company without Cause, or terminates employment with the Company for Good Reason, and provided that Executive elects continuation of health coverage pursuant to Section 601 through 608 of the Employee Retirement Income Security Act of 1974, as amended ("COBRA"), Company shall pay Executive or pay directly to the COBRA administrator, at the election of the Company, an amount equal to the monthly COBRA premiums for the Severance Term; provided further, such payment will cease upon Executive's entitlement to other health insurance without charge. Except for medical insurance coverage continued pursuant to Section 5.2 hereof, all other benefits shall terminate pursuant to the terms of the applicable benefit plans based on the date of termination of the Executive's employment without regard to any continuation of Base Salary or other payments to the Executive following termination of employment. Executive and Company agree to make such changes to the reimbursement for COBRA as may be required to ensure compliance with Internal Revenue Code section 409A.

6.3 Survival of Certain Provisions. Provisions of this Agreement shall survive any termination of employment if so provided herein or if necessary to accomplish the purpose of other surviving provisions, including, without limitation, the obligations of the Executive under Sections 7 and 8 hereof. The obligation of the Company to make payments to or on behalf of the Executive under Sections 5.2, 5.4 or 5.5 hereof is expressly conditioned upon the Executive's continued full performance of his/her obligations under Sections 7 and 8 hereof. The Executive recognizes that, except as expressly provided in Section 5.2, 5.4 or 5.5, no compensation is earned after termination of employment.

7. Confidential Information; Intellectual Property.

7.1 Confidentiality. The Executive acknowledges that the Company and its Affiliates continually develop Confidential Information (as that term is defined in Section 11.2, below); that the Executive may develop Confidential Information for the Company or its Affiliates and that the Executive may learn of Confidential

Information during the course of his/her employment. The Executive will comply with the policies and procedures of the Company and its Affiliates for protecting Confidential Information and shall never use or disclose to any Person (except as required by applicable law or for the proper performance of his/her duties and responsibilities to the Company) any Confidential Information obtained by the Executive incident to his/her employment or other association with the Company and its Affiliates. The Executive understands that this restriction shall continue to apply after employment terminates, regardless of the reason for such termination.

7.2 Return of Documents. All documents, records, tapes and other media of every kind and description relating to the business, present or otherwise, of the Company and its Affiliates and any copies, in whole or in part, thereof (the "Documents"), whether or not prepared by the Executive, shall be the sole and exclusive property of the Company and its Affiliates. The Executive shall safeguard all Documents and shall surrender to the Company and its Affiliates at the time employment terminates, or at such earlier time or times as the Board or CEO designee may specify, all Documents then in the Executive's possession or control.

7.3 Assignment of Rights to Intellectual Property. The Executive shall promptly and fully disclose all Intellectual Property to the Company. The Executive hereby assigns to the Company (or as otherwise directed by the Company) the Executive's full right, title and interest in and to all Intellectual Property. The Executive shall execute any and all applications for domestic and foreign patents, copyrights or other proprietary rights and to do such other acts (including without limitation the execution and delivery of instruments of further assurance or confirmation) requested by the Company or its Affiliates to assign the Intellectual Property to the Company and to permit the Company and its Affiliates to enforce any patents, copyrights or other proprietary rights to the Intellectual Property. The Executive will not charge the Company or its Affiliates for time spent in complying with these obligations. All copyrightable works that the Executive creates shall be considered "Work For Hire" under applicable laws.

8. Restricted Activities.

8.1 Agreement Not to Compete With the Company. During the Executive's employment hereunder and for a period of 24 months following the date of termination thereof (the "Non-Competition Period"), the Executive will not, directly or indirectly, own, manage, operate, control or participate in any manner in the ownership, management, operation or control of, or be connected as an officer, employee, partner, director, principal, member, manager, consultant, agent or otherwise with, or have any financial interest in, or aid or assist anyone else in the conduct of, any business, venture or activity which in any material respect competes with the following enumerated business activities to the extent then being conducted or being planned to be conducted by the Company or its Affiliates or being conducted or known by the Executive to being planned to be conducted by

the Company or by any of its Affiliates, at or prior to the date on which the Executive's employment under this Agreement is terminated (the "Date of Termination"), in the United States or any other geographic area where such business is being conducted or being planned to be conducted at or prior to the Date of Termination (a "Competitive Business", defined below). For purposes of this Agreement, "Competitive Business" shall be defined as: (i) any company or other entity engaged as a "quick service restaurant" ("QSR") which offers pizza for sale; (ii) any "quick service restaurant" which is then contemplating entering into the pizza business or adding pizza to its menu; (iii) any entity which at the time of Executive's termination of employment with the Company, offers, as a primary product or service, products or services then being offered by the Company or which the Company is actively contemplating offering; and (iv) any entity under common control with an entity included in (i), (ii) or (iii), above. Notwithstanding the foregoing, ownership of not more than 5% of any class of equity security of any publicly traded corporation shall not, of itself, constitute a violation of this Section 8.1.

8.2 Agreement Not to Solicit Employees or Customers of the Company. During employment and during the Non-Competition Period the Executive will not, directly or indirectly, (i) recruit or hire or otherwise seek to induce any employees of the Company or any of the Company's Affiliates to terminate their employment or violate any agreement with or duty to the Company or any of the Company's Affiliates; or (ii) solicit or encourage any franchisee or vendor of the Company or of any of the Company's Affiliates to terminate or diminish its relationship with any of them or to violate any agreement with any of them, or, in the case of a franchisee, to conduct with any Person any business or activity that such franchisee conducts or could conduct with the Company or any of the Company's Affiliates.

9. Enforcement of Covenants. The Executive acknowledges that he/she has carefully read and considered all the terms and conditions of this Agreement, including without limitation the restraints imposed upon his/her pursuant to Sections 7 and 8 hereof. The Executive agrees that said restraints are necessary for the reasonable and proper protection of the Company and its Affiliates and that each and every one of the restraints is reasonable in respect to subject matter, length of time and geographic area. The Executive further acknowledges that, were he/she to breach any of the covenants or agreements contained in Sections 7 or 8 hereof, the damage to the Company and its Affiliates could be irreparable. The Executive, therefore, agrees that the Company and its Affiliates, in addition to any other remedies available to it, shall be entitled to preliminary and permanent injunctive relief against any breach or threatened breach by the Executive of any of said covenants or agreements. The parties further agree that in the event that any provision of Section 7 or 8 hereof shall be determined by any court of competent jurisdiction to be unenforceable by reason of it being extended over too great a time, too large a geographic area or too great a range of activities, such provision shall be deemed to be modified to permit its enforcement to the maximum extent permitted by law.

10. **Conflicting Agreements.** The Executive hereby represents and warrants that the execution of this Agreement and the performance of his/her obligations hereunder will not breach or be in conflict with any other agreement to which or by which the Executive is a party or is bound and that the Executive is not now subject to any covenants against competition or solicitation or similar covenants or other obligations that would affect the performance of his/her obligations hereunder. The Executive will not disclose to or use on behalf of the Company or any of its Affiliates any proprietary information of a third party without such party's consent.
11. **Definitions.** Words or phrases which are initially capitalized or are within quotation marks shall have the meanings provided in this Section 11 or as specifically defined elsewhere in this Agreement. For purposes of this Agreement, the following definitions apply:
- 11.1 **Affiliates.** "Affiliates" shall mean Domino's Pizza, Inc., Domino's, Inc. and all other persons and entities controlling, controlled by or under common control with the Company, where control may be by management authority or equity interest.
- 11.2 **Confidential Information.** "Confidential Information" means any and all information of the Company and its Affiliates that is not generally known by others with whom they compete or do business, or with whom they plan to compete or do business, and any and all information the disclosure of which would otherwise be adverse to the interest of the Company or any of its Affiliates. Confidential Information includes without limitation such information relating to (i) the products and services sold or offered by the Company or any of its Affiliates (including without limitation recipes, production processes and heating technology), (ii) the costs, sources of supply, financial performance and strategic plans of the Company and its Affiliates, (iii) the identity of the suppliers to the Company and its Affiliates, and (iv) the people and organizations with whom the Company and its Affiliates have business relationships and those relationships. Confidential Information also includes information that the Company or any of its Affiliates have received belonging to others with any understanding, express or implied, that it would not be disclosed.
- 11.3 **ERISA.** "ERISA" means the federal Employee Retirement Income Security Act of 1974 and any successor statute, and the rules and regulations thereunder, and, in the case of any referenced section thereof, any successor section thereto, collectively and as from time to time amended and in effect.
- 11.4 **Intellectual Property.** "Intellectual Property" means inventions, discoveries, developments, methods, processes, compositions, works, concepts, recipes and ideas (whether or not patentable or copyrightable or constituting trade secrets or trademarks or service marks) conceived, made, created, developed or reduced to practice by the Executive (whether alone or with others, whether or not during normal business hours or on or off Company premises) during the Executive's employment that relate to either the business activities or any prospective activity of the Company or any of its Affiliates.

11.5 Person. "Person" means an individual, a corporation, an association, a partnership, a limited liability company, an estate, a trust and any other entity or organization.

12. Withholding/Other Tax Matters. All payments made by the Company under this Agreement shall be reduced by any tax or other amounts required to be withheld by the Company under applicable law. This Agreement shall be construed consistent with the intent that all payment and benefits hereunder comply with the requirements of, or the requirements for exemption from, Section 409A. Notwithstanding the foregoing, the Company shall not be liable to the Executive for any failure to comply with any such requirements.

13. Miscellaneous.

13.1 Assignment. Neither the Company nor the Executive may assign this Agreement or any interest herein, by operation of law or otherwise, without the prior written consent of the other; provided, however, that the Company may assign its rights and obligations under this Agreement without the consent of the Executive in the event that the Company shall hereafter affect a reorganization, consolidate with, or merge into, any other Person or transfer all or substantially all of its properties or assets to any other Person, in which event such other Person shall be deemed the "Company" hereunder, as applicable, for all purposes of this Agreement; provided, further, that nothing contained herein shall be construed to place any limitation or restriction on the transfer of the Company's Common Stock in addition to any restrictions set forth in any stockholder agreement applicable to the holders of such shares. This Agreement shall inure to the benefit of and be binding upon the Company and the Executive, and their respective successors, executors, administrators, representatives, heirs and permitted assigns.

13.2 Severability. If any portion or provision of this Agreement shall to any extent be declared illegal or unenforceable by a court of competent jurisdiction, then the application of such provision in such circumstances shall be deemed modified to permit its enforcement to the maximum extent permitted by law, and both the application of such portion or provision in circumstances other than those as to which it is so declared illegal or unenforceable and the remainder of this Agreement shall not be affected thereby, and each portion and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

13.3 Waiver; Amendment. No waiver of any provision hereof shall be effective unless made in writing and signed by the waiving party. The failure of either party to require the performance of any term or obligation of this Agreement, or the waiver by either party of any breach of this Agreement, shall not prevent any subsequent enforcement of such term or obligation or be deemed a waiver of any

subsequent breach. This Agreement may be amended or modified only by a written instrument signed by the Executive and any expressly authorized representative of the Company.

13.4 Notices. Any and all notices, requests, demands and other communications provided for by this Agreement shall be in writing and shall be effective when delivered in person or deposited in the United States mail, postage prepaid, registered or certified, and addressed (i) in the case of the Executive, to: Judith L. Werthaus, 30 Frank Lloyd Wright, Ann Arbor, Michigan 48106, and (ii) in the case of the Company, to the attention of Chief Executive Officer, at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48106, or to such other address as either party may specify by notice to the other actually received.

13.5 Entire Agreement. This Agreement constitutes the entire agreement between the parties and supersedes any and all prior communications, agreements and understandings, written or oral, between the Executive and the Company, or any of its predecessors, with respect to the terms and conditions of the Executive's employment.

13.6 Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be an original and all of which together shall constitute one and the same instrument.

13.7 Governing Law. This Agreement shall be governed by and construed in accordance with the domestic substantive laws of the State of Michigan without giving effect to any choice or conflict of laws provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

13.8 Consent to Jurisdiction. Each of the Company and the Executive evidenced by the execution hereof, (i) hereby irrevocably submits to the jurisdiction of the state courts of the State of Michigan for the purpose of any claim or action arising out of or based upon this Agreement or relating to the subject matter hereof and (ii) hereby waives, to the extent not prohibited by applicable law, and agrees not to assert by way of motion, as a defense or otherwise, in any such claim or action, any claim that it or he/she is not subject personally to the jurisdiction of the above-named courts, that its or his/her property is exempt or immune from attachment or execution, that any such proceeding brought in the above-named courts is improper, or that this Agreement or the subject matter hereof may not be enforced in or by such court. Each of the Company and the Executive hereby consents to service of process in any such proceeding in any manner permitted by Michigan law, and agrees that service of process by registered or certified mail, return receipt requested, at its address specified pursuant to Section 13.4 hereof is reasonably calculated to give actual notice.

IN WITNESS WHEREOF, this Agreement has been executed by the Company, by its duly authorized representative, and by the Executive, as of the date first above written.

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal controls over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
